Filed Electronically

The Honorable Kimberly D. Bose
Secretary
Federal Energy Regulatory Commission
888 First Street N.E., Room 1A
Washington, D.C. 20585

RE: Standards for Business Practices of Public Utilities (Docket No. RM 05-5 et al)

Dear Ms. Bose:

The North American Energy Standards Board ("NAESB") herewith submits this report to the Federal Energy Regulatory Commission ("FERC" or "Commission") regarding NAESB's activities from February 2009 to July 2012 with respect to Version 003 of the NAESB Wholesale Electric Quadrant ("WEQ") standards. The NAESB WEQ Version 003 standards approved by the WEQ Executive Committee and ratified by the membership were published on July 31, 2012 and are referenced herein.¹ An executive summary of the changes which resulted in Version 003 is included in the attached report, along with a description of the standards that were created or modified as part of Version 003.

The standards in this submittal include modifications of existing standards or new standards to support FERC Order Nos. 890², 890-A³, 890-B⁴ and 890-C,⁵ including the standards to support Network Integration Transmission Service on Open Access Same-Time Information System (OASIS), the previously filed standards to support Service Across Multiple Transmission Systems (SAMTS)⁶, standards to support the Commissions policy regarding rollover rights for redirects on a firm basis, standards that incorporate the functionality for transmission providers to credit redirect requests with the capacity of the parent reservation and standards modifications to support consistency across the OASIS related standards. In addition to the standards modifications and development of new standards related to

¹ The NAESB standards referenced in this report are reasonably available to the public through multiple methods. To access the standards at no cost, NAESB will provide a limited copyright waiver for evaluation purposes using a product called Locked Lizard (<http://www.locklizard.com>). To request a waiver, please contact the NAESB office or follow the instructions in the following document: <http://www.naesb.org/pdf/ordrform.pdf>.

² Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12,266 (March 15, 2007), FERC Stats. & Regs. ¶ 31,241 (2007) (Order No. 890).

³ Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12, 266 (March 15, 2007), FERC Stats. & Regs. ¶ 31, 241, order on reh'g, Order No. 890-A, 73 FR 2,984 (January 16, 2008), FERC Stats. & Regs. ¶ 31,261 (2007) (Order No. 890-A).

⁴ Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12, 266 (March 15, 2007), FERC Stats. & Regs. ¶ 31, 241, order on reh'g, Order No. 890-A, 73 FR 2,984 (January 16, 2008), FERC Stats. & Regs. ¶ 31,261 (2007), order on reh'g, Order No. 890-B, 123 FERC ¶ 61,299 (2008) (Order 890-B).

⁵ Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12, 266 (March 15, 2007), FERC Stats. & Regs. ¶ 31, 241, order on reh'g, Order No. 890-A, 73 FR 2,984 (January 16, 2008), FERC Stats. & Regs. ¶ 31,261 (2007), order on reh'g, Order No. 890-B, 123 FERC ¶ 61,299 (2008), order on reh'g and clarification, Order No. 890-C, 126 FERC ¶ 61,228 (2009) (Order No. 890-C).

⁶ Submittal for NAESB Standards Development to Support Coordination of Requests for Transmission Service Across Multiple Transmission Systems (Docket No. RM05-5-013, Order No. 676-E), available at: http://www.naesb.org/pdf4/ferc_100711_samts.pdf (submitted October 17, 2011). Minor Corrections, available at: http://www.naesb.org/pdf4/ferc_012512_weq_minor_corrections_samts.pdf (submitted January 25, 2012).

email: naesb@naesb.org • Web Site Address: www.naesb.org

September 18, 2012

FERC Order No. 890, modifications were made to the set of OASIS Business Practice Standards to support FERC Order Nos. 676,⁷ 676-A,⁸ 676-E⁹ and 717¹⁰ and for the purpose of consistency.

Standards included in this submittal that are not related to the OASIS set of standards include, modifications to the Coordinate Interchange standards to compliment the updates to the e-Tag specification,¹¹ modifications to the Gas/Electric Coordination standards to provide consistency between the two markets and a standard set of terms, definitions and acronyms applicable to all NAESB WEQ standards. The report also includes standards for Demand Side Management and Energy Efficiency, as previously filed with the Commission on April 17, 2009¹² and April 30, 2011¹³ and the Smart Grid related standards previously filed with the Commission on July 7, 2011.¹⁴

The development efforts in NAESB reflect the work of multiple market interests. In addition, the NAESB WEQ has worked in close coordination with NERC on business practice standards that are complementary to NERC reliability standards so that the standards for both organizations remain in lock-step for consistency in the wholesale electric industry. The inter-organization collaborations are not only permitted in the NAESB process, but strongly encouraged – to provide an environment in which standards development has a more diverse vetting in the industry and a resulting broader acceptance and application.

Some of the standards development activity undertaken that produced Version 003 had considerable industry debate before an agreement was reached on the level of standardization needed and the actual text of the standards themselves. The NAESB process supports a wide range of perspectives, and through a public process permitting all segments of the marketplace to voice equally their issues, balanced voting allows a disparate group to move towards consensus.

All requests for new standards or modifications of existing standards and requests for interpretation are posted on the NAESB home page. All work papers and recommendations from subcommittees and task forces regarding the requests are also posted on the NAESB home page (www.naesb.org). Participation in the task forces and subcommittees, where requests are addressed and recommended standards are formulated and voted out of

committee, is open to any interested party regardless of membership. Should a participant be unable to attend a meeting where a request of interest is discussed, the party may prepare written comments, which will be posted as work papers for the subcommittee or task force.

The Executive Committee meetings where these standards were discussed and adopted took place from February 2009 to May 2012. The minutes of these meetings are provided as links, which include the voting records of the Executive Committee. The ratification ballots and member ratification voting record results are also included as links. All comments that were filed on the standards as part of the NAESB formal comment period are also included as links.

The cover letter, report and enclosures are being filed electronically in Adobe Acrobat® Print Document Format (.pdf), with each enclosure bookmarked separately. The filing is also available on the NAESB web site (www.naesb.org). Please feel free to call me at (713) 356-0060 or refer to the NAESB website (www.naesb.org) should you have any questions or need additional information regarding the NAESB WEQ Version 003 standards.

Respectfully submitted,

Rae McQuade

REPORT OF THE NORTH AMERICAN ENERGY STANDARDS BOARD

The North American Energy Standards Board ("NAESB") is voluntarily submitting this report in accordance with the Federal Energy Regulatory Commission's ("FERC" or "Commission") Order Nos. 890,¹ 890-A,² 890-B,³ 890-C,⁴ 676,⁵ 676-A,⁶ 676-E⁷ and 717⁸ in the above referenced docket. The report includes a summary of the changes that resulted in Version 003 of the wholesale electric quadrant standards, along with a list of the standards that were created or modified as part of Version 003 - cross-referenced both by request number and by version. The standards can be downloaded from the NAESB home page (www.naesb.org).

In January 2002, the Gas Industry Standards Board ("GISB") became the Wholesale Gas Quadrant (WGQ) of NAESB and three other quadrants were formed, the Wholesale Electric Quadrant (WEQ), the Retail Gas Quadrant, and Retail Electric Quadrant. NAESB WEQ Version 0 standards⁹ were adopted by the WEQ and

¹ Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12,266 (March 15, 2007), FERC Stats. & Regs. ¶ 31,241 (2007) (Order No. 890).

² Preventing Undue Discrimination and Preference in Transmission Service, Order No. 890, 72 FR 12, 266 (March 15, 2007), FERC Stats. & Regs. ¶ 31, 241, order on reh'g, Order No. 890-A, 73 FR 2,984 (January 16, 2008), FERC Stats. & Regs. ¶ 31,261 (2007) (Order No. 890-A).

⁹ NAESB Version 000 standards in Response to FERC Order No. 890, Docket Nos. RM05-25-000 and RM05-17-000, *available at* http://www.naesb.org/member_login_form.asp?doc=ferc011805_report.pdf (submitted January 18, 2005). This document is password protected. Non-members should contact the NAESB office to access this document.

published on January 15, 2005. NAESB WEQ Version 1 standards¹⁰ were adopted by the WEQ and published on October 31, 2007 and subsequently filed with the Commission on December 21, 2007. NAESB WEQ Version 002 standards¹¹ were adopted by the WEQ and filed with the Commission on August 29, 2008 and subsequently published on September 30, 2008. NAESB WEQ Version 002.1 standards¹² were adopted by the WEQ and filed with the Commission on February 19, 2009 and subsequently published on March 11, 2009.

There are eleven enclosures supporting the report. Provided in Appendix A is a list of the links to the minutes from the Executive Committee ("EC") meetings during which recommendations were considered that resulted in Version 003 of the NAESB WEQ standards. The EC minutes include discussion of recommendations from task forces and subcommittees, which ultimately resulted in the standards for Version 003. The EC voting records are attached as part of the minutes. Also included in Appendix A is the list of links to all comments filed on the standards that were recommended for adoption to the EC. Provided in Appendix B is the list of links to the NAESB membership ratification ballots, which include the EC adopted recommendations that are the basis for the Version 003 modifications. Also provided in this appendix is the list of links to the ratification results. Appendix C provides the list of available transcripts. Provided in Appendix D, is a cross reference of the standards adopted as part of Version 003 and filed with the Commission and the subsequent Commission action on those standards. Appendix E provides an overview of the NAESB process by which the standards were adopted. Appendices F, G, H, I, and J contain the 2008 - 2012 WEQ Annual Plans respectively, and Appendix I includes the references to the minor corrections that were applied and referenced in Version 002.1 and Version 003.

This report is intended solely as a status report from NAESB regarding Version 003 of its standards. NAESB does not advocate that the Commission take a particular position on any of the standards presented.

VERSION 003 SUMMARY

Presented here is a summary of the activities that led to the compilation of the NAESB Wholesale Electric Quadrant (WEQ) Standards Version 003. All references in this summary pertain only to the WEQ. Supporting documents can be found in Appendices A, B, C, D, E, F, G, H, I, J and K as enclosures to this report. All Version 003 standards that were added or modified are contained in a table following this summary. The table cross references the standards to the related requests for development and the actions that were taken.

A number of standards included in the WEQ Version 003 publication have been submitted to the Commission in previous reports or are the subject of Commission action including the standards to support Service Across Multiple Transmission Systems (SAMTS), the Smart Grid related standards, phase two of the Measurement and Verification of Wholesale Electricity Demand Response standards and the standards to support Measurement

and Verification of the Energy Efficiency Products. As such, references to the status of all standards included in this report are made as to whether they have been provided to the Commission as a part of other reports or if they are subject of Commission action.

Five standards included in the report were developed in response to FERC Order No. 890 including the previously filed standards to support SAMTS,¹³ part two of the standards modifications to the WEQ-001-9.7 Business Practice Standard requested in FERC Order No. 890-A¹⁴ related to rollover rights to requests for redirect on a firm basis, the WEQ-001-10.3.1.1 and WEQ-001-9.1.3.1 Business Practice standards which provide for transmission providers to process redirect requests in a manner in which the request would receive a credit for the available transfer capability encumbered by the parent reservation, standards to support Network Integration Transmission Service on the Open Access Same-Time Information System (OASIS) and standards modifications to support consistency across the NAESB OASIS standards.

In addition to the OASIS standards modified or developed in response FERC Order No. 890, three additional standards modification efforts were undertaken by the OASIS Subcommittee that have an impact on the OASIS standards. Modifications to the WEQ-013-2.6.81 and WEQ-013-2.6.82 Business Practice Standards were made to clarify the listing of service types, modifications to the WEQ-001-14.1.3 and WEQ-001-15.1.2 Business Practice Standards regarding the timing of posting of narratives, and modifications to several of the WEQ-001, WEQ-002 and WEQ-003 Business Practice Standards in response to FERC Order No. 717 concerning standards of conduct posting requirements.

A development effort to modify the Coordinate Interchange (WEQ-004) standards by the Joint Electric Scheduling Subcommittee (JESS), a standing joint subcommittee made of both NERC and NAESB participants tasked with the maintenance of the coordinate interchange business practice standards and reliability standards, was undertaken to modify the WEQ-001, WEQ-003, WEQ-004 and WEQ-013 Business Practice Standards in coordination with revisions made to the Electronic Tagging Functional Specification.¹⁵ Additional modifications were made to the WEQ-004 standards to support the development of the Abbreviations, Acronyms and Definition of Terms standards (WEQ-000) and to provide consistency across all WEQ standards.

Similar modifications to support the consistency of the WEQ standards were made to the Gas/Electric Coordination standards in addition to modifications to the harmonize cross quadrant terms and definitions contained within the standard. These changes were also coordinated with terms contained in the NERC Glossary.

Also included in the WEQ Version 003 publication and referenced in this report, are the standards developed to support Smart Grid applications and the measurement and verification of Demand Response (DR) and

¹³ Submittal of NAESB Standards Development to Support Coordination of Requests for Transmission Service Across Multiple Transmission Systems (Docket No. RM05-5-013, Order No. 676-E), available at: http://www.naesb.org/pdf4/ferc_100711_samts.pdf (submitted October 7, 2011). This document is password protected. Non-members should contact the NAESB office to access this document.

¹⁵ NAESB WEQ Electronic Tagging – Functional Specifications, Version 1.8.1, available at: http://www.naesb.org/member_login_check.asp?doc=weq_etag_specification_v181_102709_mc062311.pdf. This document is password protected. Non-members should contact the NAESB office to access this document.

Energy Efficiency (EE) products. These standards were the subject of a previous NAESB report or are the subject of Commission action.¹⁶

Finally, included in this report is an interpretation of the WEQ-001-9.1 and WEQ-001-10.1 Business Practice Standards and the results of a quadrant wide effort to provide a common location for all abbreviations, acronyms and definitions of terms that created the WEQ-000 Business Practice Standards and addressed both internal inconsistencies and inconsistencies with the NERC Glossary.

As with most NAESB standards development of this magnitude, some of the standards development activity undertaken that produced Version 003 had considerable industry debate before an agreement was reached on the level of standardization needed and the actual text of the standards themselves. The NAESB process supports a wide range of perspectives, and through a public process permitting all segments of the marketplace to voice equally their issues, balanced voting allows a disparate group to move towards consensus.

The summary is organized into ten sections: FERC Order No. 890 related standards, OASIS standards not related to FERC Order No. 890, FERC Order No. 717 related standards, Coordinate Interchange standards, Gas/Electric Coordination standards, Smart Grid related standards, Demand Side Management and Energy Efficiency standards, standards related to Terms, Definitions and Acronyms, Interpretations, and items identified for NAESB standards development for which NAESB has decided no standards development is necessary. Descriptions of each grouping are shown below:

FERC Order No. 890 Related Standards

Standards subject of a previous report to the Commission or action by the Commission

NAESB is submitting one FERC Order No. 890 related standard that has been the subject of a previous report submitted to the Commission or the subject of action by the Commission. It is described below.

In response to paragraph 1377 of FERC Order No. 890 requesting “transmission providers work through NAESB to develop business practice standards related to the coordination of requests across multiple transmission systems,”¹⁷ the OASIS Subcommittee developed and the NAESB WEQ adopted standards that provide a process by which a customer may complete a cross-regional transaction. The Service Across Multiple Transmission System (SAMTS) standards were previously filed with the Commission on October 7, 2011 and are included in the Version 003 publication.¹⁸ The standards require that each affected provider independently evaluate its portion of the linked request with the opportunity for reconciliation by the customer once all evaluations are complete. After submitting and monitoring requests on multiple systems, the customer can communicate reconciled information to each of the affected providers. The SAMTS standards focus exclusively on the coordination of point-to-point transmission service and/or network transmission service requests across multiple transmission systems. The SAMTS process modifies and adds standards or terms to the Abbreviations, Acronyms and Definition of Terms (WEQ-000), the

¹⁶ Submittal of Smart Grid Related Standards (Docket No. RM05-5-000, et al.), *available at*: http://www.naesb.org/pdf4/ferc_070711_smartgrid_standards.pdf (submitted July 7, 2011).

NAESB Report on Wholesale Electric Market Measurement and Verification Standards for Demand Response Products and Services, Docket No. RM05-5-000, *available at* http://naesb.org/pdf4/ferc041709_dsm_filing.pdf (April 17, 2009).

OASIS Business Practice Standards (WEQ-001), the OASIS Standards and Communication Protocols (WEQ-002), the OASIS Data Dictionary (WEQ-003), and the OASIS Implementation Guide (WEQ-013).

An Executive Committee Task Force was created for the purpose of establishing the scope of the SAMTS standards effort and met nine times from March 2010 to June 2010. The scope, as defined by the task force, was approved by the WEQ EC on August 17, 2010 and amended on February 1, 2011. After receiving guidance from the WEQ EC Task Force, the standards were developed through fourteen OASIS Subcommittee meetings held from January 2011 to June 2011. The recommended standards were approved by the OASIS Subcommittee on May 5, 2011. The recommendation was sent out for a thirty-day industry comment period on May 11, 2011 and ended on June 10, 2011. A substantive and technical review of the proposed standards by the WEQ EC was held on May 20, 2011 to help provide guidance for industry participants submitting comments. The WEQ EC met to consider the recommendation and the comments received on June 30, 2011. The vote on the recommended standards was inconclusive, so a notational ballot was sent out to the WEQ EC members that were not present to vote at the meeting. Through notational ballots due on July 8, 2011, the EC approved the recommendation and the standards were ratified by the WEQ membership on August 11, 2011.

Standards not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes four sets of standards related to FERC Order No. 890 that have not been the subject of a previous report submitted to the Commission by NAESB or the subject of action by the Commission. The sets of standards are described below.

- 1) The first set of standards embodies the second part of a two-part process to address revisions to the WEQ-001-9.7 Business Practice Standard.¹⁹ In paragraph no. 52 of FERC Order No. 676, the Commission declined to adopt the WEQ-001-9.7 Business Practice Standard, filed as part of the WEQ Version 000 publication, concluding the standard was “inconsistent with the pro forma OATT and the Commission’s policies” on the treatment of rollover rights for requests to redirect on a firm basis and allowed the WEQ to reconsider and adopt a revised version of the standard.²⁰ The Commission provided guidance to NAESB regarding the Commission’s policy on rollover rights in FERC Order Nos. 676,²¹ 676-A,²² 890²³ and 890-A.²⁴ In addition to the guidance provided through the FERC orders, a written clarification was provided to NAESB by Commission staff regarding rollover rights under the pro forma OATT.²⁵ Using this guidance,

²³ Order No. 890 at ¶ 1280 – 1282.

²⁴ Order No. 890-A at ¶ 697, 698 and 704 – 708.

²⁵ See Rollover of Redirects FERC Staff Interpretation of OATT, *available at* http://www.naesb.org/pdf4/weq_ec010809w5.doc. And Rollver of Redirects FERC Staff Follow-up Response, *available at* http://www.naesb.org/pdf4/weq_ec010809a1.doc

the OASIS Subcommittee modified the WEQ-001-9.7 Business Practice Standard in an effort to align NAESB business practice standards with the FERC policy pertaining to the grant of rollover rights to requests for redirect on a firm basis. Additionally, the subcommittee added examples for the conveyance of rollover rights with a redirect on a firm basis to Appendix B of the WEQ-001 standards, modified the WEQ-001-9 Business Practice Standards, modified the definition of Unexercised Rollover Rights and added a definition for Capacity Eligible for Rollover. Corresponding modifications were also made to the WEQ-001, WEQ-002 and WEQ-013 Business Practice Standards. These modifications complete a two-part process to address the WEQ-001-9.7 Business Practice Standard as described in the report that provided the WEQ Version 002.1 publication of standards.²⁶ The OASIS Subcommittee met five times over the course of ten days to develop a recommendation. The recommendation passed a subcommittee vote on April 9, 2009 and was sent out for a thirty-day comment period on April 13, 2009. The WEQ EC adopted the recommendation on June 8, 2009, and the recommendation was ratified on July 27, 2009.

- 2) Second, on February 21, 2012, the WEQ EC approved the addition of the WEQ-001-10.3.1.1 and WEQ-001-9.1.3.1 Business Practice Standards to provide functionality in the standards for transmission providers to process redirect requests in a manner in which the request would receive a credit for the available transfer capability encumbered by the parent reservation to the extent that available transfer capability was needed to enable service to the redirect request. The OASIS Subcommittee crafted the modifications to avoid an implementation that could result in a violation of the first come, first served principle of queue priority. The subcommittee drafted and voted out the recommendation on January 25-26, 2012. The recommendation was adopted by the WEQ EC Committee on February 21, 2012, and was ratified by membership on March 26, 2012.
- 3) Next, in response to FERC Order Nos. 890²⁷, 890-A²⁸, 890-B²⁹ and 890-C³⁰, the WEQ EC adopted business practice standards to support the OASIS functionality associated with NITS on May 1, 2012. In paragraph no. 385 of FERC Order No. 890, the Commission ordered “public utilities, working through NAESB, to develop appropriate templates for OASIS” in order to use the system to “request designation of new network resources and to terminate designation of network resources.”³¹ Paragraph no. 1477 of FERC Order No. 890 directed “transmission providers to work in conjunction with NAESB to develop business practice standards describing procedural requirements for submitting designations over any new OASIS functionality.”³² In response to FERC Order No. 890 and subsequent FERC Orders, the WEQ OASIS Subcommittee began the effort in February 2007 to develop new standards and templates that support applications for network service on the OASIS system. The standards provide functionality for:

²⁸ Order No. 890-A at ¶ 919.

²⁹ Order No. 890-B at ¶ 182, 188 and 209.

³⁰ Order No. 890-C at ¶ 17.

³¹ Order No. 890 at ¶ 385.

³² Order No. 890 at ¶ 1477.

- transmission providers to handle requests (loads, designation network resource, non-designated resources) on a customer-by-customer basis,
- the optionality of tracking designated network resource scheduling rights, and
- the customers to assign agents to administer OASIS transactions on their behalf.

The recommendation proposed new standards and modifications to standards that affect the WEQ-000, WEQ-001, WEQ-002 and WEQ-003 Business Practice Standards. In addition, narrative examples and process diagrams were added to the WEQ-013 Business Practice Standards to assist users in their implementation efforts.

To develop the recommendation, the OASIS Subcommittee met ninety-seven times over one-hundred and sixty-eight days over the course of five years. The recommendation passed a subcommittee vote on December 1, 2011 and was sent out for an extended seventy-five day industry comment period on December 13, 2011. Given the magnitude of the number of standards developed or modified as part of the recommendation and the impact NITS has on the OASIS standards, a single topic review session was held on January 24, 2012 by the WEQ EC to facilitate discussion between the subject matter experts and industry participants developing comments regarding the recommendation. In response to the large number of comments received on the recommendation, a series of OASIS Subcommittee meetings were held to allow the subcommittee to review and respond to the comments in preparation for WEQ EC consideration. The recommendation was adopted during a two-day WEQ EC meeting held on April 30, 2012 and May 1, 2012 and ratified by the membership on June 11, 2012.

- 4) Finally, while working on efforts to satisfy FERC directives related to FERC Order No. 890, the WEQ OASIS Subcommittee developed a recommendation proposing modifications to the introduction sections and adding applicability sections to the OASIS standards where necessary for consistency. The introduction section of the standards provides a brief description of the purpose of the standard, while the applicability section provides the entities that are impacted by the standard. In addition, the recommendation proposed modifications to the organization and the structure of WEQ-001 and WEQ-013 for consistency. The OASIS Subcommittee met twice over five days to address this item. The recommendation developed by the subcommittee passed a subcommittee vote on August 4, 2011 and was sent out for a thirty-day industry comment period on August 9, 2011. The WEQ EC adopted the recommendation on October 25, 2011 and was ratified by the membership on November 28, 2011.

OASIS Standards not Related to FERC Order No. 890

Standards not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes three sets of OASIS standards not related to FERC Order No. 890 that have not been the subject of a previous report submitted to the Commission or the subject of action by the Commission. They are described below.

- 1) First, the OASIS Subcommittee proposed modifications to the WEQ-013-2.6.8.1 and WEQ-013-2.6.8.2 standards. The minor modifications clarify that the listings of service types within the parentheses are intended to be examples and not definitive. The OASIS Subcommittee met twice over three days to address the issue. The recommendation developed by the subcommittee passed a subcommittee vote on February 9, 2012 and was sent out for a thirty-day industry comment period on February 21, 2012. The recommendation was adopted by the WEQ EC on May 1, 2012 and was ratified on June 11, 2012.
- 2) Second, on October 25, 2011, the WEQ EC modified its business practice standards in response to FERC Order Nos. 890 and 676-E. In paragraph no. 221 of FERC Order No. 890, the Commission specifically requested that NAESB seek to develop business practice standards governing the terms and conditions of conditional firm service and the posting requirement for available transfer capability.³³ In paragraph no. 38 of FERC Order No. 676-E, the Commission adopted the WEQ-001-14 standards for Zero ATC Narrative and the WEQ-001-15 standards for ATC Change Narrative, with the exception of the WEQ-001-14.1.3 standard and the WEQ-001-15.1.2 standard.³⁴ The Commission declined to adopt the standards, stating in paragraph no. 39 of FERC Order No. 676-E “[t]ransmission providers must post their narratives as soon as feasibly possible. Posting within one day would appear in most cases to be reasonable.”³⁵ In response, the OASIS Subcommittee modified the business practice standards to comply with FERC direction by recommending that narratives be posted within one business day and requiring a posting within five business days. The recommendation was developed by the subcommittee over the course of two meetings, spanning five days and passed a subcommittee vote on August 2, 2011. The recommendation was sent out for a thirty-day industry comment period on August 9, 2011 and the WEQ EC adopted the recommendation during the October 25, 2011 meeting. The recommendation was ratified on November 28, 2011.
- 3) In FERC Order No. 717 issued on October 16, 2008, the Commission made several modifications related to the posting requirements associated with the standards of conduct.³⁶ Specifically, the Commission discontinued the requirement for public utilities to post standards of conduct information on OASIS.³⁷ In response, the Business Practice Subcommittee modified the WEQ-001, WEQ-002 and WEQ-003 Business Practice Standards to remove reference to the standards of conduct related obligations with the exception of a few template structures that may be implemented at the option of the transmission provider. To develop the recommendation, the subcommittee held two meetings on February 9, 2009 and March 9, 2009 and voted the recommendation out of subcommittee on March 23, 2009. On May 12, 2009 the WEQ EC considered the recommendation and voted to adopt the modifications. The modifications were ratified by the NAESB membership on June 15, 2009.

Coordinate Interchange Standards

Standards not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes one Coordinate Interchange related standard that has not been the subject of a previous report submitted to the Commission or the subject of action by the Commission. It is described below.

On October 27, 2009, the WEQ EC adopted modifications to the WEQ-001, WEQ-003, WEQ-004 and WEQ-0013 Business Practice Standards. The modifications proposed by the Joint Electric Scheduling Subcommittee (JESS) to the WEQ-004 Business Practice Standards were completed to ensure that the standards are consistent with revisions made to the Electronic Tagging Functional Specification³⁸ during the update from Version 1.8 to Version 1.8.1 and incorporated a guideline for rounding schedules with partial megawatt hours. The guideline standardizes the rounding of partial megawatt hours schedules. The JESS also made conforming modifications to the WEQ-001, WEQ-003 and WEQ-013 Business Practice Standards and removed the definitions from the WEQ-004 Business Practice Standards as part of an effort to relocate all definitions the WEQ-000 Business Practice Standards. To develop the recommendation, the JESS met five times over the course of nine days and voted the recommendation out of subcommittee on September 2, 2009. It was distributed for a thirty-day comment period on September 9, 2009. The recommendation was adopted by the WEQ EC on October 27, 2009 and was ratified by the membership on December 14, 2009.

Gas/Electric Coordination Standards

Standards not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes one standard related to Gas/Electric Coordination that has not been the subject of a previous report submitted to the Commission or the subject of action by the Commission. It is described below.

In an effort to coordinate the WEQ-011 Business Practice Standard definitions with the NERC Glossary, the terms Power Plant Operator and Power Plant Operator's Facility were changed to Power Plant Gas Coordinator and Power Plant Gas Coordinator's Facility, respectively. This was done to eliminate inconsistencies between other industry definitions for the term and to allow the retention of the electric reliability connotation. Additionally, the BPS proposed modifications to the WEQ-011 Business Practice Standards that included the addition of introduction and applicability sections, the development of a definition for the term Transportation Service Provider and revisions to ensure the consistent application of the terms Balancing Authority and Reliability Coordinator. The effort was coordinated with the Wholesale Gas Quadrant BPS and EC to ensure consistency across the wholesale quadrants. The WEQ BPS met five times to discuss the issue and held three joint meetings with the WGQ BPS on the topic. The recommendation passed a joint WEQ BPS and WGQ BPS subcommittee vote on September 28, 2009 and

³⁸ See footnote 15.

was sent out for a thirty-day industry comment period on October 2, 2009. The recommendation was approved by the WEQ EC on June 11, 2010 via notational ballot, and ratified by the membership on July 15, 2010.

Smart Grid Standards

Standards subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes eight Smart Grid related standards that have been the subject of a previous report submitted to the Commission or the subject of action by the Commission. They are described below.

On July 7, 2011, NAESB submitted a set of Smart Grid related standards³⁹ that were developed at the request of the National Institute of Standards and Technology (NIST) and the Smart Grid Interoperability Panel (SGIP) as part of their national effort to fulfill NIST obligations under the Energy Independence and Security Act of 2007 (“EISA”).⁴⁰ The standards developed by NAESB define use cases and data requirements that respond to the priority action plans created by the SGIP to foster standards development within standards setting organizations. Specifically, NAESB was asked to develop use case and data requirement standards related to priority action plan 03 (Common Price Communication Model)⁴¹, priority action plan 04 (Common Scheduling Mechanism)⁴² and priority action plan 09 (Standardized Demand Response and Distributed Energy Resource Signals).⁴³ The standards development effort was coordinated with a number of external organizations and the standards served as a foundation for the development of communication specifications created by the Organization of the Advancement of Structured Information Standards in fulfillment of their obligations under the priority action plans. At the direction of the NAESB Board of Directors, the NAESB WEQ and Retail Electric Quadrant (REQ) Executive Committees formed the joint WEQ and REQ Smart Grid Standards Development Subcommittees to address the standards assignment. The subcommittee developed the standards for both the retail and wholesale markets through a two phase approach by expediently developing an initial set of use cases and data requirements for use by the Organization of the Advancement of Structured Information Standards and then refining the use cases and data requirements in a second phase. This approach was taken to ensure that both organizations satisfied the timeline requirements dictated by NIST and the SGIP through the priority action plans. The standards development activity took place from September 2009 to October 2010 and resulted in seven sets of standards. The phase one standards were ratified by the NAESB membership on August 20, 2010, and the phase two standards were ratified on March 21, 2011.

³⁹ Submittal of Smart Grid Related Standards (Docket No. RM05-5-000, et al.), *available at*: http://www.naesb.org/pdf4/ferc_070711_smartgrid_standards.pdf (submitted July 7, 2011).

⁴⁰ EISA § 1305(d), Public Law No. 110-140, 121 Stats. 1492, 1788 (2007) (to be codified at 15 U.S.C. § 1735(d))

⁴¹ NIST Smart Grid Collaboration Wiki Smart Grid Interoperability Panel Site for Priority Action Plan 03 is available at <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/PAP03PriceProduct>.

⁴² NIST Smart Grid Collaboration Wiki Smart Grid Interoperability Panel Site for Priority Action Plan 04 is available at <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/PAP04Schedules>

⁴³ NIST Smart Grid Collaboration Wiki Smart Grid Interoperability Panel Site for Priority Action Plan 09 is available at <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/PAP09DRDER>.

In addition to the assignments given to NAESB through NIST and SGIP priority action plans 03, 04 and 09, NAESB was asked to develop an information model for the communication of consumer energy usage. This request was made through priority action plan 10 and was officially given to NAESB in May 2010 with a December 2010 deadline. In response, the joint REQ and WEQ Smart Grid Standards Subcommittee on Priority Action Plan 10 was created and held its first meeting on June 22, 2010. Between June 22, 2010 and August 31, 2010, when both the REQ and WEQ Energy Usage Information Model were unanimously adopted, the subcommittee held a total of fifteen conference calls and a one week informal comment period. The recommendations were reviewed by the WEQ and REQ Executive Committees on October 15, 2010 and considered for vote on October 22, 2010. The REQ recommendation was adopted by the Executive Committee during the October 22, 2010 meeting, and the WEQ recommendation was adopted through notational ballot on October 29, 2010. Both recommendations were ratified by the membership on November 29, 2010 and presented at the fall 2010 SGIP meeting the same week. The energy usage information model serves as a “seed standard” and focuses on the representation of energy usage information, which includes historic, present and future projected usage and load for specific time periods. The standard defines a common data format of classes and attributes to communicate information between utilities, third parties, and energy use customers, via customer devices and/or third-party energy services providers and enables the exchange of detailed energy information in a consistent format for use by all parties.

Demand Side Management and Energy Efficiency

Standards subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes two Demand Response and one Energy Efficiency related sets of standards that have been the subject of a previous report submitted to the Commission or the subject of action by the Commission. They are described below.

On April 17, 2009, NAESB submitted phase one of the WEQ-021 Measurement and Verification of Wholesale Electricity Demand Response Business Practice Standards to the Commission.⁴⁴ These standards were ratified by the membership on March 16, 2009 and address the measurement and verification of characteristics of demand response products and services administered for application in the wholesale electricity market. They provide a framework for transparency, accountability and consistency. Additionally, the standards address the four product/service categories (energy service, capacity service, reserve service and regulation service) and establish criteria for the use of equipment, technology and procedures to quantify the demand reduction value delivered. On September 17, 2009 the Commission issued a Notice of Proposed Rulemaking (NOPR) on the standards and supported NAESB’s initiative for a phase two effort to develop more technical standards that apply to the Independent System Operators and Regional Transmission Organization (ISO-RTO). On April 15, 2010, the Commission adopted the phase

⁴⁴ NAESB Report on Wholesale Electric Market Measurement and Verification Standards for Demand Response Products and Services, Docket No. RM05-5-000, available at http://naesb.org/pdf4/ferc041709_dsm_filing.pdf (April 17, 2009).

one standards through a final order and again supported the phase two effort by noting that additional substantive standards that create transparency and consistency would benefit the wholesale market.⁴⁵ The phase two effort took place from April 16, 2009 to January 26, 2011 and resulted in additional granularity to the business practice standards and definitions developed in the phase one effort, most notably in the areas of meter data reporting deadline, advanced notification, telemetry interval, meter accuracy for after-the-fact metering, meter data reporting interval and adjustment window. This effort was conducted with the agreement of the Demand Side Management / Energy Efficiency Subcommittee that standards development should not be undertaken in areas that would be duplicative of the ISO-RTO stakeholder process unless otherwise directed by the Commission. The phase two standards were ratified by the membership on March 21, 2011 and are currently the subject of a NOPR issued by the Commission on April 19, 2012.⁴⁶

In addition to the phase two Measurement and Verification of Wholesale Electricity Demand Response Business Practice Standards, the Measurement and Verification of the Energy Efficiency Products Business Practice Standards were included in the April 19, 2012 NOPR.⁴⁷ The WEQ-021 Energy Efficiency Business Practice Standards create a standardized method for quantifying the energy reduction for energy efficiency measures, lighting, appliances, industrial process improvements and building management. The standards contain energy efficiency use criteria in wholesale markets, the general requirements for the structure of a measurement and verification plan and detailed criteria for accepted measurement and verification methodologies. They were developed through working groups and tasks forces of the Demand Side Management / Energy Efficiency Subcommittee between July 2009 and December 2010 and were ratified by the membership on May 13, 2011.

Standards Related to Terms, Definitions and Acronyms

Standards not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes two standards related to terms, definitions and acronyms that have not been the subject of a previous report submitted to the Commission or the subject of action by the Commission. They are described below.

First, as part of an ongoing NAESB effort to address inconsistencies, the WEQ SRS modified the definition of Bulk Electric System to be consistent with the NERC approved definition for the term. The WEQ EC adoption of the modified definition is in alignment with paragraph no. 40 of FERC Order 676 that directed NERC to take the lead on defining reliability-related terms and suggested NAESB use NERC definitions

⁴⁵ Standards for Business Practices and Communication Protocols for Public Utilities, Order No. 676, FERC Stats. & Regs. ¶ 31,216, n.5 (2006), reh'g denied, Order No. 676-A, 116 FERC ¶ 61,255 (2006), Order No. 676-B, Final Rule, FERC Stats. & Regs. ¶ 31,246 (2007), Order No. 676-C, Final Rule, FERC Stats. & Regs. ¶ 31,274 (2008), Order No. 676-D, order granting clarification and denying reh'g, 124 FERC ¶ 61,317 (2008), Order No. 676-E, Final Rule, FERC Stats. & Regs. ¶ 31,299 (2009), Order No. 676-F, Final Rule, FERC Stats. & Regs. ¶ 61,022 (2010).

⁴⁶ Standards for Business Practice and Communication Protocols for Public Utilities, Notice of Proposed Rulemaking, 77 FR 24,427 (April 19, 2012), FERC Stats. & Regs. ¶ 61,041(2012).

⁴⁷ Id.

for such terms.⁴⁸ To develop the recommendation, the SRS met twice over two days and on January 17, 2012 voted to send the recommendation out for a thirty-day formal comment period, which began on January 18, 2012. The recommendation was adopted by the WEQ EC on February 21, 2012 and was ratified by the membership on March 26, 2012.

Second, the chairs of the WEQ standards development subcommittees developed the WEQ-000 set of standard definitions in an effort to provide a common location for all abbreviations, acronyms and definitions of terms and modified existing NAESB definitions to address both internal inconsistencies and inconsistencies with the NERC Glossary. The new standards were partially developed in response to guidance provided by the Commission in FERC Order No. 676-C to ensure that NERC and NAESB definitions are complementary.⁴⁹ As a result of the effort, differences between the NAESB and NERC definitions have been reconciled. To develop the WEQ-000 Business Practice Standards, the chairs of the WEQ standards development subcommittees met numerous times beginning in October 2008 through August 2009 when a draft recommendation was sent out for an informal comment period. Based on the comments received, revisions were made to the draft recommendation, and the recommendation was sent out for a thirty-day formal comment period on November 12, 2009. The recommendation was adopted by WEQ EC on February 2, 2010, and was ratified by the membership on March 24, 2010.

Interpretations

Interpretation not subject of a previous report to the Commission or action by the Commission

In the WEQ Version 003 publication of standards, NAESB includes one interpretation that has not been the subject of a previous report submitted to the Commission or the subject of action by the Commission. It is described below.

The Version 003 publication includes an interpretation of standards WEQ-001-9.1 and WEQ-001-10.1. The interpretation was developed by the WEQ Interpretations Subcommittee over the course of two meetings held in December 2011 and February 2012 and clarifies that a redirect on a firm basis may be submitted to modify only the source of a long term firm reservation. It was adopted by the WEQ Executive Committee on February 21, 2012 and ratified by the membership on March 26, 2012.

Items Identified for NAESB Standards Development that the Organization has Decided Needed No Action

Since the publication of NAESB WEQ Version 002.1, several WEQ Annual Plan Items were deemed to require no standards development action by NAESB as they have been addressed by other NAESB efforts, or evaluated and determined that standards development was not necessary. When a subcommittee determines that no action is to be taken on a particular item, that item is posted for a 30 day industry comment period. The EC reviews any comments submitted and the item must pass a simple majority vote of the EC. Items for which no action is

⁴⁸ Order No. 676 at ¶ 40.

⁴⁹ Standards for Business Practices and Communication Protocols for Public Utilities, Order No. 676, FERC Stats. & Regs. ¶ 31,216, (2006), reh'g denied, Order No. 676-A, 116 FERC ¶ 61,255 (2006), Order No. 676-B, Final Rule, FERC Stats. & Regs. ¶ 31,246 (2007), Order No. 676-C, Final Rule, FERC Stats. & Regs. ¶ 31,274 (2008).

required do not require membership ratification, as that process is reserved for creations of new standards, or modifications to or deletion of existing standards. There were three items that were determined to require no action by NAESB:

EC Date	Recommendation	Recommendation Description
May 4, 2010	2009 WEQ Annual Plan Items 3.a.ii.1 / R07013	Develop a Confidentiality Agreement
October 26, 2010	2010 WEQ Annual Plan Item 1.d	Monitor and develop NAESB business practices as needed to complement NERC reliability standards for FAC-012 and FAC-013
October 25, 2011	2011 WEQ Annual Plan Item 2.a.iv.1	Paragraph No. 1390 of Order 890 - Terminations related to: deficient requests, customer failure to pay required annual reservation fee, and customer modifications to applications which are meaningfully different

LIST OF NEW STANDARDS, STANDARDS MODIFICATIONS AND INTERPRETATIONS FOR VERSION 003

Request Cross Reference:

The request cross reference lists each standard either modified or created in Version 003, its description, the request that instigated the change, and a brief description of the change itself. If the change was originated through a minor correction, the date of the minor correction is given. The table is sorted by standard numbering shown below. If a standards manual is noted, it is for the set of standards that directly follow and is indicated by the series of standards within the manual.

The standards follow a numbering convention which is x-y.z(.n):

x	standard number and topic
y	subordinate category or section
z(.n)	optional further subordinate sections for granularity

Standard	Description	Request No.	Action
000-1	Abbreviations and Acronyms	WEQ 2010 Annual Plan Item 6.a (08/20/2010)	Add abbreviations and acronyms in support of WEQ 2010 WEQ Annual Plan Items 6.a-c: “BAS – Building Automation System”, “CalConnect – Calendaring and Scheduling Consortium”, “CIM – Common Information Model”, “C&I – Commercial and Industrial”, “DDE – Designated Dispatch Entity”, “DER – Distributed Energy Resource”, “DR – Demand Response”, “EA – Environmental Authority”, “ED – End Device”, “EMS – Energy Management System”, “ESI – Energy Services Interface”, “FIX – Financial Information eXchange Protocol”, “FR – Federal Regulator”, “GWAC – GridWise Architecture Council”, “iCalendar – Internet Calendaring and Scheduling Core Object Specification”, “IEC TCS7 – International Electrotechnical Commission Technical Committee 57”, “IETF – Internet Engineering Task Force”, “IRC Council – Independent System Operator/Regional Transmission Operator Council”, “ISIN – International Security Identifier Number”, “ISO – International Organization for Standardization”, “ISOs/RTOs – Independent System Operators/Regional Transmission Operators”, “kW – Kilowatt”, “kWh – Kilowatt Hour”, “LA – Local Authority”, “MA – Meter Authority”, “MBL – Maximum Base Load”, “MB/MA – Meter Before/Meter After”, “MGO – Metering Generator Output”, “MP – Market Participant”, “PAP-Priority Action Plan”, “RM – Response Method”, “RMA – Response Method Aggregation”, “OpenSG – Open Smart Grid”, “PUC – Public Utility Commission”, “SE – Scheduling Entity”, “SGTF – Smart Grid Task Force”, “SO – System Operator”, “SP – Service Provider”, “SR – State Regulator”, “TDSP – Transmission/Distribution Service Provider”, “UC – Utility Customer”, “UCAlug – UCA International Users Group”, “UDO – Utility Distribution Operator”, and “UML – Unified Modeling Language.”
000-1	Abbreviations and Acronyms	WEQ 2010 Annual Plan Item 6.d (11/29/2010)	Add abbreviations and acronyms: “PEV – Plug-in Electric Vehicle”, “EISA – Energy Independence and Security Act”, “DOE – Department of Energy”, “HAN – Home Area Network”, “XMI – XML Media Exchange”, “IEC – International Electrotechnical Commission”
000-1	Abbreviations and Acronyms	WEQ 2010 Annual Plan Item 1.a.i (12/06/2010)	Add abbreviations and acronyms “SDX – System Data Exchange”

Request Cross Reference			
Standard	Description	Request No.	Action
000-1	Abbreviations and Acronyms	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add abbreviations and acronyms to support Measurement and Verification of Energy Efficiency Products: “ANSI – American National Standard Institute”, “ASHREA –American Society of Heating, Refrigeration and Air Conditioning Engineers”, “c.v. - Coefficient of Variation”, “EERP - Energy Efficiency Resource Provider”, “FEMP - Federal Energy Management Program (US)”, “HVAC - Heating, ventilating, and air conditioning”, “IEEE - Institute of Electrical and Electronics Engineers”, “IPMVP - International Performance Measurement and Verification Protocol”, “kHz – Kilohertz”, “M&V – Measurement and Verification”, “RMS – Root-Mean Square”, “VEE – Validation Editing and Estimation”
000-1	Abbreviations and Acronyms	MC12020 (06/16/2012)	Delete the Acronym “IPMVP - International Performance Measurement and Verification Protocol.”
000-1	Abbreviations and Acronyms	MC12025 (07/31/2012)	Delete the Acronym “SDX –System Data Exchange”
000-1.1	Abbreviations and Acronyms Do Not Use	WEQ 2009 Annual Plan Item 5.b (03/24/2010)	Add WEQ-000-1.1 “Abbreviations and Acronyms Do Not Use”
000-2	Definition of Terms	WEQ 2008 Annual Plan Item 5.a (03/16/2009)	Add WEQ-015 Definition of Terms: “Adjustment Window, Advance Notification(s), After-the-Fact Metering, Aggregated Demand Resource, Baseline, Baseline Adjustment, Baseline Type-I (Interval Metered), Baseline Type-II (Non-Interval Metered), Baseline Window, Capacity Service, Demand, Demand Response, Demand Response Event, Demand Response Provider, Demand Reduction Value, Demand Resource, Deployment, Deployment Period, Energy Service, Highly-Variable Load, Load, Maximum Base Load, Meter Before/Meter After, Meter Data Recording Interval, Meter Data Reporting Deadline, Metering Generator Output, Normal Operations, Performance Window, Ramp Period, Ramp Rate, Recovery Period, Reduction Deadline, Regulation Service, Release/Recall, Reserve Service, Sustained Response Period, System Operator, Telemetry, Telemetry Interval, Validation, Editing and Estimation.”
000-2	Definition of Terms	WEQ 2009 Annual Plan Item 2.a.ii.3 (7/27/2009)	Add Definition “Capacity Eligible for Rollover” and “Unexercised Rollover Rights.”
000-2	Definition of Terms	WEQ 2009 Annual Plan 1.a, 3.a.vii, R05020 (12/14/2009)	Add Definition “Straddle Ramp”
000-2	Definition of Terms	WEQ 2009 Annual Plan Item 5.b (03/24/2010)	Move abbreviations, acronyms, and definitions from sections to WEQ-000-2 “Definition of Terms”

Request Cross Reference			
Standard	Description	Request No.	Action
000-2	Definition of Terms	WEQ 2009 Annual Plan Item 5.a.2, 5.i, R08004, R09011 (07/15/2010)	Delete the definitions Power Plant Operator and Power Plant Operator Facility. Add definition Power Plant Gas Coordinator and Power Plant Gas Coordinator Facility. Modify definition Transportation Service Provider. Modify "Note:" in descriptions of definitions: Balancing Authority and Reliability Coordinator.
000-2	Definition of Terms	WEQ 2010 Annual Plan Item 6.a (08/20/2010)	Add defined terms in support of WEQ 2010 WEQ Annual Plan Items 6.a-c: "Business Entity", "Communication Method", "Control", "Designated Dispatch Entity", "Distributed Energy Resources", "End Device", "Environmental Authority", "Federal Regulator", "Load-Serving Entity", "Local Authority", "Market Enrollment", "Market Participant", "Measurement", "Meter Authority", "P-Node", "Participant", "Premise", "Regulator", "Response Method", "Response Method Aggregation", "Resource", "Resource Object", "Scheduling Entity", "Service Provider", "State Regulator", "Supporting Objects", "Transmission/Distribution Service Provider", "Utility Customer", "Utility Distribution Operator" and "Zone."
000-2	Definition of Terms	WEQ 2010 Annual Plan Item 6.d (11/29/2010)	Add defined terms: "Applicable Regulatory Authority", "Distribution Company", "Entity", "Governing Documents", and "Supplier."
000-2	Definition of Terms	WEQ 2010 Annual Plan Item 1.a.i (12/06/2010)	Add defined term: "Intra-BA Transaction."
000-2	Definition of Terms	MC10032 (01/03/2011)	Minor correction to add definitions "Off-Peak" and "On-Peak"
000-2	Definition of Terms	WEQ 2010 Annual Plan Items 6.a-c (Phase 2) (03/21/2011)	Add defined terms: "Asset", "Asset Group", "Service Delivery Point", "Service Location (was Facility in the Phase 1 ERD)."
000-2	Definition of Terms	WEQ 2010 Annual Plan Items 4.a and 4.b (03/21/2011)	Modify definitions for "Baseline", "Baseline Adjustment", "Baseline Type-II", "Baseline Window", "Capacity Service", "Demand Reduction Value", "Demand Resource Availability", "Demand Response", "Demand Response Event", "Demand Response Provider", "Energy Service", "Governing Documents", "Highly-Variable Load", "Maximum Base Load", "Meter Data Recording Interval", "Metering Generator Output", "Normal Operations", "Ramp Rate", "Recovery Period", "Regulation Service", "Release/Recall", "Sustained Response Period", "System Operator", "Telemetry", "Telemetry Interval", and "Validation, Editing and Estimation."
000-2	Definition of Terms	MC11009 (05/30/2011)	Minor correction to address diagram error by replacing diagram for definition "Meter Before/Meter After."
000-2	Definition of Terms	WEQ 2011 Annual Plan Items 2.a.iii.1 through 2.a.iii.3 (08/11/2011)	Add definitions "Coordinated Group, Coordinated Request and Network Customer.", (Version 1.6)

Request Cross Reference			
Standard	Description	Request No.	Action
000-2	Definition of Terms	WEQ 2012 Annual Plan Item 1.d (03/26/2012)	Modify definition “Bulk Electric System” to read “Shall have the same meaning as defined in the Glossary of Terms Used in NERC Reliability Standards.”
000-2	Definition of Terms	WEQ 2011 Annual Plan Items 2.a.i.1-8, 2.b and 3.a.i – Network Service on OASIS (NITS) (06/11/2012)	Modify definition “Assignee” by deleting the word “Transmission.” Modify the defined term “Eligible Transmission Customer” to read “Eligible Customer” and its definition by deleting the words “the term Eligible Customer.” Delete the defined term “Network Customer” and its definition. Modify the definition “Transmission Customer” to read “Shall have the same meaning as defined in the FERC pro forma OATT.” Modify the definition “Transmission Provider” by deleting the words “(or its designated agent).” Add the following Definition of Terms: “Concomitant Evaluation, Designated Agent, Network Load, Network Resource, NITS Application, Pre-submittal Workspace, Request Interval”
000-2	Definition of Terms	MC12025 (07/31/2012)	Delete the Definition of Terms “Intra BA Transaction – Information describing a physical Transaction and its participants sourcing and sinking within the same BA using RFI format.”
WEQ-001 Open Access Same-Time Information Systems (OASIS) Business Practice Standards, Version 2.0			
Introduction	Introduction	WEQ 2011 Annual Plan Item 5.a / R08001 / R08002 / R08003 / R08005 (11/28/2011)	Modify “Introduction” language
Applicability	Applicability	WEQ 2011 Annual Plan Item 5.a / R08001 / R08002 / R08003 / R08005 (11/28/2011)	Add “Applicability” heading and language
Applicability	Applicability	WEQ 2011 Annual Plan Items 2.a.i.1-8, 2b and 3.a.i (06/11/2012)	Network Service on OASIS (NITS) – Modify language by changing “Eligible Transmission Customer” to “Eligible Customer” and deleting “Network Customer.”

Standard	Description	Request No.	Action
015-1.0	Business Practice Standard	WEQ 2008 Annual Plan Item 5.a (03/16/2009)	Add Business Practice Standard – “Provision of Wholesale Electric Demand Response Energy Products” – General
015-1.0	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.1	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Advance Notification” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.2	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Deployment Time” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.3	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Reduction Deadline” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.4	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Release/Recall” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents” and provide additional enhancement.
015-1.0.5	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Normal Operations” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.6	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Demand Resource Availability Measurement” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.7	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Aggregation” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.0.8	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Transparency of Requirements” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”
015-1.1	Business Practice Standard	WEQ 2008 Annual Plan Item 5.a (03/16/2009)	Add Business Practice Standard – “Provision of Wholesale Electric Demand Response Energy Products” - Telemetry
015-1.1.1	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “Telemetry Requirement” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents” and provide additional enhancement.
015-1.1.2	Business Practice Standard	WEQ 2010 Annual Plan Items 4.a and 4b (03/21/2011)	Add numbering to “On-Site Generation Telemetry” and modify Business Practice Standard by removing “System Operator” and replacing it with “Governing Documents”

Request Cross Reference			
Standard	Description	Request No.	Action
021-3.2.5	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete “International Performance Protocol (IPMVP)” and its footnote (add the word “standard” before M&V). IPMVP is a registered trademark and the WEQ did not want the reference to another organization’s standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.2.6	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Methodological Assumptions”
021-3.2.7	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “M&V Activities: Energy Efficiency Baseline Period”
021-3.2.8	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “M&V Activities: Post Installation Period”
021-3.2.9	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Calculation and Adjustments”
021-3.2.10	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Metering Plan”
021-3.2.11	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Updated M&V Plan Components”
021-3.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Post Installation M&V Report Components”
021-3.3.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Initial Post-Installation M&V Report”
021-3.3.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Updated Post-Installation M&V Report”

Standard	Description	Request No.	Action
021-3.6	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “M&V Methodologies”
021-3.6.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “Acceptable Methodologies”
021-3.6.1.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “IPMVP Option A: Partially Measured Retrofit Isolation/Stipulated Measurement”
021-3.6.1.1	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete “IPMVP” (International Performance Measurement and Verification Protocol). This is a registered trademark and the WEQ did not want the reference to another organization’s standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.6.1.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “IPMVP Option B: Retrofit Isolation/Metered Equipment”
021-3.6.1.2	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete “IPMVP” (International Performance Measurement and Verification Protocol). This is a registered trademark and the WEQ did not want the reference to another organization’s standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.6.1.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard “IPMVP Option C: Whole Facility/Regression”
021-3.6.1.3	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete “IPMVP” (International Performance Measurement and Verification Protocol). This is a registered trademark and the WEQ did not want the reference to another organization’s standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.6.1.4	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011) –	Add Business Practice Standard “IPMVP Option D: Calibrated Simulation”

Request Cross Reference			
Standard	Description	Request No.	Action
021-3.6.1.4	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete "IPMVP" (International Performance Measurement and Verification Protocol). This is a registered trademark and the WEQ did not want the reference to another organization's standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.6.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Alternative Acceptable M&V Methodologies"
021-3.6.2	Business Practice Standard	MC12020 (07/16/2012)	Minor correction to delete "IPMVP" (International Performance Measurement and Verification Protocol) and add the word "standard." This is a registered trademark and the WEQ did not want the reference to another organization's standard and protocols which may change and represents concepts differently than what the NAESB process intended. The minor correction also aligns the REQ and WEQ energy efficiency standards consistent with Board directive.
021-3.7	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Energy Efficiency Baseline Conditions"
021-3.7.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Energy Efficiency Baseline Criteria For All Energy Efficiency"
021-3.7.1.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.7.1.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.7.1.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.7.1.4	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.7.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Standard Energy Efficiency Baseline"
021-3.7.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "The Current Load Energy Efficiency Baseline"
021-3.8	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Statistical Significance"
021-3.8.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "General Requirements"

Request Cross Reference			
Standard	Description	Request No.	Action
021-3.8.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Specification for Statistical Error and Precision when Sampling is Used"
021-3.8.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Sample Size Calculation"
021-3.8.4	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Sample Size Recalibration"
021-3.8.5	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Sampling Over Zones"
021-3.8.6	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Sample Bias Control"
021-3.9	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Nominated Energy Efficiency Value Calculations/Demand Reduction Value Calculations"
021-3.9.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Energy Efficiency Value Calculation Variables"
021-3.9.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Reduction in the Final Nominated Value"
021-3.10	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Measurement and Monitoring"
021-3.10.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Measurement and Monitoring Parameters and Variables Requirements"
021-3.10.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Monitoring Frequency and Duration"
021-3.11	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Measurement Equipment Specification"
021-3.11.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Measurement Equipment Requirements"
021-3.11.1.1	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.11.1.2	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard
021-3.11.1.3	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard

Request Cross Reference			
Standard	Description	Request No.	Action

021-3.12.1.5	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Identification of Estimated Data"
021-3.12.1.6	Business Practice Standard	WEQ 2010 Annual Plan Item 4.d (05/13/2011)	Add Business Practice Standard "Identification of Data Classifications"

Version Cross Reference:

The Version Cross Reference lists each NAESB standard number followed by four columns. The column entitled "Adopted" identifies for which version the standard was adopted. The column entitled "Revised" identifies versions where the standard was revised. The column entitled "Interpreted Version" identifies versions where the standard was interpreted. The last column "Interpretation Number" identifies the interpretation number for the version specified in the previous column. The language of the standards themselves can be accessed from the NAESB home page (www.naesb.org). With the Version Cross Reference, a determination can be made of all standards that were created, changed or interpreted for a given version.

For standards that were created in Version 003, the "Adopted" column will contain the value "003." For standards that were modified in Version 003, the "Revised" column will contain the value "003." A standard may have multiple revisions specified. For standards that were interpreted in Version 003, the "Interpreted Version" column will contain the value "003" and the "Interpretation Number" column will contain the related interpretation number. There were no interpretations processed for Versions 001 or for Version 002.1. A standard may have multiple interpretations specified.

The versions noted in the version cross reference are:

Version 000 January 15, 2005

Version 000 NAESB WEQ Standards were published on January 15, 2005. Those standards that were federally jurisdictional were submitted to the Federal Energy Regulatory Commission on January 18, 2005. The Version 000 standards were the subject of a FERC Rulemaking, Order No. 676, Docket No. RM05-5-000, issued on April 25, 2006, and Order No. 676-B, Docket No. RM05-5-003, issued on April 19, 2007.

Version 001 October 31, 2007

Version 001 NAESB WEQ Standards were published on October 31, 2007. Those standards that were federally jurisdictional were submitted to the Federal Energy Regulatory Commission on December 21, 2007. The Version 001 standards were the subject of a FERC Rulemaking, Order No. 676-C, Docket No. RM05-5-005, issued on July 21, 2008. On October 9, 2009 minor corrections were submitted to the Federal Energy Regulatory Commission (FERC) (Docket No. RM05-5 et al).

Version 002 September 30, 2008

Version 002 NAESB WEQ Standards were published on September 30, 2008. Those standards that are federally jurisdictional were submitted to the Federal Energy Regulatory Commission on August 29, 2008. On October 9, 2009 minor corrections were submitted to the Federal Energy Regulatory Commission (FERC) (Docket No. RM05-5 et al).

Version 002.1 March 11, 2009

Version 002.1 NAESB WEQ Standards were published on March 11, 2009. Those standards that are federally jurisdictional were submitted to the Federal Energy Regulatory Commission on February 19, 2009. On July 7 and October 9, 2009 minor corrections were submitted to the Federal Energy Regulatory Commission (FERC) (Docket No. RM05-5 et al). The Version 002.1 standards were the subject of a FERC Rulemaking, Order No. 676-E, Docket No. RM05-5-013, issued on November 24, 2009. On December 16, 2009 and June 20, 2011 minor corrections were submitted to the Federal Energy Regulatory Commission (FERC) (Docket No. RM05-5 et al, Docket No. RM01-5).

Version 003 July 31, 2012

Version 003 NAESB WEQ Business Practice Standards were published on July 31, 2012. Those standards that are federally jurisdictional were submitted to the Federal Energy Regulatory Commission on September 18, 2012.

The NAESB Standards Development Process

NAESB is focused on proposing, considering, and adopting voluntary standards and model business practices that will have a significant and lasting impact on all aspects of the natural gas and electricity marketplaces. As a result of the standards NAESB adopts, it is expected that the industry will operate more efficiently and effectively, benefiting both the industry and its customers. At the same time, it must be acknowledged that NAESB standards may constitute a change in the way parties do business, with an accompanying effect on the use and allocation of resources.

NAESB's policy is to move at a deliberate pace, consistent with its annual plan(s), thus permitting those affected by its standards, especially those standards adopted as regulations by the Federal Energy Regulatory Commission (FERC) or other regulatory bodies, to assimilate them as part of their business practices. To this end, NAESB will carefully consider whether proposed standards are both timely and necessary. In particular, it will try to avoid adopting and implementing new standards, however beneficial, before the industry is able to reasonably make use of them.

The standards development process is governed by the annual plan, and items can be included in the plan or modified only with Board approval. The plan typically reflects requests from NAESB members, government agencies, and other interested parties. In approving the annual plan, the Board considers the availability of resources, including the NAESB budget and staff and the availability of industry volunteers. New requests received throughout the year are either considered part of the existing annual plan or as new items that require Board approval.

The standards development process begins with an annual plan item or a triaged and approved request. Triage is a process used by each quadrant of the Executive Committee (EC) to determine whether a request is within scope, which quadrant(s) it applies to, which subcommittee(s) it should be referred to, and what priority it should be assigned. Triage is carried out by EC members appointed by the EC chair. Triage recommendations are submitted to the en banc EC and require EC approval, and may also require Board approval if there are scope questions or if a modification of the annual plan is required.

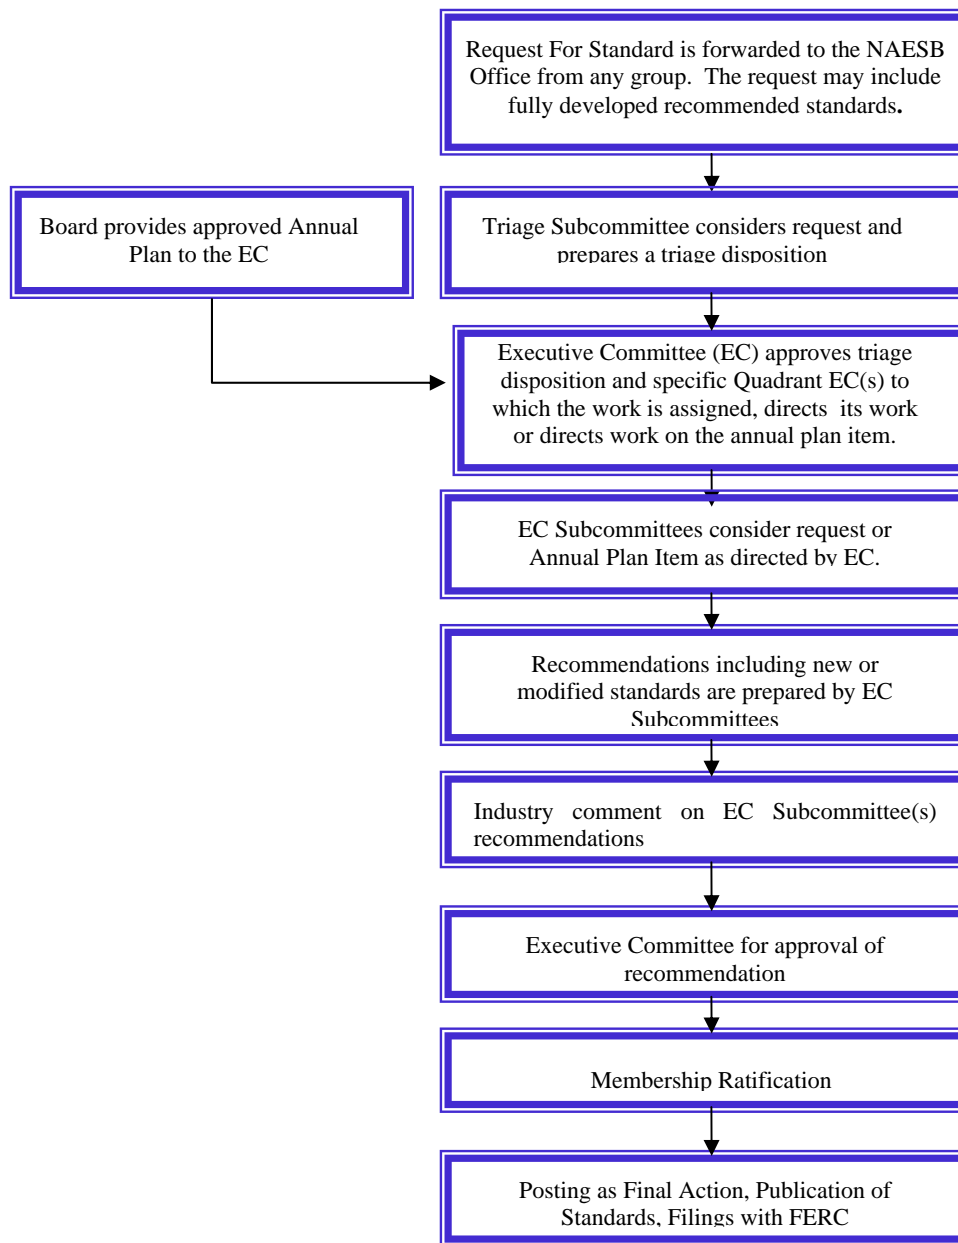

Once the triage process is completed, the subcommittees—more than one are normally involved in standards recommendations—review the request, compare it to existing standards, and prepare recommendations that may take the form of new or modified standards or interpretations. Participation in EC subcommittees is open to any interested party regardless of membership status. All subcommittee participants may vote; voting is balanced by segment and quadrant. All votes are public.

When the recommendation is complete, it is made available for a thirty-day industry comment period. The recommendation and comments are then forwarded to the EC, which considers the recommendation, makes any changes it deems necessary, and takes a vote. A recommendation must receive an affirmative vote of at least 67 percent from each applicable quadrant EC and 40 percent from each of the segments of the applicable quadrant(s).

After passage by the EC, the recommendation must be ratified by the NAESB members. An affirmative vote of 67 percent of the members of the applicable quadrant(s) is required for ratification. After ratification, standards and modifications are considered final actions and will be published in the next version of NAESB standards.

All NAESB quadrants follow the same development process described herein. The process has been followed by the WGQ since 1994 and has been used to develop more than five hundred standards that have been incorporated by reference into federal regulations.

North American Energy Standards Board
Standards Development Process Flow Chart

Flexibility

NAESB recognizes that flexibility is necessary as standards are developed to address regional concerns or to incorporate variances to accommodate operational or structural differences. Several WEQ standards incorporate regional or operational differences for both Version 0 and Version 1. There is a high threshold for incorporating such variances in a standard; the subcommittee(s) in drafting the standard, the EC in approving the subcommittee recommendation, and the membership in approving the standard must all agree that such variance is necessary. Nonetheless, NAESB procedures are well suited to take into account operational and regional differences.

Transparency

All NAESB meetings are open for attendance and participation by any interested party, with the exception of executive sessions of the Board or Managing Committee for purposes of discussing personnel, compensation or legal issues. Meeting announcements and agendas are posted in advance to permit the widest possible participation. Conference-calling capability is available for all meetings and web casting is available for most. Those intending to attend a meeting in person or by telephone are asked to notify NAESB by a specific date to permit adequate meeting planning.

Transcripts are made of all Board of Directors and EC meetings, and may also be made of other meetings that are expected to be controversial. Transcripts are maintained in the NAESB office and are provided to regulatory agencies for their internal use. All other interested parties can purchase transcripts from the relevant transcription service.

Coordination with NERC

For business practice standards development for the WEQ, if it is determined by NERC and NAESB Executive Management that joint development is needed by NERC and NAESB, the NERC-NAESB Coordination Joint Development Process is implemented.¹ This process requires that the appropriate NAESB Subcommittee and NERC Standards drafting team work together to develop reliability standards and business practices. This process is currently being implemented by the NAESB WEQ BPS and ESS/ITS with the NERC ATC Standards drafting team to develop reliability standards and business practice standards to address Commission Order No. 890.

The Joint Interface Committee of NAESB, NERC and the ISO-RTO Council (“JIC”) was dissolved as part of the agreement to create the Independent Grid Operator segment of the WEQ. The joint development process between NAESB and NERC is being used to ensure appropriate coordination. The ISOs and RTOs have strong decision-making roles in both NERC and NAESB, and thus with the use of the joint development process, the JIC was no longer necessary.

¹ The NERC-NAESB Coordination Joint Development Process was submitted to the Commission on February 17, 2006 in Attachment C of the Progress Report on NAESB Activities impacting Docket No. RM05-5-000, “Standards for Business Practices and Communication Protocols for Public Utilities”: http://www.naesb.org/doc_view2.asp?doc=ferc021706.pdf.

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

Item Description	Completion ¹	Assignment ²
1 Develop business practices standards as needed to complement reliability standards		
Develop business practice standards to support and complement NERC reliability standards, NERC policies and NERC standards authorization requests (SARs) using the NERC/NAESB Coordination Joint Standards Development Process as appropriate. Current NAESB activities underway to develop business practice standards that are supportive of this annual plan item are:		
a) Make version 2 changes to business practices as requested.		
i) Make changes to business practices as related to inclusion of the NERC Reliability Functional Model functional model entities as NERC undertakes the same efforts. Status: No requests	As requested	BPS
ii) Continuous support of TLR Procedure in alignment with NERC efforts on TLR Phase II and Phase III which would be included in version 2 development. ³ Status: Complete The “Continuous Support of TLR Procedure in Alignment with NERC Efforts on Phase II and Phase III” recommendation was approved by the BPS to post for the formal comment period. For 2009 specific items for TLR coordination with NERC will be added as needed.	3 rd Q, 2008	BPS ⁴
b) Develop business practices to support Coordinate Interchange – R05020 “Include a guideline for rounding schedules with partial mWh's in the coordinate interchange business practice WEQ BPS-002-000” Status: Underway	3 rd Q, 2009	JISWG
c) Operate Within Limits (R03017) as coordinated with the NERC schedule on the same development for reliability standards		
i) Review the need to develop business practice standards to support Operate Within Limits (R03017) Status: Completed	1 st Q, 2008	SRS
ii) Develop business practice standards to support Operate Within Limits (R03017) Status: Completed No standards are needed at this time	2 nd Q, 2008	BPS
d) Prepare recommendations for future path for TLR in concert with NERC, which may include alternative congestion management procedures ⁵ Status: Underway	2009	BPS ⁶
e) Conduct analysis as to whether standards can be developed which outline a standardized process for the coordination and execution of emergency energy schedules. These would be complementary standards to EOP-002-2 Requirements R4 and R6 (SRS Analysis of EOP-002-2 R4 & R6) Status: Not Started	1 st Q, 2009	JISWG

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
f)	<p>Review Market System Back-Up existing language and review of existing back-up language</p> <p>Status: Completed</p> <p>Per the guidance from the WEQ Executive Committee after presenting the Request for Executive Committee Guidance on WEQ 2008 Provisional Item 5 the SRS developed and approved a “no action” recommendation to close out this annual plan item</p>	4 th Q, 2008	SRS
g)	<p>Provide complementary business practice standards to support Coordinate Operations Standards Authorization Request assigned to NERC (R03014)</p> <p>Status: Completed</p> <p>Based on the SRS review of related documents and EC updates to the WEQ Annual Plan in May 2004 where R03014 was noted as completed the SRS approved a “no action” recommendation to close out this standards request.</p>	3 rd Q, 2008	SRS
2	Develop business practice standards in support of the FERC RM05-25-000 and RM05-17-000 (OATT Reform)		
a)	<p>Develop version 2 business practice standards to better coordinate the use of the transmission system among neighboring transmission providers. Such business practice standards would be based on recommendations from NERC's Long Term ATC/AFC Task Force and would involve revised procedures for the ATC calculation and/or revised protocols as determined by the final order.</p> <p>Status: Underway</p> <p>Development is using joint standards development process with NERC. Request R050004 was expanded to include the Order No. 890 (Docket Nos. RM05-25-000 and RM05-17-000) and Order No. 890-A (Docket Nos. RM05-17-001, 002 and RM05-25-001, 002), “Preventing Undue Discrimination and Preference in Transmission Services”, issued April 11, 2007).</p>		
i)	<p>Group 1: Conditional Firm, Annotations For ATC; Load Forecast And Actual Load; Re-Bid Of Partial Service; And Preconfirmation Priority</p>		
	<p>1. Conditional Firm, Annotations For ATC; Load Forecast And Actual Load; Re-Bid Of Partial Service; And Preconfirmation Priority S&CP Requirements</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	4 th Q, 2007	ESS/ITS
	<p>2. Conditional Firm Business Practice Standards associated with S&CP Requirements completed in 2(a)(i)(1)</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	3 rd Q, 2008	ESS/ITS
	<p>3. Annotations For ATC Business Practice Standards associated with S&CP Requirements completed in 2(a)(i)(1)</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	1 st Q, 2008	BPS, ESS/ITS

7.	OASIS Exemptions Appendix Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	4 th Q, 2007	ESS/ITS
ii)	Group 2: Metrics; Redispatch Cost Posting		
1.	Metrics Related to Provision of Transmission Service (Paragraph 413 of Order 890) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	1 st Q, 2008	ESS/ITS
2.	Metrics Related to Performance of Transmission Studies (Paragraphs 1308 through 1317 of Order 890) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	1 st Q, 2008	ESS/ITS
3.	Redispatch Cost Posting <ul style="list-style-type: none"> • Monthly average cost of redispatch • A high and low redispatch for the month Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	1 st Q, 2008	ESS/ITS
iii)	Group 3: Network Service On OASIS		

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
1.	Use of OASIS to Make Electronic Requests to Designate and Terminate Network Resource Status: Underway	1 St Q, 2009	ESS/ITS
2.	Ability to Query Requests to Designate and Terminate Network Resources and Allow for Queries of All Information Provided with Designation Requests Status: Underway	1 St Q, 2009	ESS/ITS
3.	Masking of Designated Network Resource Operating Restrictions and Generating Cost Information Status: Underway	1 St Q, 2009	ESS/ITS
4.	Procedural Requirements for Submitting Designations over new OASIS Functionality Status: Underway	1 St Q, 2009	ESS/ITS
5.	Specify How Designated Network Service Informational Postings are Posted on OASIS Status: Underway	1 St Q, 2009	ESS/ITS
6.	Set Forth the Treatment of OASIS Requests when the Customer Fails to Provide the Necessary Attestation Status: Underway	1 St Q, 2009	ESS/ITS
7.	Procedural Requirements for Submitting Both Temporary and Indefinite Terminations of Network Resources Status: Underway	1 St Q, 2009	ESS/ITS
8.	Procedures for Submitting and Processing Requests for Concomitant Evaluations of Transmission Requests and Temporary Terminations Status: Underway	1 St Q, 2009	ESS/ITS
iv)	Group 4: Pre-Emption; Request No. R05019; and Revisions to Standard 9.7		
1.	Pre-Emption Status: Not Started	2 nd Q, 2009	ESS/ITS
2.	Request No. R05019 Status: Not Started	2 nd Q, 2009	ESS/ITS
3.	Revisions to Standard 9.7 Status: Underway This item also addresses work in 2006 WEQ AP 3a(x).	2009	EC Task Force

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
	4. Posting of Existing Transmission Commitments (ETC) (moved from Group 1) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	2 nd Q, 2008	BPS, ESS/ITS
v)	Group 5: Paragraph 1377		
	1. Paragraph 1377 Status: Not Started	2 nd Q, 2009	ESS/ITS
	2. Re-Bid Of Partial Service across Multiple Transmission Providers' Systems Status: Not Started	2 nd Q, 2009	ESS/ITS
vi)	Group 6: Miscellaneous (Paragraphs 1390 and 1627 of Order 890)		
	1. Paragraph 1390 of Order 890 Status: Not Started	2 nd Q, 2009	ESS/ITS
	2. Paragraphs 1627 of Order 890 Status: Not Started	2 nd Q, 2009	ESS/ITS
	3. Redispatch Cost Posting to allow for posting of third party offers of planning redispatch services. Status: Not Started	2 nd Q, 2009	ESS/ITS
	4. Posting of Existing Transmission Commitments (ETC) (moved from Group 1) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	2 nd Q, 2008	ESS/ITS
vii)	Group 7: Tagging for Conditional Firm Service		
	1. Tagging for Conditional Firm Service Status: Completed Published Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	2 nd Q, 2008	ESS/ITS
b)	Develop the needed business practices as companion to the NERC standards for ATC related efforts. ⁷		
i)	Develop standards to support existing Request No. R05004 .		

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
	1. The processing of transmission service requests, which use TTC/ATC/AFC, in coordination with NERC changes to MOD 001 where the allocation of flowgate capability based on historical Network Native Load impacts the evaluation of transmission service requests, requiring the posting of those allocation values in conjunction with queries of service offerings on OASIS Status: Underway	1 st Q, 2009	ESS/ITS
	2. Remaining requirements documented in R05004 and R05004A. Status: Completed	3 rd Q, 2008	BPS, ESS/ITS
ii)	Develop Business Practice Standards for Existing Transmission Commitments (ETC)		
	1. Develop the Business Practice Standards complementary to NERC Reliability Standards for Existing Transmission Commitments (ETC) to create a “consistent approach for determining the amount of transfer capability a transmission provider may set aside for its native load and other committed uses”, including the elements of ETC for full implementation of the NERC MOD-001 reliability standard. The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	2 nd Q, 2008	BPS, ESS/ITS
	2. Business practice standards for accounting for counterflows. These standards will be included in the ATC business practice standards. The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	June 1, 2008	BPS ESS/ITS

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
iii)	Capacity Benefit Margin (CBM) Business Practices		
	<p>1. Determine if business practice standards are needed, and if so, develop them to set forth “how the CBM value shall be determined, allocated across transmission paths, and used” and how transmission providers will “reflect the set-aside of transfer capability as CBM in the development of the rate for point-to-point transmission service.”</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed</p> <p>The NAESB subcommittees have determined the CBM requirements have been documented in the NERC MOD-004 to address this item, so no further action is required by NAESB. Please note that when the related NERC reliability standards are adopted, the subcommittee leadership will review to determine if additional action by NAESB is needed.</p>	3 rd Q, 2008	BPS, ESS/ITS
	<p>2. Business practice standards that include an OASIS mechanism to “allow for auditing of CBM usage.”</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed</p>	3 rd Q, 2008	BPS, ESS/ITS
	<p>3. Any additional business practice standards needed to complement the NERC CBM reliability standards (MOD004) created as a result of this effort.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed</p>	3 rd Q, 2008	BPS, ESS/ITS
iv)	Transmission Reliability Margin Business Practices:		
	<p>1. Transmission Reliability Margin (TRM): Business Practice Standards to complement the NERC reliability standards for TRM.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development. Status: Completed</p> <p>The NAESB subcommittees have determined TRM requirements have been documented in previously submitted recommendations, so no further action is required by NAESB.</p>	April 8, 2008	BPS, ESS/ITS

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

Item Description	Completion ¹	Assignment ²
<p>2. The business practice standards will include specification of the appropriate uses of TRM and when transmission providers may set aside TRM.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development</p> <p>Status: Completed</p> <p>The NAESB subcommittees have determined TRM requirements have been documented in previously submitted recommendations, so no further action is required by NAESB.</p>	April 8, 2008	BPS, ESS/ITS
<p>3. Any additional business practice standards needed to complement the NERC TRM reliability standards (MOD008) created as a result of this effort.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development.</p> <p>Status: Completed</p> <p>The NAESB subcommittees have determined TRM requirements have been documented in previously submitted recommendations, so no further action is required by NAESB.</p>	April 8, 2008	BPS, ESS/ITS
<p>v) Business Practice Standards for ATC and AFC Calculation Methodologies to complement the NERC reliability standards created for ATC and AFC Methodologies (NERC MOD001 (Available Transfer Capability); NERC MOD028 (Network Response Available Transfer Capability); NERC MOD029 (Rated System Path Available Transfer Capability); and NERC MOD030 (Flowgate Network Response Available Transfer Capability)):</p>		
<p>1. Business practice standards to address the frequency and posting requirements for all ATC components that are complementary to the related NERC reliability standards.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development.</p> <p>Status: Completed</p> <p>The subcommittee determined no additional standards are required from what is already documented in the "ATC Information Link (2008 Annual Plan 2.b.vii)" recommendation and what is required for ATC postings under the previously ratified recommendation "Modifications to WEQ-001 to comply with modifications to 18 C.F.R. 37.6 and 37.7 within Order 890 with Minor Corrections applied on February 27, 2008."</p>	April 23, 2008	BPS/ESS/ITS
<p>2. Business practice standards for data exchange for ATC modeling complementary to the related NERC reliability standards including any OASIS posting requirements to achieve the data exchange.</p> <p>The business practices developed to address this item will require to coordination with the NERC Order 890 reliability standards development.</p> <p>Status: Completed</p> <p>The NAESB subcommittees have determined the data exchange requirements have already been documented in the NERC standards, so no further action is required by NAESB.</p>	1 st Q, 2008	BPS/ESS/ITS

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

Item Description	Completion ¹	Assignment ²
<p>3. Business practice standards that will set forth how transmission providers will post “explanations of the reason for a change in monthly and yearly ATC values on a constrained path.” The standards will include a requirement that that the transmission provider posts the reason for the change in a narrative form. The posted information will include “the (1) specific events which gave rise to the change and (2) new values for ATC on that path (as opposed to all points on the network).”</p> <p>The business practices developed to address this item will <u>not</u> require to coordination with the NERC Order 890 reliability standards development.</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	1 st Q, 2008	BPS/ESS/ITS
<p>4. Business practice standards for posting on OASIS of the “underlying load forecast assumptions for all ATC calculations”.</p> <p>The business practices developed to address this item will <u>not</u> require to coordination with the NERC Order 890 reliability standards development</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	1 st Q, 2008	BPS/ESS/ITS
<p>5. Business practice standards for posting on OASIS of the “actual daily peak load for the prior day.”</p> <p>The business practices developed to address this item will <u>not</u> require to coordination with the NERC Order 890 reliability standards development</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	1 st Q, 2008	BPS/ESS/ITS
<p>vi) Business practice standards to complement NERC reliability standards for Transfer Capability in response to new NERC Supplemental SAR: Revisions to Existing Standards MOD001-MOD009, FAC12-13</p> <p>This item was added as a result of the Supplemental SAR NERC created in case additional business practices are needed as a result of the work on this SAR by NERC. It does not have a cite in Order 890. This item will require coordination with the NERC Order 890 reliability standards development.</p> <p>Status: Completed</p>	May 1, 2008	BPS, ESS/ITS

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
vii)	<p>Business practice standards to set forth the procedure for input on TTC and ATC methodologies and values. (During the Order 890 NERC and NAESB joint standards development effort, it was determined that the standards contained in MOD003 should be business practice standards instead of reliability standards. NERC has requested that NAESB adopt the standards as business practices via correspondence to Ms. McQuade, NAESB President.)</p> <p>This item will require coordination with the NERC Order 890 reliability standards development because the language to address this item is contained within a draft standards that addresses items that are dependent on NERC deliverables, i.e., the requirements to create an “ATC Information Link” on OASIS. There is no Order 890 cite for this item.</p> <p>Status: Completed</p> <p>Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.</p>	1 st Q, 2008	BPS, ESS/ITS
c)	<p>Develop version 1 business practice standards to support transparency reporting and related functions that may be required as a result of the final order.</p> <p>Status: Completed</p> <p>The Executive Committee did not approve the recommendation submitted by the EC Task Force. Instead, they approved a “No Action” Recommendation for this annual plan item at their October 6, 2008 meeting</p>	3 rd Q 2008	EC Task Force
3	Develop business practices standards to improve the current operation of the wholesale electric market and develop and maintain business practice and communication standards for OASIS and Electronic Scheduling		
a)	Develop and/or maintain business practice standards as needed for OASIS and electronic scheduling. Specific items to address include:		
i)	<p>Develop OASIS S&CP changes to support OASIS business practices.</p> <p>Status: Completed</p> <p>Dependent on development of OASIS business practices</p>	3 rd Q 2008	ESS/ITS
ii)	<p>Network Services: Determine and develop needed business practice standards or other support is needed to support use of OASIS for Network Service transactions (R04006E). (Related to AP 2(a)(iii))</p> <p>Status: Underway</p>	1 st Q, 2009	ESS/ITS
iii)	<p>Registry (TSIN): Determine and develop needed business practice standards to support the registry functions currently supported by NERC (R04037, R06027).</p> <p>Status: Underway</p>		
1)	<p>Work with the NAESB counsel to develop a confidentiality agreement, (R07013)</p>	2009	BPS
2)	<p>Transition the TSIN Registry from NERC to NAESB.</p>	2009	NAESB Staff
3)	<p>Review and correct the Coordinate interchange Business Practice Standard as noted during the development of the e-Tag 1.8 development process.</p>	3 rd Q, 2009	JISWG

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
v)	Document procedures used to implement the displacement/interruption terms of the Pro Forma tariff (R05019). Status: Not Started	3 rd Q, 2009	ESS/ITS
vi)	Make incremental enhancements to OASIS as an outgrowth of the NAESB March 29, 2005 conference on the future of OASIS (R05026). Scoping statement completed by SRS and assignments made to BPS, ESS/ITS and JISWG.		
	1) Represent ALL pre-Order 888 (“grandfathered”) transmission and ancillary services in current use in OASIS Status: Completed	3 rd Q, 2008	BPS, ESS/ITS
	2) Eliminate Masking of TSR tag source and sink when requested status is denied, withdrawn refused, displaced, invalid, declined, annulled or retracted Status: Not Started	3 rd Q, 2009	ESS/ITS
	3) Initiate standard that requires ALL historical transmission service reservations to be available for review up to a number of years in the past. Status: Completed	3 rd Q, 2008	ESS/ITS
	4) Initiate standard that eliminates the disparity of posting “sensitive” information. This standard should also include procedures of user certification that allows access to this class of information. Status: Not Started	2009	ESS/ITS
	5) Enhance the TSR result postings to allow showing of (i) limiting transmission elements and (ii) available generation dispatch options that would allow acceptance of reservation request. Status: Not Started	2009	ESS/ITS
	6) Standardize the availability of TSR study result postings, eliminating practice of some Transmission Owners that charge for viewing these documents. Status: Completed This item was completed with Recommendation (2008 AP Item 2.a.i.5, 2008 AP Item 2.a.i.6, and 2008 AP Items 2.a.ii.1-3) WEQ-001 Changes for Rebid of Partial Service, Preconfirmation Priority, and Group 2: Metrics; Redispatch Cost Posting.	1 st Q, 2008	ESS/ITS
vii)	Respond to issues in FERC Order No. 676 (Docket No. RM05-5-000) – NAESB WEQ Standards 001 9.7, (paragraph 51 of the order). Status: Underway Item was assigned to group 4, reference 2007 WEQ AP item 2(a)(iv)(3).	2009	EC Task Force

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

Item Description	Completion ¹	Assignment ²
b) Develop and/or maintain standard communication protocols and cyber-security business practices as needed.		
i) Address the surety assessment findings on NAESB PKI standards. Status: Completed Item will be provided as a response to the U.S. DoE upon completion by the WGQ for their response to the findings.	1 st Q, 2008	JISWG
ii) Develop PKI standards for OASIS. Status: Not Started	2009	ESS/ITS
iii) Develop PKI Standards for e-tagging (Develop Implementation Plan). Status: Underway eTagging items are linked to the transition of the Registry from NERC to NAESB.	2 nd Q 2009	JISWG
iv) Develop enhanced Electric Industry Registry (EIR), (R06027) Status: Underway	2009	NAESB Staff
c) Develop needed business practice standards for organization/company codes for NAESB standards – and address current issues on the use of DUNs numbers. Status: Underway Common code usage is linked to the transition of the Registry from NERC to NAESB.	2009	NAESB Staff with WEQ support
d) Develop business practice standards in support of FERC Order 717 Status: Not Started	2 nd Q, 2009	ESS/ITS
4 Review and develop business practices standards to support e-Tariff program		
Develop business practices as needed to support the e-Tariff program including submittal of tariffs and metadata. (Docket No RM05-1-000) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	1 st Q, 2008	Joint WEQ/WGQ e-Tariff Subcommittee
5 Review and develop business practices standards to Demand Response, Demand Side Management and Energy Efficiency Programs		
Review and develop needed model business practices for a standardized method for quantifying benefits, savings, cost avoidance and/or the reduction in energy demand and usage derived from the implementation of demand side management and energy efficiency programs. This effort will include demand side response, energy efficiency programs and metering, including the 'curtailment service provider' program.		
a) Develop matrix and business practice standards for measurement and verification for demand response programs in ISO/RTO footprint areas. Status: Completed	4 th Q, 2008	Joint WEQ/Retail DSM-EE Subcommittee

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
b)	Develop matrix and business practice standards for measurement and verification for demand response programs in non-ISO/RTO footprint areas. Status: Underway	TBD	Joint WEQ/Retail DSM-EE Subcommittee
c)	Develop preamble for business practice standards for measurement and verification for demand response and energy efficiency programs. Status: Underway	2009	Joint WEQ/Retail DSM-EE Subcommittee
d)	Develop glossary for business practice standards Status: Underway	2009	Joint WEQ/Retail DSM-EE Subcommittee
e)	Support retail development of matrix and model business practice standards for measurement and verification for demand response programs Status: Underway	2009	Joint WEQ/Retail DSM-EE Subcommittee
f)	Develop business practice standards to measure and verify energy reductions that are made to comply with a Renewable Portfolio Standard that included energy efficiency or a stand-alone Energy Efficiency Portfolio Standard. Status: Not Started	Phase 2	Joint WEQ/Retail DSM-EE Subcommittee
g)	Develop business practice standards to factor Demand Control and Energy Efficiency programs into reliability / supply decisions at the wholesale level for generation and transmission planning and operations. Status: Not Started	Phase 2	Joint WEQ/Retail DSM-EE Subcommittee
h)	Develop business practice standards for cap and trade programs for green house gas Status: Not Started	Phase 2	Joint WEQ/Retail DSM-EE Subcommittee
6	Maintain existing body of Version 1 standards		
a)	Review/revise WEQ 006 to remove/revise mandatory requirements for Interconnection Time Monitor (R07019) Status: Completed Published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	2 nd Q, 2008	BPS
b)	Develop a NAESB time and inadvertent management business practice that provides additional inadvertent payback options and improved time control (R07020) Status: Complete	3 rd Q, 2008	BPS
c)	Make consistency changes to Version 1.0 standards as directed by the WEQ Leadership Committee on December 12, 2007 (R08001 – BPS, ESS/ITS, R08002 - ESS/ITS, R08003 - ESS/ITS - BPS, R08004, R08005 - ESS/ITS)		

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
1)	OASIS Consistency Changes (R08001, R08002, R08003, R08005) Status: Not Started	2009	ESS/ITS
2)	Gas / Electric Communication Consistency Changes (R08004) Status: Underway	2009	BPS
d)	Modify WEQ-001 to reflect in the definition of certain ancillary services that such ancillary services may be provided by non-generation resources such as demand resources. (http://www.naesb.org/pdf3/weq_ec051308w2.doc) Status: Completed To be published in Version 002, September 30, 2008 and forwarded to the FERC as part of the Version 002 filing, August 29, 2008.	July 2008	BPS, ESS/ITS
e)	Modify NAESB definitions to address internal inconsistencies and inconsistencies with the NERC glossary, (http://www.naesb.org/pdf3/weq_ec051308w3.doc) Status: Underway Subcommittee co-chairs are developing WEQ-000 Definition of Terms/Acronyms to replace definitions being included in each NAESB Business Practice.	1 st Q, 2009	BPS, SRS, ESS/ITS
f)	Review and evaluate whether to cutoff or put a size limit on the entities for which the standards apply Status: Completed After review of FERC Order 676, the subcommittee determined this annual plan item was outside of NAESB's scope. Waivers for standards based on an entity's size should be addressed by FERC rather than through standards at NAESB.	3 rd Q, 2008	SRS
g)	Investigate and review possible modifications to the WGQ Intraday Nominations, Confirmation Scheduling, and Gas Day standards, including possible standards for coordination of wholesale electric and wholesale gas scheduling. (R03031 , R03031 revised , Interim Report , Final Report) Status: Completed The subcommittee reviewed the standards request and documentation developed by the Gas Electric Coordination Task Force and determined no additional work was required. The subcommittee approved a "no action" recommendation to close out this standards request.	3 rd Q, 2008	SRS
h)	Develop standards to allow for registered Market Operators to request changes to the Market Level profile of Implemented Interchange (R06006) Status: Underway This request may be more of a clean-up in nature as it was requested in May 2006 but has not been addressed or presented as completed with the requisite documentation.	1 st Q 2009	JISWG
i)	Modify the timing chart for the Western Interconnection in WEQBPS-006 to an initiation of manual time error at +/-5 seconds. (R06010) Status: Completed The BPS developed a No Action recommendation for this request since the scope of the request had been addressed through a minor correction in 3 rd Quarter 2006.	3 rd Q, 2008	BPS

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
j)	Develop a standard mechanism to implement a “RECALL” of transmission capacity from an existing confirmed transmission service reservation/Specify the technical requirements for implementation of a new OASIS request type, RECALL. (R07001) Status: Completed This request was originally assigned to the ESS/ITS in February 2007.	3 rd Q, 2008	ESS/ITS
k)	Clarify the S&CP implementation of the DEFERRAL request. (R07003) Status: Completed This request was originally assigned to the ESS/ITS in February 2007.	3 rd Q, 2008	ESS/ITS
l)	Develop business practice and technical standards for assigning, tracking, and limiting rollover rights. (R07004) Status: Completed This Standards Request was assigned to the ESS/ITS in February 2007.	3 rd Q, 2008	ESS/ITS
m)	Update the Timing Table to Reflect the Categories (On-time, Late, After-the-fact, and Pre-late) used in the latest E-Tag Specification with respect to receipt of an Arranged Interchange (RFI). (R07007) Status: Completed	4 th Q, 2008	JISWG
n)	Consistent with ¶51 of FERC Order No. 890-A, add AFC and TFC values to the “System_Attribute” data element of the NAESB Standard WEQ-003: OASIS S&CP Data Dictionaries. (R08011) Status: Not Started This Standards Request was assigned to the ESS/ITS in May 2008.	2009	ESS/ITS
o)	Provide for Enhanced Granularity for Public Utilities in Identifying Critical Operational Flow Orders. (R08020) Status: Not Started. This Standards Request was assigned to the BPS in August 2008.	2009	BPS jointly with WGQ BPS

PROVISIONAL ITEMS

- Develop and or modify business practices related to support of NERC effort on the NERC Resources and Transmission Adequacy and Inadvertent Interchange Data Standards BAL-006 revisions.
Status: In review of the NERC development effort, [Balancing Authority Controls \(Project 2007-05\)](#), with Mr. Akens (TVA, NERC Drafting Team Leader) and Mr. Rodriguez (NERC Manager, Business Practice Coordination), it was determined that no changes would be required to NAESB standards. As such, NAESB leadership is not at this time determining if any development would be undertaken, which would then initiate a joint development effort. A [letter](#) to this effect was sent to NERC management. This assessment may however change as the NERC drafting team proceeds further in its development, so the provisional item remains on the 2008 WEQ Annual Plan.
- Develop business practice standards as requested by the regional and state advisory groups.
- Develop business practice standards as related to the Effectiveness Study of Competitive Wholesale Markets (Congressional Mandate), Electric Energy Market Competition Task Force, Docket No. [AD05-17-000](#), issued by the FERC on October 13, 2005.

NORTH AMERICAN ENERGY STANDARDS BOARD
2008 WEQ Annual Plan Approved by the Board of Directors on December 18, 2008

	Item Description	Completion¹	Assignment²
4	Develop and/or maintain business practice standards to support gas-electric interdependencies <ul style="list-style-type: none">• Respond to requests as received that are related to Docket No. RM05-28-000.• Respond directives related to the conclusions of the NAESB reports submitted in FERC Order No. 698, Docket Nos. RM05-5-001 and RM96-1-027.		
5	Develop business practices for allocating capacity among requests received during a submittal window Order 890-A (Docket Nos. RM05-17-001, 002 and RM05-25-001, 002 - Paragraph 805).		
6	Determine any needed NAESB action in support of the Interchange Distribution Calculator (IDC) and develop any necessary standards.		

NAESB WEQ EC and Subcommittee Leadership:

Executive Committee: Kathy York (WEQ EC Chair) and Clay Norris (WEQ EC Vice Chair)

Standards Review Subcommittee: Narinder Saini, Ed Skiba

Interpretations Subcommittee: Robert Schwermann

Business Practices Subcommittee & Task Forces: Jim Busbin (TLR), Ed Skiba

Electronic Scheduling Subcommittee/Information Technology Subcommittee & Task Forces: Paul Sorenson, J.T. Wood, Marcie Otondo

Joint Interchange Scheduling Working Group (JISWG): Bob Harshbarger (NAESB), Jim Hansen (NERC)

e-Tariff Joint WEQ/WGQ Subcommittee (e-Tariff): Jane Daly (WEQ), Keith Sappenfield (WGQ)

DSM-EE Joint Retail/WEQ Subcommittee: Ruth Kiselewich and David Koogler (Retail), Roy True and Paul Wattles (WEQ)

End Notes WEQ 2008 Annual Plan:

¹ Dates in the completion column are by end of the quarter for completion by the assigned committee. The dates do not necessarily mean that the standards are fully staffed to be implementable by the industry, and/or ratified by membership. If one item is completed earlier than planned, another item can begin earlier and possibly complete earlier than planned. There are no begin dates on the plan.

² The assignments are abbreviated. The abbreviations and committee structure can be found at the end of the annual plan document.

³ For additional information, please see: http://www.naesb.org/pdf3/weq_bps100407w4.ppt for Phase II changes and http://www.naesb.org/pdf2/weq_bps070907w4.doc for Phase III changes.

⁴ [Joint Development Procedure](#) is to be used by the NERC TLR Drafting Team and NAESB BPS.

⁵ For additional information, please see comments submitted by PJM and MISO for this Annual Plan Item: http://www.naesb.org/pdf3/weq_aplan102907w1.pdf.

⁶ Joint Development Procedure is to be used by the NERC TLR Drafting Team and NAESB BPS.

⁷ The June 1, 2008 dates included in this Annual Plan Item are assigned as a result of FERC extending deadlines to both NERC and NAESB on ATC related Order No. 890 items.

**NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009**

Item Description	Completion ⁸	Assignment ^{9, 10}
1 Develop business practices standards as needed to complement reliability standards		
Develop business practice standards to support and complement NERC reliability standards, NERC policies and NERC standards authorization requests (SARs) using the NERC/NAESB Coordination Joint Standards Development Process as appropriate. Current NAESB activities underway to develop business practice standards that are supportive of this annual plan item are:		
a) Develop business practices to support Coordinate Interchange – R05020 “Include a guideline for rounding schedules with partial MWh's in the coordinate interchange business practice WEQ BPS-002-000” the rounding standard recommendation Status: Completed. Recommendation was voted out of the JESS on September 2, 2009. Formal comment period closed on October 8, 2009.	3 rd Q, 2009	JESS
b) Continuous support of TLR Procedure in alignment with NERC efforts on TLR Phase II and Phase III development.		
i) Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection. Note: Activity is dependent on NERC approval of SAR expected in 2 nd Q, 2009. Upon approval of the SAR and NAESB action on this item, consideration should be given to provisional item 4. Status: Started	2010	BPS
ii) Update WEQ-008 Appendix D to include the Market Flow Threshold Percentage recommended by NERC working group/task force Status: Completed. The WEQ BPS voted a minor correction out of subcommittee on August 12, 2009	3 rd Q, 2009	BPS
c) Conduct analysis as to whether standards can be developed which outline a standardized process for the coordination and execution of emergency energy schedules. These would be complementary standards to EOP-002-2 Requirements R4 and R6 (SRS Analysis of EOP-002-2 R4 & R6) Status: Completed and as a result item (3)(a)(viii) has been added to the plan	1 st Q, 2009	JESS
d) Time Error and Inadvertent (BAL-004 and BAL-006) Coordination with NERC Status: Monitor. (Upon initiation of this item by NAESB, a completion date will be determined. Based on discussions with NERC staff regarding the Balancing Authority Controls Standards Drafting Team’s timeline the completion date has been changed to tbd.)	TBD	TIMTF
e) DCS and AGC (BAL-002 and BAL-005) Coordination with NERC Status Monitor. (Upon initiation of this item by NAESB, a completion date will be determined. Based on discussions with NERC staff regarding the Balancing Authority Controls Standards Drafting Team’s timeline the completion date has been changed to tbd.)	TBD	TIMTF

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

Item Description	Completion ⁸	Assignment ^{9,10}
2 Develop business practice standards in support of the FERC RM05-25-000 and RM05-17-000 (OATT Reform)		
a) Develop version 2 business practice standards to better coordinate the use of the transmission system among neighboring transmission providers. Such business practice standards would be based on recommendations from NERC's Long Term ATC/AFC Task Force and would involve revised procedures for the ATC calculation and/or revised protocols as determined by the final order. Status: Underway Development is using joint standards development process with NERC. Request R050004 was expanded to include the Order No. 890 (Docket Nos. RM05-25-000 and RM05-17-000) and Order No. 890-A (Docket Nos. RM05-17-001, 002 and RM05-25-001, 002), "Preventing Undue Discrimination and Preference in Transmission Services," issued April 11, 2007).		
i) Group 3: Network Service On OASIS		
9. Use of OASIS to Make Electronic Requests to Designate and Terminate Network Resource Status: Underway	1 st Q, 2010	OASIS
10. Ability to Query Requests to Designate and Terminate Network Resources and Allow for Queries of All Information Provided with Designation Requests Status: Underway	1 st Q, 2010	OASIS
11. Masking of Designated Network Resource Operating Restrictions and Generating Cost Information Status: Underway	1 st Q, 2010	OASIS
12. Procedural Requirements for Submitting Designations over new OASIS Functionality Status: Underway	1 st Q, 2010	OASIS
13. Specify How Designated Network Service Informational Postings are Posted on OASIS Status: Underway	1 st Q, 2010	OASIS
14. Develop standards for the treatment of OASIS Requests when the Customer Fails to Provide the Necessary Attestation Status: Underway	1 st Q, 2010	OASIS
15. Procedural Requirements for Submitting Both Temporary and Indefinite Terminations of Network Resources Status: Underway	1 st Q, 2010	OASIS
16. Procedures for Submitting and Processing Requests for Concomitant Evaluations of Transmission Requests and Temporary Terminations Status: Underway	1 st Q, 2010	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

	Item Description	Completion⁸	Assignment^{9, 10}
ii)	Group 4: Pre-Emption; Request No. R05019; and Revisions to Standard 9.7		
	5. Pre-Emption Status: Not Started	3rd Q, 2010	OASIS
	6. Request No. R05019 Status: Not Started	3rd Q, 2010	OASIS
	7. Modify WEQ-001-9.7 Rollover Rights for Redirect on a Firm Basis Status: Completed	2 nd Q, 2009	OASIS
iii)	Group 5: Paragraph 1377 – Group 5 work should precede group 4 work		
	3. Paragraph 1377 Status: Not Started	2nd Q, 2010	OASIS
	4. Re-Bid Of Partial Service across Multiple Transmission Providers' Systems Status: Not Started	2nd Q, 2010	OASIS
	5. Group DNR requests from a system with point-to-point requests on other systems for synchronization Status: Not Started	2nd Q, 2010	OASIS
iv)	Group 6: Miscellaneous (Paragraphs 1390 and 1627 of Order 890)		
	5. Paragraph 1390 of Order 890 Status: Not Started	4 th Q, 2010	OASIS
	6. Paragraphs 1627 of Order 890 Status: Not Started	4 th Q, 2010	OASIS
	7. Redispatch Cost Posting to allow for posting of third party offers of planning redispatch services. Status: Not Started	4 th Q, 2010	OASIS
b)	Develop the needed business practices as companion to the NERC standards for ATC related efforts		
i)	Develop standards to support existing Request No. R05004 .		
	1. The processing of transmission service requests, which use TTC/ATC/AFC, in coordination with NERC changes to MOD 001 where the allocation of flowgate capability based on historical Network Native Load impacts the evaluation of transmission service requests, requiring the posting of those allocation values in conjunction with queries of service offerings on OASIS Status: Underway	1 st Q, 2010	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

	Item Description	Completion⁸	Assignment^{9,10}
3	Develop business practices standards to improve the current operation of the wholesale electric market and develop and maintain business practice and communication standards for OASIS and Electronic Scheduling		
a)	Develop and/or maintain business practice standards as needed for OASIS and electronic scheduling. Specific items to address include:		
i)	Network Services: Determine and develop needed business practice standards or other support is needed to support use of OASIS for Network Service transactions (R04006E). (Related to AP 2(a)(iii)) Status: Underway	1 st Q, 2010	OASIS
ii)	Registry (TSIN): Determine and develop needed business practice standards to support the registry functions currently supported by NERC (R04037 , R06027).		
	1. Work with the NAESB counsel to develop a confidentiality agreement, (R07013) Status: Completed	4 th Q, 2009	JESS
	2. Transition the TSIN Registry from NERC to NAESB as the enhanced Electric Industry Registry (EIR), (R06027). Status: Underway	2010	NAESB/NERC Administration, JESS
iii)	Document procedures used to implement the displacement/interruption terms of the Pro Forma tariff (R05019). Status: Deleted as a duplicate of 2009 AP item 2.a.ii.2	2011	OASIS
iv)	Make remaining incremental enhancements to OASIS as an outgrowth of the NAESB March 29, 2005 conference on the future of OASIS (R05026). Scoping statement completed by SRS and assignments made to BPS and OASIS.		
	1. Eliminate Masking of TSR tag source and sink when requested status is denied, withdrawn refused, displaced, invalid, declined, annulled or retracted Status: Not Started	2011	OASIS
	2. Initiate standard that eliminates the disparity of posting "sensitive" information. This standard should also include procedures of user certification that allows access to this class of information. Status: Underway (upon further development of this item by NAESB, a completion date will be determined)	2011	OASIS
	3. Enhance the TSR result postings to allow showing of (i) limiting transmission elements and (ii) available generation dispatch options that would allow acceptance of reservation request. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2011	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

	Item Description	Completion⁸	Assignment^{9, 10}
v)	Develop, coordinate interoperability testing, and implement e-Tag version 1.8.1 Status: Underway – 20090716 discussed rough time frames laid out needs test plans drafted	1 st Q, 2010	JESS
vi)	Transition e-Tag Specification and schema to NAESB Status: Complete. Version 1.8.1 will be identified as the NAESB Electronic Tagging Functional Specification	1 st Q, 2009	JESS
vii)	Review and correct the WEQ-004 Coordinate interchange Business Practice Standard as noted during the development of the e-Tag 1.8 development process. Status: Completed. Recommendation was voted out of the JESS on September 2, 2009. Formal comment period closed on October 8, 2009.	3 rd Q, 2009	JESS
viii)	Review and correct WEQ-004 Coordinate Interchange Business Practice Standard as needed based on activities in NERC Project 2008-12, Coordinate Interchange Standards Revisions and supporting EOP-002-2 R4 and R6. [note: this is a new item] Status: Not started – dependent on NERC activity (upon initiation of this item by NAESB, a completion date will be determined)	2010	JESS
b)	Develop and/or maintain standard communication protocols and cyber-security business practices as needed.		
i)	Develop PKI certification program for e-Tag and OASIS Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2010	Board Certification Program Committee
ii)	Develop PKI standards for OASIS. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2011	OASIS
iii)	Develop Industry Implementation Plan for meeting PKI Standard requirements for e-tagging. Status: Underway. Full e-Tag implementation (server & client side) is linked to the transition of the Registry from NERC to NAESB and NAESB implementation. 20090716 – server-side certificate underway – change TSIN to accept https URLs with a September 2009 target.	TBD – dependent on item above (i) and EIR	JESS
c)	Develop needed business practice standards for organization/company codes for NAESB standards – and address current issues on the use of DUNs numbers. Status: Underway (upon further development of this item by NAESB, a completion date will be determined) Common code usage is linked to the transition of the Registry from NERC to NAESB	2009	NAESB Staff with WEQ support
d)	Develop business practice standards in support of FERC Order No. 717 Status: Completed	1 st Q, 2009	BPS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

	Item Description	Completion ⁸	Assignment ^{9, 10}
4	Review and develop business practices standards to Demand Response, Demand Side Management and Energy Efficiency Programs		
	Review and develop needed model business practices for a standardized method for quantifying benefits, savings, cost avoidance and/or the reduction in energy demand and usage derived from the implementation of demand side management and energy efficiency programs. This effort will include demand side response, energy efficiency programs and metering, including the 'curtailment service provider' program.		
	a) Develop matrix and business practice standards for measurement and verification for demand response products and services in ISO/RTO footprint areas. Status: Completed	4 th Q, 2008	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee
	b) Develop more detailed technical standards for the measurement and verification of demand response products and services in ISO-RTO footprint areas, including examples to be developed to support item 4(a) above. Status: In Progress	2010	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee
	c) Develop preamble for business practice standards for measurement and verification for demand response and energy efficiency programs. Status: Completed	3 rd Q, 2009	Joint WEQ/REQ DSM-EE Subcommittee
	d) Develop glossary for business practice standards Status: Ongoing	Ongoing	Joint WEQ/REQ DSM-EE Subcommittee
	e) Support retail development of matrix and model business practice standards for measurement and verification for demand response programs Status: Completed	3 rd Q, 2009	Retail Section of Joint WEQ/REQ DSM-EE Subcommittee
	f) Develop business practice standards to measure and verify energy reductions that are made to comply with a Renewable Portfolio Standard that included energy efficiency or a stand-alone Energy Efficiency Portfolio Standard. Status: Upon further review, the task force has determined this work will be completed under Annual Plan Item 4g.	Combined with 4g	WEQ Section/Joint WEQ/REQ DSM-EE Subcommittee
	g) Develop business practice standards used to measure and verify reductions in energy and demand from energy efficiency in wholesale and retail markets. ⁶⁶ Status: Underway (An estimated completion date will be established in 4 th Q after the new working group has been formalized)	2010	WEQ Section/Joint WEQ/REQ DSM-EE Subcommittee

⁶⁶ Energy efficiency may be a wholesale product, such as capacity. Energy efficiency in retail markets may be from individual energy efficiency measures at the project level or a portfolio of projects that make up an energy efficiency program.

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

Item Description	Completion ⁸	Assignment ^{9, 10}
h) Develop business practice standards for cap and trade programs for green house gas Status: Moved to Provisional Item 8. This item will not be addressed until Congress has addressed pending legislation.	Moved to Provisional Item 8	Joint WEQ/REQ DSM-EE Subcommittee
5 Maintain existing body of Version 2 standards		
a) Make consistency changes to Version 1.0 standards as directed by the WEQ Leadership Committee on December 12, 2007 (R08001 – BPS, OASIS, R08002 - OASIS, R08003 - OASIS - BPS, R08004, R08005 - OASIS)		
1. OASIS Consistency Changes (R08001, R08002, R08003, R08005) Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2011	OASIS
2. Gas / Electric Communication Consistency Changes (R08004) Status: Completed. WEQ BPS coordinated recommendation with WGQ BPS. WEQ BPS voted recommendation out of subcommittee on September 28, 2009.	3 rd Q, 2009	WEQ BPS / WGQ BPS
b) Modify NAESB definitions to address internal inconsistencies and inconsistencies with the NERC glossary. Revise existing NAESB glossary/definition of terms to be applicable to entire set of WEQ Business Practices. (http://www.naesb.org/pdf3/weq_ec051308w3.doc) Status: Completed Subcommittee co-chairs are developing WEQ-000 Definition of Terms/Acronyms to replace definitions being included in each NAESB Business Practice.	4 th Q, 2009	BPS/OASIS/RS/JESS Co-chairs
c) Develop standards to allow for registered Market Operators to request changes to the Market Level profile of Implemented Interchange (R06006) Status: Complete	1 st Q, 2009	JESS
d) Consistent with ¶51 of FERC Order No. 890-A, add AFC and TFC values to the “System_Attribute” data element of the NAESB Standard WEQ-003: OASIS S&CP Data Dictionaries. (R08011) Status: Not Started This Standards Request was assigned to the OASIS in May 2008.	2011	OASIS
e) Provide for Enhanced Granularity for Public Utilities in Identifying Critical Operational Flow Orders. (R08020) Status: WEQ Complete/WGQ In Progress. This Standards Request was assigned to the BPS in August 2008 (upon initiation of this item by NAESB, a completion date will be determined)	2 nd Q, 2009	BPS jointly with WGQ BPS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as Approved by the Board on December 10, 2009

	Item Description	Completion⁸	Assignment^{9, 10}
f)	<p>Synchronize Bidding Credit Requirements for FTR, TCC and CRR (R08025) Posting of collateral is an important issue for financial marketers. Most financial marketers and smaller entities are required to post cash for FTR transactions, while most utilities post unsecured credit. Therefore, the timing for posting collateral is especially crucial to financial marketers. There are two posting periods for FTRs:</p> <p>1. The Bidding Requirement: Credit must be posted with FTR bids and these monies are held until bids are cleared.</p> <p>2. The Holding Requirement: After bids are cleared and FTRs awarded, collateral is required for the amount of time the FTR is active.</p> <p>Status: Withdrawn by requester</p>	4 th Q, 2009	SRS (Scoping)
g)	<p>Correct WEQ 013-2.6.7.2. – Resale off OASIS (R08027) Status: Not Started</p>	TBD	OASIS
h)	<p>Add language to WEQ-001-4 Online Negotiation and Confirmation process to clarify Table 4-3 (R09003) Status: Not Started</p>	TBD	OASIS
i)	<p>Change Power Plant Operator to Power Plant Gas Coordinator (R09011) Status: Completed. WEQ BPS coordinated recommendation with WGQ BPS. WEQ BPS voted recommendation out of subcommittee on September 28, 2009.</p>	4 th Q, 2009	WEQ BPS/WGQ BPS

NORTH AMERICAN ENERGY STANDARDS BOARD
NAESB 2009 WEQ Annual Plan as approved by the Board on December 10, 2009

PROVISIONAL ITEMS

- 1 Develop and or modify business practices related to support of NERC effort on the NERC Resources and Transmission Adequacy (Project 2009-05 Resource Adequacy Assessment).
- 2 Develop business practices for allocating capacity among requests received during a submittal window Order 890-A ([Docket Nos. RM05-17-001, 002 and RM05-25-001, 002](#) - Paragraph 805).
- 3 Determine any needed NAESB action in support of the Interchange Distribution Calculator (IDC) and develop any necessary standards.
- 4 Prepare recommendations for future path for TLR (equity concerns) in concert with NERC, which may include alternative congestion management procedures¹¹. Work on this activity is dependent on completing 2009 WEQ Annual Plan 1.c.i (Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection).
- 5 Develop complementary standards that align with NERC Project 2008-01 Voltage and Reactive Control, for which a white paper is expected after the 2009 SAR is processed.
- 6 Develop NAESB business practices as needed to complement NERC reliability standards for FAC-012 and FAC-013.
- 7 Determine NAESB action needed to support FERC Action Plan for Smart Grid Technology.
- 8 Develop business practice standards for cap and trade programs for green house gas (See action item 4h).
- 9 Conduct assessment to determine if Electric Industry Requirements documented in WEQ-011 Gas / Electric Coordination should be considered reliability requirements and transition to NERC.

NAESB WEQ EC and Subcommittee Leadership:

Executive Committee: Kathy York (WEQ EC Chair) and Matthew Goldberg (WEQ EC Vice Chair)

Standards Review Subcommittee: Narinder Saini, Ed Skiba

Interpretations Subcommittee: Robert Schwermann

Business Practices Subcommittee & Task Forces: Jim Busbin (TLR), Ed Skiba

Open Access Same Time Information System (OASIS): Paul Sorenson, J.T. Wood, Marcie Otondo

Joint Electric Scheduling Subcommittee (JESS): Bob Harshbarger (NAESB), Jim Hansen (NERC)

e-Tariff Joint WEQ/WGQ Subcommittee (e-Tariff): Jane Daly (WEQ), Keith Sappenfield (WGQ)

DSM-EE Joint Retail/WEQ Subcommittee: Ruth Kiselewich and David Koogler (Retail), Roy True and Paul Wattles (WEQ)

(**) The Smart Grid Task Force is a joint group of the retail electric and wholesale electric quadrant with other standards development groups such as OASIS, CalConnect, FIX and UCAIug, and includes other groups. Direction may be given from NIST, DoE or FERC and the group reports to the NAESB Board Smart Grid Strategic Steering Committee. The group is chaired by Brent Hodges, Wayne Longcore, Joe Zhou and Robert Burke.

End Notes WEQ 2009 Annual Plan:

⁸ Dates in the completion column are by end of the quarter for completion by the assigned committee. The dates do not necessarily mean that the standards are fully staffed to be implementable by the industry, and/or ratified by membership. If one item is completed earlier than planned, another item can begin earlier and possibly complete earlier than planned. There are no begin dates on the plan.

⁹ The assignments are abbreviated. The abbreviations and committee structure can be found at the end of the annual plan document.

¹⁰ The Electronic Scheduling Subcommittee and Information Technology Subcommittee (ESS/ITS) were merged together through a decision made at the May 12, 2009 WEQ EC meeting. The new subcommittee is named Open Access Same Time Information System Subcommittee (OASIS) and is now shown for assignments in this and future annual plans as OASIS. Similarly the Joint Interchange Scheduling Working Group (JISWG) was renamed the Joint Electric Scheduling Subcommittee and now reports to the WEQ EC. JESS is now shown for assignments in this and future annual plans rather than JISWG. The changes took effect on August 1, 2009.

¹¹ For additional information, please see comments submitted by PJM and MISO for this Annual Plan Item:

http://www.naesb.org/pdf3/weq_aplan102907w1.pdf.

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

Item Description	Completion ¹²	Assignment ¹³
1 Develop business practices standards as needed to complement reliability standards		
Develop business practice standards to support and complement NERC reliability standards, NERC policies and NERC standards authorization requests (SARs) using the NERC/NAESB Coordination Joint Standards Development Process as appropriate. Current NAESB activities underway to develop business practice standards that are supportive of this annual plan item are:		
a) Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection. Note: Consideration should be given to provisional item 4. Work is being coordinated with the NERC IDC Working Group.		
i) Interim solution for Parallel Flow Visualization Status: Completed Interim solution is needed to support November 1, 2010 NERC implementation of IDC Change Order 283 into the IDC Staging Environment.	3 rd Q, 2011	BPS
ii) Permanent solution for Parallel Flow Visualization Status: Started	2nd Q, 2011	BPS
b) Time Error and Inadvertent (BAL-004 and BAL-006) Coordination with NERC Status: Monitor. (Will require coordination with Balancing Authority Reliability Based Controls Standards Drafting Team (BARCSDT) created in July 2010) – Moved to provisional item 13	Transferred to Provisional Items ⁶⁷	TIMTF
c) DCS and AGC (BAL-002 and BAL-005) Coordination with NERC Status: Monitor. (Will require coordination with Balancing Authority Reliability Based Controls Group created in July 2010) – Moved to provisional item 14	Transferred to Provisional Items ¹	TIMTF
d) Monitor and develop NAESB business practices as needed to complement NERC reliability standards for FAC-012 and FAC-013. Status: Completed	3 rd Q, 2010	SRS

⁶⁷ The activities for the WEQ 2010 Annual Plan Item Nos. 1b, 1c, and 1d are dependent on NERC standards development efforts. It is probable that this item will not start until 2012 when the field test from NERC is completed.

ii)	Group 4: Pre-Emption; Request No. R05019		
	8. Pre-Emption Status: Not Started	2011	OASIS
	9. Request No. R05019 Status: Not Started	2011	OASIS
iii)	Group 5: Paragraph 1377 ⁶⁹ – Group 5 work should precede group 4 work ³		
	1) Paragraph 1377-Coordination of Requests Across Multiple Transmission Systems Status: Underway, Scoping Group work product approved by the WEQ EC and sent to the OASIS Subcommittee.	1 st Q, 2011	OASIS
	2) Re-Bid Of Partial Service across Multiple Transmission Providers' Systems Status: Underway, Scoping Group work product approved by the WEQ EC and sent to the OASIS Subcommittee	1 st Q, 2011	OASIS
	3) Group DNR requests from a system with point-to-point requests on other systems for synchronization Status: Underway, Scoping Group work product approved by the WEQ EC and sent to the OASIS Subcommittee	1 st Q, 2011	OASIS

⁶⁹ Paragraph 1377 of FERC Order No. 890, issued February 16, 2007: The Commission agrees that transmission requests across multiple transmission systems should be coordinated by the relevant transmission providers. We will not, however, amend the pro forma OATT to require such coordination. Rather, we require transmission providers working through NAESB to develop business practice standards related to coordination of requests across multiple transmission systems. In order to provide guidance to NAESB, we will articulate the principles that should govern processing across multiple systems. All the transmission providers involved in a request across multiple systems should consider a request that requires studies across multiple systems to be a single application for purposes of establishing the deadlines for rendering an agreement for service, revising queue status, eliciting deposits and commencing service. In order to preserve the rights of other transmission customers with studies in the queue, the priority for the single application should be based on the latest priority across the transmission providers involved in the multiple system request. We note that regional entities like westTrans are already coordinating requests across multiple transmission systems and we believe such coordination is an acceptable solution to this issue.

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

	Item Description	Completion¹²	Assignment¹³
iv)	Group 6: Miscellaneous (Paragraphs 1390 ⁷⁰ and 1627 ⁷¹ of FERC Order No. 890)		
	1) Paragraph 1390 of Order 890 – Terminations related to: deficient requests, customer failure to pay required annual reservation fee, and customer modifications to applications which are meaningfully different. Status: Not Started	2011	OASIS
	2) Paragraphs 1627 of Order 890 – Posting of additional information on OASIS regarding firm transmission curtailments Status: Not Started	2011	OASIS
	3) Redispatch Cost Posting to allow for posting of third party offers of planning redispatch services. Status: Not Started	2011	OASIS

⁷⁰ Paragraph 1390 of FERC Order No. 890, issued February 16, 2007: We will not modify the pro forma OATT to address requests to allow the transmission provider to terminate idle transmission service requests. NAESB’s business practice 001-4.11 allows the transmission provider to retract a request if the transmission customer does not respond to an acceptance within the time established in NAESB business practice standard 001-4.13. Therefore, we interpret TDU Systems comments to refer to circumstances when a transmission customer fails to respond to the transmission provider’s request for additional information during the course of a request study. As discussed above, by the time the transmission provider offers a system impact study agreement, it should have all of the information that it needs to complete the study. Pursuant to section 17.4 of the pro forma OATT, the transmission provider can deem a transmission service request deficient if the transmission customer does not provide all of the information the transmission provider needs to evaluate the request for service. We will revise section 17.7 of the pro forma OATT so that the transmission provider is able to terminate a request for transmission service if a transmission customer that is extending the commencement of service does not pay the required annual reservation fee within 15 days of notifying the transmission provider that it would like to extend the commencement of service. We will not change the pro forma OATT to allow the transmission provider to terminate a transmission service request if the transmission customer changes its application for service. We believe the existing pro forma OATT is sufficient to allow a transmission provider to manage situations where the transmission customer modifies its application for service to the point that the customer is requesting transmission service that is meaningfully different than its initial request.

⁷¹ Paragraph 1627 of FERC Order No. 890, issued February 16, 2007: We agree with suggestions for the posting of additional curtailment information on OASIS and, therefore, require transmission providers, working through NAESB, to develop a detailed template for the posting of additional information on OASIS regarding firm transmission curtailments. Transmission providers need not implement this new OASIS functionality and any related business practices until NAESB develops appropriate standards. These postings must include all circumstances and events contributing to the need for a firm service curtailment, specific services and customers curtailed (including the transmission provider’s own retail loads), and the duration of the curtailment. This information is in addition to the Commission’s existing requirements: (1) when any transmission is curtailed or interrupted, the transmission provider must post notice of the curtailment or interruption on OASIS, and the transmission provider must state on OASIS the reason why the transaction could not be continued or completed; (2) information to support any such curtailment or interruption, including the operating status of facilities involved in the constraint or interruption, must be maintained for three years and made available upon request to the curtailed or interrupted customer, the Commission’s Staff, and any other person who requests it; and, (3) any offer to adjust the operation of the transmission provider’s system to restore a curtailed or interrupted transaction must be posted and made available to all curtailed and interrupted transmission customers at the same time.

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

Item Description	Completion ¹²	Assignment ¹³
b) Develop the needed business practices as companion to the NERC standards for ATC related efforts ³		
i) Develop standards to support existing Request No. R05004 .		
1) The processing of transmission service requests, which use TTC/ATC/AFC, in coordination with NERC changes to MOD 001 where the allocation of flowgate capability based on historical Network Native Load impacts the evaluation of transmission service requests, requiring the posting of those allocation values in conjunction with queries of service offerings on OASIS Status: Underway	1 st Q, 2011	OASIS
3 Develop business practices standards to improve the current operation of the wholesale electric market and develop and maintain business practice and communication standards for OASIS and Electronic Scheduling		
a) Develop and/or maintain business practice standards as needed for OASIS and electronic scheduling. Specific items to address include:		
i) Network Services: Determine and develop needed business practice standards or other support is needed to support use of OASIS for Network Service transactions (R04006E). (Related to AP 2(a)(iii)) ³ Status: Underway	1 st Q, 2011	OASIS
ii) Registry (TSIN): Determine and develop needed business practice standards to support the registry functions currently supported by NERC (R04037 , R06027).		
1) Transition the TSIN Registry from NERC to NAESB as the enhanced Electric Industry Registry (EIR), (R06027). Status: Underway, contract signed.	2 nd Q, 2011	NAESB/NERC Administration, JESS
iii) Document procedures used to implement the displacement/interruption terms of the Pro Forma tariff (R05019). Status: Deleted as a duplicate of 2009 AP item 2.a.ii.2		
iv) Make remaining incremental enhancements to OASIS as an outgrowth of the NAESB March 29, 2005 conference on the future of OASIS (R05026). Scoping statement completed by SRS. There were a number of assignments from the Standards Request. The outstanding items are included below:		
1) Eliminate Masking of TSR tag source and sink when requested status is denied, withdrawn refused, displaced, invalid, declined, annulled or retracted Status: Not Started	2012	OASIS
2) Initiate standard that eliminates the disparity of posting “sensitive” information. This standard should also include procedures of user certification that allows access to this class of information. Status: Underway (upon further development of this item by NAESB, a completion date will be determined)	2012	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

	Item Description	Completion¹²	Assignment¹³
	3) Enhance the TSR result postings to allow showing of (i) limiting transmission elements and (ii) available generation dispatch options that would allow acceptance of reservation request. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2012	OASIS
	v) Develop, coordinate interoperability testing, and implement e-Tag version 1.8.1 Status: Completed.	1 st Q, 2010	JESS
	vi) Review and correct WEQ-004 Coordinate Interchange Business Practice Standard as needed based on activities in NERC Project 2008-12, Coordinate Interchange Standards Revisions and supporting EOP-002-2 R4 and R6. [note: this is a new item] Status: Underway. Completion date dependent upon coordination activities with NERC.	2011	JESS
b)	Develop and/or maintain standard communication protocols and cyber-security business practices as needed.		
	i) Develop PKI certification program for e-Tag and OASIS Status: Underway	3 rd Q 2011	Board Certification Program Committee
	ii) Develop PKI standards for OASIS. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2012	OASIS
	iii) Develop Industry Implementation Plan for meeting PKI Standard requirements for e-tagging. Status: Underway. Full e-Tag implementation (server & client side) is linked to the transition of the Registry from NERC to NAESB and NAESB implementation.	TBD – dependent on item above (i) and EIR	JESS

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

Item Description	Completion ¹²	Assignment ¹³
<p>4 Review and develop business practices standards to Demand Response, Demand Side Management and Energy Efficiency Programs</p> <p>Review and develop needed model business practices for a standardized method for quantifying benefits, savings, cost avoidance and/or the reduction in energy demand and usage derived from the implementation of demand side management and energy efficiency programs. This effort will include demand side response, energy efficiency programs and metering, including the 'curtailment service provider' program.</p>		
<p>a) Review the NAESB Business Practices for Measurement and Verification of Wholesale Electricity Demand Response (WEQ-015) in conjunction with the IRC developed Demand Response Matrix and identify business practice requirements that could be improved or made clearer through the addition of specific technical detail. The wholesale and retail demand response work groups and the Smart Grid Standards Subcommittees should actively and timely communicate and coordinate work products to ensure consistency between the three work groups. Each work group should take into account the work products developed by the other.</p> <p>Status: Completed</p>	Phase 2 – 4 th Q 2010	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee
<p>b) For each performance evaluation type/service type combination identified in WEQ-015, using the IRC matrix as a starting point, assess and determine what standards or guidelines, if any, should be developed to aid all participants in the use of measurement and verification methods for demand response programs in organized wholesale electric markets. If the determination is made that standards or guidelines will be developed, those items will be added as sub-items to 4(b).</p> <p>Status: Completed</p>	Phase 2 – 4 th Q 2010	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee
<p>c) Develop glossary for business practice standards</p> <p>Status: Ongoing</p>	Ongoing	Joint WEQ/REQ DSM Subcommittee
<p>d) Develop business practice standards used to measure and verify reductions in energy and demand from energy efficiency in wholesale and retail markets.¹⁴ This includes developing business practice standards to measure and verify energy reductions that are made to comply with a Renewable Portfolio Standard that included energy efficiency or a stand-alone Energy Efficiency Portfolio Standard.</p> <p>Status: Completed</p>	4 th Q, 2010	Joint WEQ/REQ DSM-EE Subcommittee
<p>e) Create common interfaces and data structures necessary for enrolling DR sites into a DR program (Request No. R10002)</p> <p>Status: Reassigned to Retail Electric Quadrant Only</p>	4 th Q, 2010	REQ portion of the Joint WEQ/REQ DSM-EE Subcommittee with coordination with Smart Grid Standards Task Force and REQ BPS

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

Item Description	Completion ¹²	Assignment ¹³
5 Maintain existing body of Version 2.x standards		
a) Make consistency changes to Version 2.2 standards as directed by the WEQ Leadership Committee on December 12, 2007 OASIS Consistency Changes (R08001, R08002, R08003, R08005) Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	TBD	OASIS
b) Consistent with ¶51 of FERC Order No. 890-A, add AFC and TFC values to the “System_Attribute” data element of the NAESB Standard WEQ-003: OASIS S&CP Data Dictionaries. (R08011) Status: Not Started. This Standards Request was assigned to the OASIS in May 2008.	TBD	OASIS
c) Correct WEQ 013-2.6.7.2. – Resale off OASIS (R08027) Status: Not Started	TBD	OASIS
d) Add language to WEQ-001-4 Online Negotiation and Confirmation process to clarify Table 4-3 (R09003) Status: Not Started	TBD	OASIS
e) Create a new OASIS mechanism that allows for the merger of like reservations without the use of the resale mechanism (R09015) Status: Not Started	TBD	OASIS
6. Develop Smart Grid Wholesale and Retail Electric Standards - The wholesale and retail demand response work groups and the Smart Grid task force should actively and timely communicate and coordinate work products to ensure consistency between the three work groups. Each work group should take into account the work products developed by the other.		
a) Develop requirements and use cases for PAP 03 – Pricing Model)		
i). Phase 1 Status: Completed	1 st Q, 2010	Joint WEQ/REQ SGS Subcommittee
ii) Phase 2 Status: Completed	4 th Q, 2010	Joint WEQ/REQ SGS Subcommittee
b) Develop requirements and use cases for PAP 04 – Scheduling Model)		
i) Phase 1 Status: Completed	1 st Q, 2010	Joint WEQ/REQ SGS Subcommittee
ii) Phase 2 Status: Completed	4 th Q, 2010	Joint WEQ/REQ SGS Subcommittee
c) Develop requirements and use cases for PAP 09 – Demand Response/Distributed Energy Resources)		

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

Item Description	Completion ¹²	Assignment ¹³
i) Phase 1 Status: Completed	1 st Q, 2010	WEQ Section of the Joint WEQ/REQ SGS Subcommittee
ii) Phase 2 Status: Completed	4 th Q, 2010	WEQ Section of the Joint WEQ/REQ SGS Subcommittee
d) Develop standards to support PAP 10 – Standards Energy Usage Information		
i) Act as a convener (develop and implement a plan to expedite harmonized standards development and adoption within the associated standards bodies) and develop business practice standards as needed and assigned to NAESB for PAP 10 – Standard Energy Usage Information Status: Completed	2 nd Q, 2010	Joint WEQ/REQ PAP 10 SGS Subcommittee
ii) Develop Information Model and related business practices Status: Complete	4 th Q, 2010	Joint WEQ/REQ PAP 10 SGS Subcommittee
e) Develop standards to support inclusion of OpenADE requirements document into the NAESB Smart Grid standards (R10008), specifically to standardize the exchange of Energy Usage Information. Status: Reassigned to REQ only.	4 th Q, 2010	REQ section of the Joint WEQ/REQ PAP 10 SGS Subcommittee Task Force
7 Develop or modify standards to Support FERC Order No. 676-E, (Docket No. RM 05-5-013)		
a) Review standards 001-14.1.3 and 001-15.1.2 based on FERC Order No. 676-E (See ¶ 39 ⁷²) Status: Not Started	2 nd Q, 2011	OASIS
b) Develop standards to support the Transmission Provider right to reassess the availability of conditional firm (See ¶ 72 ⁷³) Status: Not Started	2 nd Q, 2011	OASIS

⁷² 39. In regards to Entergy's question of whether the transmission provider's calculated and posted available flowgate capability values should be used to fulfill the posting requirements set forth in Standard 001-14 and 001-15 in instances where there is no requirement to convert this calculation to available transfer capability values, we agree with Entergy that this requirement can be met by the transmission provider posting its available flowgate capability values. As to EPSA's argument that Standard 001-15 falls short of the goals of Order No. 890, we find that, with the exception of Standard 001-15.1.2, compliance with Standard 001-15 provides all of the information required by Order No. 890. However, Standards 001-14.1.3 and 001-15.1.2 permit transmission providers to post an available transfer capability change narrative within five business days of meeting the criteria under which a narrative is required to be posted. In Order No. 890, the Commission rejected calls for delays prior to posting data and required posting as soon as possible. We do not find the NAESB standard meets this criterion and therefore decline to incorporate Standards 001-14.1.3 and 001-15.1.2 by reference. Transmission providers must post their narratives as soon as feasibly possible. Posting within one day would appear in most cases to be reasonable.

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

	Item Description	Completion¹²	Assignment¹³
c)	Prepare status reports every six months regarding the development of standards for the coordination of transmission service requests across multiple transmission systems (See ¶ 105 ⁷⁴). This annual plan item is tied to Annual Plan Item 2(a)(iii) Status: Underway – first report filed.	Ongoing	NAESB Office

⁷³ 72. However, we reiterate here the Commission’s finding in Order No. 890 that a transmission provider is permitted to extend its right to reassess the availability of conditional firm service. Since the Version 002.1 Standards do not specifically address this issue, we would ask the industry, working through NAESB, to continue to look at additional business practice standards facilitating a transmission provider’s extension of its right to perform a reassessment

⁷⁴ 105. We agree that insufficient progress has been made on this issue. While we acknowledge that development of standards addressing this issue is included in NAESB’s 2009 WEQ Annual Plan, we nevertheless urge NAESB to address this issue as soon as possible. Accordingly, we request that NAESB provide the Commission with a status report concerning its progress on this issue every six months, counting from the date this final rule is published in the Federal Register, until NAESB’s adoption of the applicable standard(s).

NORTH AMERICAN ENERGY STANDARDS BOARD
2010 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
As Approved by NAESB Board of Directors on December 9, 2010

PROVISIONAL ITEMS

- 1 Develop and or modify business practices related to support of NERC effort on the NERC Resources and Transmission Adequacy (Project 2009-05 Resource Adequacy Assessment).
- 2 Develop business practices for allocating capacity among requests received during a submittal window Order 890-A ([Docket Nos. RM05-17-001, 002 and RM05-25-001, 002](#) - Paragraph 805).⁷⁵
- 3 Determine any needed NAESB action in support of the Interchange Distribution Calculator (IDC) and develop any necessary standards.
- 4 Prepare recommendations for future path for TLR (equity concerns) in concert with NERC, which may include alternative congestion management procedures¹⁵. Work on this activity is dependent on completing 2010 WEQ Annual Plan 1.a (Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection).
- 5 Develop complementary standards that align with NERC Project 2008-01 Voltage and Reactive Control, for which a white paper is expected after the SAR is authorized to proceed by the NERC Standards Committee.
- 6 *Provisional Item No. 6 was added to the 2010 Annual Plan as Item No. 1(d)*
- 7 Determine NAESB action needed to support FERC Action Plan for Smart Grid Technology.
- 8 Develop business practice standards for cap and trade programs for green house gas
- 9 Conduct assessment to determine if Electric Industry Requirements documented in WEQ-011 Gas / Electric Coordination should be considered reliability requirements and transition to NERC.
- 10 Develop needed business practice standards for organization/company codes for NAESB standards – and address current issues on the use of DUNs numbers. Common code usage is linked to the transition of the Registry from NERC to NAESB.
- 11 *Provisional Item No. 11 was determined to only affect the REQ, and as such was added to the 2010 Retail Annual Plan as Item No. 3e.*
- 12 Review the need for, and develop standards where appropriate, in response to issues raised by FERC’s National Action Plan on Demand Response.
- 13 Coordinate standards development with the NERC Balancing Authority Reliability Based Controls Standards Drafting Team (BARCSDT- created in July 2010) regarding Time Error and Inadvertent (BAL-004 and BAL-006), which may require changes to NAESB WEQ standards. (Previously WEQ 2010 Annual Plan Item 1b).
- 14 Coordinate standards development with the NERC Balancing Authority Reliability Based Controls Standards Drafting Team (BARCSDT- created in July 2010) regarding DCS and AGC (BAL-002 and BAL-005) which may require changes to NAESB WEQ standards. (Previously WEQ 2010 Annual Plan Item 1c).

⁷⁵ 805. The Commission recognizes that developing methods to allocate capacity among requests received during a submittal window may require detailed procedures, particularly when transmission requests received simultaneously exceed available capacity. As the Commission explained in Order No. 890, however, we believe that each transmission provider is in the best position to develop allocation procedures that are suitable for its system. This does not preclude transmission providers from working through NAESB to develop standardized practices, as suggested by Southern. For example, as we pointed out in Order No. 890, allocation methods such as that used by PJM to allocate monthly firm point-to-point transmission service could provide useful guidance in developing general allocation procedures.

WHOLESALE ELECTRIC QUADRANT EXECUTIVE COMMITTEE AND SUBCOMMITTEE STRUCTURE

NAESB WEQ EC and Subcommittee Leadership:

Executive Committee: Kathy York (WEQ EC Chair) and Alan Johnson (WEQ EC Vice Chair)

Standards Review Subcommittee: Narinder Saini, Ed Skiba

Interpretations Subcommittee: Ed Skiba

Business Practices Subcommittee & Task Forces: Jim Busbin (TLR), Ed Skiba

Open Access Same Time Information System (OASIS): Paul Sorenson, J.T. Wood, Marcie Otondo

Joint Electric Scheduling Subcommittee (JESS): Bob Harshbarger (NAESB), Clint Aymond (NERC)

e-Tariff Joint WEQ/WGQ Subcommittee (e-Tariff): Jane Daly (WEQ), Keith Sappenfield (WGQ)

DSM-EE REQ/WEQ Subcommittee: Ruth Kiselewich and David Koogler (Retail), Roy True and Paul Wattles (WEQ)

(**) The Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other standards development groups such as OASIS (Organization for the Advancement of Structured Information Standards, not Open Access Same Time Information Systems related to NAESB standards and FERC actions), CalConnect, FIX and UCAIug, among

others. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Brent Hodges, Joe Zhou, Wayne Longcore and Robert Burke.

(***) The PAP 10 Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other standards development groups such as OASIS, UCAIug, OpenADE, ZigBee, ASHRAE, EIS Alliance, NARUC and includes other groups. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Brent Hodges, Phil Precht, Cathy Wesley, Sharon Dinges, David Kaufman, Brad Ramsay, Tobin Richardson and Ed Koch.

End Notes WEQ 2010 Annual Plan:

¹² Dates in the completion column are by end of the quarter for completion by the assigned committee, sub-committee or task force. The dates do not necessarily mean that the standards are fully staffed to be implementable by the industry, and/or ratified by membership. If one item is completed earlier than planned, another item can begin earlier and possibly complete earlier than planned. There are no begin dates on the plan.

¹³ The assignments are abbreviated. The abbreviations and sub-committee structure can be found at the end of the annual plan document.

¹⁴ Energy efficiency may be a wholesale product, such as capacity. Energy efficiency in retail markets may be from individual energy efficiency measures at the project level or a portfolio of projects that make up an energy efficiency program.

¹⁵ For additional information, please see comments submitted by PJM and MISO for this Annual Plan Item:
http://www.naesb.org/pdf3/weq_aplan102907w1.pdf.

**NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11**

Item Description	Completion ¹⁶	Assignment ¹⁷
1 Develop business practices standards as needed to complement reliability standards		
Develop business practice standards to support and complement NERC reliability standards, NERC policies and NERC standards authorization requests (SARs) using the NERC/NAESB Coordination Joint Standards Development Process as appropriate. Current NAESB activities underway to develop business practice standards that are supportive of this annual plan item are:		
a) Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection – Permanent Solution Note: Consideration should be given to provisional item 4. Work is being coordinated with the NERC IDC Working Group. Status: Started	4 th Q, 2011	BPS
b) Perform consistency review of WEQ-008 Transmission Loading Relief Business Practice Standards and develop recommendation. ⁷⁶	2012	BPS
c) DCS and AGC (BAL-002 and BAL-005) Coordination with NERC Status: Monitor. (Will require coordination with Balancing Authority Reliability Based Controls Group created in July 2010 NERC Project 2010-14)	TBD ²	TIMTF
d) Coordinate with NERC on the functional model glossary revisions NERC Project 2010-08	TBD	SRS
e) Coordinate with NERC on changes to the definition of Bulk Electric System NERC Project 2010-17 Status: Started (Initial review performed to determine whether NAESB should adopt revised NERC definition or maintain existing definition. Decision was to recommend adopting revised NERC definition.)	1 st Q, 2012	SRS
2 Develop business practice standards in support of the FERC RM05-25-000 and RM05-17-000 (OATT Reform)⁷⁷		
a) Develop version 2 business practice standards to better coordinate the use of the transmission system among neighboring transmission providers. Status: Underway Request R050004 was expanded to include the Order No. 890 (Docket Nos. RM05-17-000 and RM02-25-000) , (Order No. 890-A (Docket Nos. RM05-17-001, 002 and RM05-25-001, 002)), and Order No. 890-B (Docket Nos. RM05-17-03 and RM05-25-03) “Preventing Undue Discrimination and Preference in Transmission Services”		
i) Group 3: Network Service On OASIS ⁷⁸		
9) Use of OASIS to Make Electronic Requests to Designate and Terminate Network Resource Status: Underway	4th Q, 2011	OASIS

⁷⁶ In some sections of WEQ 008 it appears that the standards are applicable to all of the Interconnections and other it appears that the standards are only applicable to the Eastern Interconnection. The title indicates the standards are applicable to the Eastern Interconnection.

⁷⁷ FERC Order No. 890, issued February 16, 2007 can be accessed from the following link - http://www.naesb.org/doc_view4.asp?doc=ferc021607.doc

⁷⁸ Several group 3 items may be removed from this plan if the 4th quarter completion dates are met.

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

Item Description	Completion¹⁶	Assignment¹⁷
10) Ability to Query Requests to Designate and Terminate Network Resources and Allow for Queries of All Information Provided with Designation Requests Status: Underway	4th Q, 2011	OASIS
11) Masking of Designated Network Resource Operating Restrictions and Generating Cost Information Status: Underway	4th Q, 2011	OASIS
12) Procedural Requirements for Submitting Designations over new OASIS Functionality Status: Underway	4th Q, 2011	OASIS
13) Specify How Designated Network Service Informational Postings are Posted on OASIS Status: Underway	4th Q, 2011	OASIS
14) Develop standards for the treatment of OASIS Requests when the Customer Fails to Provide the Necessary Attestation Status: Underway	4th Q, 2011	OASIS
15) Procedural Requirements for Submitting Both Temporary and Indefinite Terminations of Network Resources Status: Underway	4th Q, 2011	OASIS
16) Procedures for Submitting and Processing Requests for Concomitant Evaluations of Transmission Requests and Temporary Terminations Status: Underway	4th Q, 2011	OASIS
ii) Group 4: Pre-Emption; Request No. R05019		
10. Pre-Emption Status: Started	1st Q, 2012	OASIS
11. Request No. R05019 Status: Started	1st Q, 2012	OASIS

Approved by the Board of Directors on 12-8-11

	Item Description	Completion¹⁶	Assignment¹⁷
iii)	Group 5: Paragraph 1377 ⁷⁹ – Group 5 work should precede group 4 work ³		
	4) Paragraph 1377-Coordination of Requests Across Multiple Transmission Systems Status: Complete through the OASIS subcommittee, the WEQ EC approved July 8, 2011, ratification due August 11, 2011.	2 nd Q, 2011	OASIS
	5) Re-Bid Of Partial Service across Multiple Transmission Providers’ Systems Status: Complete through the OASIS subcommittee, the WEQ EC approved July 8, 2011, ratification due August 11, 2011	2 nd Q, 2011	OASIS
	6) Group DNR requests from a system with point-to-point requests on other systems for synchronization Status: Complete through the OASIS subcommittee, the WEQ EC approved July 8, 2011, ratification due August 11, 2011	2 nd Q, 2011	OASIS

⁷⁹ Paragraph 1377 of FERC Order No. 890, issued February 16, 2007: The Commission agrees that transmission requests across multiple transmission systems should be coordinated by the relevant transmission providers. We will not, however, amend the pro forma OATT to require such coordination. Rather, we require transmission providers working through NAESB to develop business practice standards related to coordination of requests across multiple transmission systems. In order to provide guidance to NAESB, we will articulate the principles that should govern processing across multiple systems. All the transmission providers involved in a request across multiple systems should consider a request that requires studies across multiple systems to be a single application for purposes of establishing the deadlines for rendering an agreement for service, revising queue status, eliciting deposits and commencing service. In order to preserve the rights of other transmission customers with studies in the queue, the priority for the single application should be based on the latest priority across the transmission providers involved in the multiple system request. We note that regional entities like wesTTrans are already coordinating requests across multiple transmission systems and we believe such coordination is an acceptable solution to this issue.

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

	Item Description	Completion¹⁶	Assignment¹⁷
iv)	Group 6: Miscellaneous (Paragraphs 1390 ⁸⁰ and 1627 ⁸¹ of FERC Order No. 890)		
	4) Paragraph 1390 of Order 890 – Terminations related to: deficient requests, customer failure to pay required annual reservation fee, and customer modifications to applications which are meaningfully different. Status: Completed	1 st Q, 2012	OASIS
	5) Paragraphs 1627 of Order 890 – Posting of additional information on OASIS regarding firm transmission curtailments Status: Not Started	1 st Q, 2012	OASIS
	6) Redispatch Cost Posting to allow for posting of third party offers of planning redispatch services. Status: Not Started	1 st Q, 2012	OASIS

⁸⁰ Paragraph 1390 of FERC Order No. 890, issued February 16, 2007: We will not modify the pro forma OATT to address requests to allow the transmission provider to terminate idle transmission service requests. NAESB’s business practice 001-4.11 allows the transmission provider to retract a request if the transmission customer does not respond to an acceptance within the time established in NAESB business practice standard 001-4.13. Therefore, we interpret TDU Systems comments to refer to circumstances when a transmission customer fails to respond to the transmission provider’s request for additional information during the course of a request study. As discussed above, by the time the transmission provider offers a system impact study agreement, it should have all of the information that it needs to complete the study. Pursuant to section 17.4 of the pro forma OATT, the transmission provider can deem a transmission service request deficient if the transmission customer does not provide all of the information the transmission provider needs to evaluate the request for service. We will revise section 17.7 of the pro forma OATT so that the transmission provider is able to terminate a request for transmission service if a transmission customer that is extending the commencement of service does not pay the required annual reservation fee within 15 days of notifying the transmission provider that it would like to extend the commencement of service. We will not change the pro forma OATT to allow the transmission provider to terminate a transmission service request if the transmission customer changes its application for service. We believe the existing pro forma OATT is sufficient to allow a transmission provider to manage situations where the transmission customer modifies its application for service to the point that the customer is requesting transmission service that is meaningfully different than its initial request.

⁸¹ Paragraph 1627 of FERC Order No. 890, issued February 16, 2007: We agree with suggestions for the posting of additional curtailment information on OASIS and, therefore, require transmission providers, working through NAESB, to develop a detailed template for the posting of additional information on OASIS regarding firm transmission curtailments. Transmission providers need not implement this new OASIS functionality and any related business practices until NAESB develops appropriate standards. These postings must include all circumstances and events contributing to the need for a firm service curtailment, specific services and customers curtailed (including the transmission provider’s own retail loads), and the duration of the curtailment. This information is in addition to the Commission’s existing requirements: (1) when any transmission is curtailed or interrupted, the transmission provider must post notice of the curtailment or interruption on OASIS, and the transmission provider must state on OASIS the reason why the transaction could not be continued or completed; (2) information to support any such curtailment or interruption, including the operating status of facilities involved in the constraint or interruption, must be maintained for three years and made available upon request to the curtailed or interrupted customer, the Commission’s Staff, and any other person who requests it; and, (3) any offer to adjust the operation of the transmission provider’s system to restore a curtailed or interrupted transaction must be posted and made available to all curtailed and interrupted transmission customers at the same time.

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

Item Description	Completion ¹⁶	Assignment ¹⁷
<p>b) Develop the needed business practices to support existing Request No. R05004: The processing of transmission service requests, which use TTC/ATC/AFC, in coordination with NERC changes to MOD 001 where the allocation of flowgate capability based on historical Network Native Load impacts the evaluation of transmission service requests, requiring the posting of those allocation values in conjunction with queries of service offerings on OASIS Status: Underway</p>	4th Q, 2011	OASIS
<p>3 Develop business practices standards to improve the current operation of the wholesale electric market and develop and maintain business practice and communication standards for OASIS and Electronic Scheduling</p>		
<p>a) Develop and/or maintain business practice standards as needed for OASIS and electronic scheduling. Specific items to address include:</p>		
<p>i) Network Services: Determine and develop needed business practice standards or other support is needed to support use of OASIS for Network Service transactions (R04006E). (Related to AP 2(a)(iii) and AP 2(a)(i)) Status: Underway.</p>	4th Q, 2011	OASIS
<p>ii) Registry (TSIN): Determine and develop needed business practice standards to support the registry functions currently supported by NERC (R04037, R06027) and transition the TSIN Registry from NERC to NAESB as the enhanced Electric Industry Registry (EIR). Status: Underway.</p>	1 st Q, 2012	NAESB/NERC Administration, JESS
<p>iii) Make remaining incremental enhancements to OASIS as an outgrowth of the NAESB March 29, 2005 conference on the future of OASIS (R05026). Scoping statement completed by SRS. There were a number of assignments from the Standards Request. The outstanding items are included below:</p>		
<p>1) Eliminate Masking of TSR tag source and sink when requested status is denied, withdrawn refused, displaced, invalid, declined, annulled or retracted Status: Not Started</p>	2012	OASIS
<p>2) Initiate standard that eliminates the disparity of posting “sensitive” information. This standard should also include procedures of user certification that allows access to this class of information. Status: Underway (upon further development of this item by NAESB, a completion date will be determined)</p>	2012	OASIS
<p>3) Enhance the TSR result postings to allow showing of (i) limiting transmission elements and (ii) available generation dispatch options that would allow acceptance of reservation request. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)</p>	2012	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

	Item Description	Completion¹⁶	Assignment¹⁷
iv)	Review and correct WEQ-004 Coordinate Interchange Business Practice Standard as needed based on activities in NERC Project 2008-12, Coordinate Interchange Standards Revisions and supporting EOP-002-2 R4 and R6. Status: Underway. Completion date dependent upon coordination activities with NERC, and Project 2008-12 is delayed by NERC due to other higher priority development	2012	JESS
b)	Develop and/or maintain standard communication protocols and cyber-security business practices as needed.		
i)	Develop PKI certification program for e-Tag and OASIS Status: Underway	3 rd Q, 2011	Board Certification Program Committee
ii)	Develop PKI standards for OASIS. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2012	OASIS
iii)	Develop Industry Implementation Plan for meeting PKI Standard requirements for e-tagging. Status: Underway. Full e-Tag implementation (server & client side) is linked to the transition of the Registry from NERC to NAESB and NAESB implementation.	TBD – dependent on item above (i) and EIR	JESS
4	Review and develop business practices standards to Demand Response, Demand Side Management and Energy Efficiency Programs		
	Review and develop needed model business practices for a standardized method for quantifying benefits, savings, cost avoidance and/or the reduction in energy demand and usage derived from the implementation of demand side management and energy efficiency programs. This effort will include demand side response, energy efficiency programs and metering, including the 'curtailment service provider' program.		
a)	Review the NAESB Business Practices for Measurement and Verification of Wholesale Electricity Demand Response (WEQ-015) in conjunction with the IRC developed Demand Response Matrix and identify business practice requirements that could be improved or made clearer through the addition of specific technical detail. The wholesale and retail demand response work groups and the Smart Grid Standards Subcommittees should actively and timely communicate and coordinate work products to ensure consistency between the three work groups. Each work group should take into account the work products developed by the other. Status: Completed	Phase 2 – 4 th Q 2010	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee
b)	For each performance evaluation type/service type combination identified in WEQ-015, using the IRC matrix as a starting point, assess and determine what standards or guidelines, if any, should be developed to aid all participants in the use of measurement and verification methods for demand response programs in organized wholesale electric markets. If the determination is made that standards or guidelines will be developed, those items will be added as sub-items to 4(b). Status: Completed	Phase 2 – 4 th Q 2010	WEQ Section of the Joint WEQ/REQ DSM-EE Subcommittee

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

Item Description	Completion ¹⁶	Assignment ¹⁷
c) Coordinate glossary updates for business practice standards with the Retail Electric Quadrant Status: Ongoing	Ongoing	Joint WEQ/REQ DSM Subcommittee and WEQ SRS and Retail Glossary
d) Develop business practice standards used to measure and verify reductions in energy and demand from energy efficiency in wholesale and retail markets. ¹⁸ This includes developing business practice standards to measure and verify energy reductions that are made to comply with a Renewable Portfolio Standard that included energy efficiency or a stand-alone Energy Efficiency Portfolio Standard Status: The WEQ EE standards are completed.	4 th Q, 2010 Retail Standards 4 th Q 2011	Joint WEQ/REQ DSM-EE Subcommittee
5 Maintain existing body of Version 2.x standards		
a) Make consistency changes to Version 2.2 standards as directed by the WEQ Leadership Committee on December 12, 2007 OASIS Consistency Changes (R08001, R08002, R08003, R08005) Status: Completed	3rd Q, 2011	OASIS
b) Consistent with ¶51 of FERC Order No. 890-A, add AFC and TFC values to the “System_Attribute” data element of the NAESB Standard WEQ-003: OASIS S&CP Data Dictionaries. (R08011) Status: Started	1st Q, 2012	OASIS
c) Correct WEQ 013-2.6.7.2. – Resale off OASIS (R08027) Status: Not Started	TBD	OASIS
d) Add language to WEQ-001-4 Online Negotiation and Confirmation process to clarify Table 4-3 (R09003) Status: Started	1st Q, 2012	OASIS
e) Create a new OASIS mechanism that allows for the merger of like reservations without the use of the resale mechanism (R09015) Status: Not Started	TBD	OASIS
6. Develop Smart Grid Wholesale and Retail Electric Standards - The wholesale and retail demand response work groups and the Smart Grid task force should actively and timely communicate and coordinate work products to ensure consistency between the three work groups. Each work group should take into account the work products developed by the other.		
a) Develop requirements and use cases for PAP 03 – Pricing Model Phase 2 Status: Completed	4 th Q, 2010	Joint WEQ/REQ SGS Subcommittee
b) Develop requirements and use cases for PAP 04 – Scheduling Model Phase 2 Status: Completed	4 th Q, 2010	Joint WEQ/REQ SGS Subcommittee
c) Develop requirements and use cases for PAP 09 – Demand Response/Distributed Energy Resources Phase 2 Status: Completed	4 th Q, 2010	WEQ Section of the Joint WEQ/REQ SGS Subcommittee

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

Item Description	Completion ¹⁶	Assignment ¹⁷
d) Develop standards to support PAP 10 – Standards Energy Usage Information		
i) Develop Information Model and related business practices Status: Completed	4 th Q, 2010	Joint WEQ/REQ PAP 10 SGS Subcommittee
ii) Develop standards to support PAP 10 – Standards Energy Usage Information, Phase 2, Harmonization with CIM and SEP 2.0 Status: Not Started, pending discussions with CIM and SEP 2.0	1st Q, 2012	Joint WEQ/REQ PAP 10 SGS Subcommittee
7. Develop or modify standards to Support FERC Order No. 676-E, (Docket No. RM 05-5-013)		
a) Review standards 001-14.1.3 and 001-15.1.2 based on FERC Order No. 676-E (See ¶ 39 ⁸²) Status: Completed	4 th Q, 2011	OASIS
b) Develop standards to support the Transmission Provider right to reassess the availability of conditional firm (See ¶ 72 ⁸³) Status: Started	4 th Q, 2011	OASIS
c) Prepare status reports every six months regarding the development of standards for the coordination of transmission service requests across multiple transmission systems (See ¶ 105 ⁸⁴). This annual plan item is tied to Annual Plan Item 2(a)(iii) Status: Completed.	4th Q, 2011	NAESB Office

NORTH AMERICAN ENERGY STANDARDS BOARD
2011 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on 12-8-11

⁸² 39. In regards to Entergy’s question of whether the transmission provider’s calculated and posted available flowgate capability values should be used to fulfill the posting requirements set forth in Standard 001-14 and 001-15 in instances where there is no requirement to convert this calculation to available transfer capability values, we agree with Entergy that this requirement can be met by the transmission provider posting its available flowgate capability values. As to EPSA’s argument that Standard 001-15 falls short of the goals of Order No. 890, we find that, with the exception of Standard 001-15.1.2, compliance with Standard 001-15 provides all of the information required by Order No. 890. However, Standards 001-14.1.3 and 001-15.1.2 permit transmission providers to post an available transfer capability change narrative within five business days of meeting the criteria under which a narrative is required to be posted. In Order No. 890, the Commission rejected calls for delays prior to posting data and required posting as soon as possible. We do not find the NAESB standard meets this criterion and therefore decline to incorporate Standards 001-14.1.3 and 001-15.1.2 by reference. Transmission providers must post their narratives as soon as feasibly possible. Posting within one day would appear in most cases to be reasonable.

⁸³ 72. However, we reiterate here the Commission’s finding in Order No. 890 that a transmission provider is permitted to extend its right to reassess the availability of conditional firm service. Since the Version 002.1 Standards do not specifically address this issue, we would ask the industry, working through NAESB, to continue to look at additional business practice standards facilitating a transmission provider’s extension of its right to perform a reassessment

⁸⁴ 105. We agree that insufficient progress has been made on this issue. While we acknowledge that development of standards addressing this issue is included in NAESB’s 2009 WEQ Annual Plan, we nevertheless urge NAESB to address this issue as soon as possible. Accordingly, we request that NAESB provide the Commission with a status report concerning its progress on this issue every six months, counting from the date this final rule is published in the Federal Register, until NAESB’s adoption of the applicable standard(s).

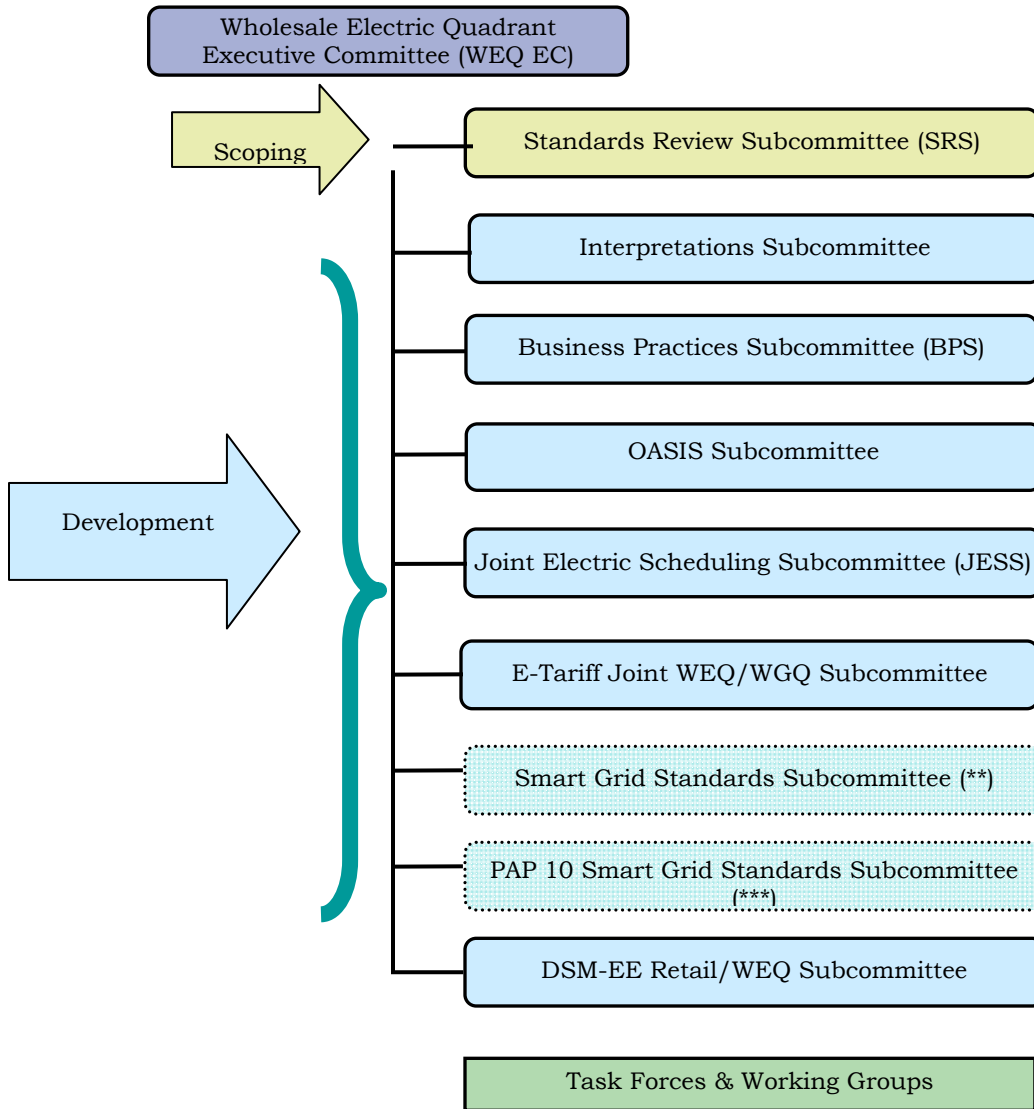

PROVISIONAL ITEMS

1. Develop and or modify business practices related to support of NERC effort on the NERC Resources and Transmission Adequacy (Project 2009-05 Resource Adequacy Assessment).
2. Develop business practices for allocating capacity among requests received during a submittal window Order 890-A ([Docket Nos. RM05-17-001, 002 and RM05-25-001, 002](#) - Paragraph 805)⁸⁵.
3. Determine any needed NAESB action in support of the Interchange Distribution Calculator (IDC) and develop any necessary standards.
4. Prepare recommendations for future path for TLR⁸⁶ (Phase 2) in concert with NERC, which may include alternative congestion management procedures¹⁹. Work on this activity is dependent on completing 2010 WEQ Annual Plan 1.a (Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection - Phase 1).
5. Develop complementary standards that align with NERC Project 2008-01 Voltage and Reactive Control, for which a white paper is expected after the SAR is authorized to proceed by the NERC Standards Committee.
6. Determine NAESB action needed to support FERC Action Plan for Smart Grid Technology.
7. Develop business practice standards for cap and trade programs for greenhouse gas
8. Conduct assessment to determine if Electric Industry Requirements documented in WEQ-011 Gas / Electric Coordination should be considered reliability requirements and transition to NERC.
9. Develop needed business practice standards for organization/company codes for NAESB standards – and address current issues on the use of DUNs numbers. Common code usage is linked to the transition of the Registry from NERC to NAESB.
10. Review the need for, and develop standards where appropriate, in response to issues raised by FERC’s National Action Plan on Demand Response.
11. Develop, modify or delete business practices to support Time Error and Inadvertent (BAL-004 and BAL-006) resulting from the NERC field test under NERC project (NERC Project 2010-14).
12. Coordinate standards development with the NERC Balancing Authority Reliability Based Controls Standards Drafting Team (BARCSDT- created in July 2010) regarding DCS and AGC (BAL-002 and BAL-005) which may require changes to NAESB WEQ standards.

⁸⁵ 805. The Commission recognizes that developing methods to allocate capacity among requests received during a submittal window may require detailed procedures, particularly when transmission requests received simultaneously exceed available capacity. As the Commission explained in Order No. 890, however, we believe that each transmission provider is in the best position to develop allocation procedures that are suitable for its system. This does not preclude transmission providers from working through NAESB to develop standardized practices, as suggested by Southern. For example, as we pointed out in Order No. 890, allocation methods such as that used by PJM to allocate monthly firm point-to-point transmission service could provide useful guidance in developing general allocation procedures.

⁸⁶ Phase 2 of the Parallel Flow Visualization looks at developing options for and reporting of the most cost effective alternatives to achieve curtail obligations assigned during Phase 1.”

WHOLESALE ELECTRIC QUADRANT EXECUTIVE COMMITTEE AND SUBCOMMITTEE STRUCTURE

NAESB WEQ EC and Subcommittee Leadership:

Executive Committee (EC): Kathy York (Chair) and James Castle (Vice Chair)

Standards Review Subcommittee (SRS): Narinder Saini, Ed Skiba

Interpretations Subcommittee: Ed Skiba

Business Practices Subcommittee (BPS) & Time and Inadvertent Management Task Force (TIMTF): Ed Skiba , Narinder Saini

Open Access Same Time Information System (OASIS) Subcommittee (OS): Paul Sorenson, J.T. Wood, Alan Pritchard

Joint Electric Scheduling Subcommittee (JESS): Bob Harshbarger (NAESB), Clint Aymond (NERC)

e-Tariff Joint WEQ/WGQ Subcommittee (e-Tariff): Jane Daly (WEQ), Keith Sappenfield (WGQ)

Demand Side Management-Energy Efficiency (DSM-EE) REQ/WEQ Subcommittee: Ruth Kiselewich (Retail), Roy True and Paul Wattles (WEQ)

(**) The Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other

standards development groups such as OASIS (Organization for the Advancement of Structured Information Standards, not Open Access Same Time Information Systems related to NAESB standards and FERC actions), CalConnect, FIX and UCAIug, among others. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Joe Zhou, Wayne Longcore and Robert Burke.

(***) The PAP 10 Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other standards development groups such as OASIS, UCAIug, OpenADE, ZigBee, ASHRAE, EIS Alliance, NARUC and includes other groups. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Phil Precht, Cathy Wesley, Sharon Dinges, David Kaufman, Brad Ramsay, Tobin Richardson and Ed Koch.

End Notes WEQ 2011 Annual Plan:

¹⁶ Dates in the completion column are by end of the quarter for completion by the assigned committee, sub-committee or task force. The dates do not necessarily mean that the standards are fully staffed to be implementable by the industry, and/or ratified by membership. If one item is completed earlier than planned, another item can begin earlier and possibly complete earlier than planned. There are no begin dates on the plan.

¹⁷ The assignments are abbreviated. The abbreviations and sub-committee structure can be found at the end of the annual plan document.

¹⁸ Energy efficiency may be a wholesale product, such as capacity. Energy efficiency in retail markets may be from individual energy efficiency measures at the project level or a portfolio of projects that make up an energy efficiency program.

¹⁹ For additional information, please see comments submitted by PJM and Midwest ISO for this Annual Plan Item: http://www.naesb.org/pdf3/weq_aplan102907w1.pdf.

**NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012**

Item Description	Completion ²⁰	Assignment ²¹
1 Develop business practices standards as needed to complement reliability standards		
Develop business practice standards to support and complement NERC reliability standards, NERC policies and NERC standards authorization requests (SARs) using the NERC/NAESB Coordination Joint Standards Development Process as appropriate. Current NAESB activities underway to develop business practice standards that are supportive of this annual plan item are:		
a) Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection – Permanent Solution ⁸⁷ Note: Consideration should be given to provisional item 4. Work is being coordinated with the NERC IDC Working Group. Status: Started	4 th Q, 2012	BPS
b) Perform consistency review of WEQ-008 Transmission Loading Relief Business Practice Standards and develop recommendation. ⁸⁸	2013	BPS
c) Disturbance Control Standard (DCS) (BAL-002) Coordination with NERC Project 2010-14.1 Phase 1 of Balancing Authority Reliability-based Controls: Reserves Status: Monitor.	2013	BPS/TIMTF
d) Coordinate with NERC on changes to the definition of Bulk Electric System NERC Project 2010-17 Definition of Bulk Electric System . Status: Completed. Subcommittee approved recommendation to forward to Executive Committee on January 17, 2012.	2 nd Q, 2012	SRS
e) Revise TLR level 5 to be treated similarly to TLR Level 3 in terms of treating the next hour allocation separately from that of current hour. (R11020) Status: Not Started	2013	BPS
2 Develop business practice standards in support of the FERC RM05-25-000 and RM05-17-000 (OATT Reform)⁸⁹		
a) Develop version 2 business practice standards to better coordinate the use of the transmission system among neighboring transmission providers. Status: Underway Request R050004 was expanded to include the Order No. 890 (Docket Nos. RM05-17-000 and RM02-25-000) , (Order No. 890-A (Docket Nos. RM05-17-001, 002 and RM05-25-001, 002)), and Order No. 890-B (Docket Nos. RM05-17-03 and RM05-25-03) “Preventing Undue Discrimination and Preference in Transmission Services”		
i) Group 3: Network Service On OASIS ⁹⁰		

⁸⁷ See AP Item 3.iv., Completion dates may be revisited contingent upon NERC-NAESB coordination of implementation related to parallel flow visualization

⁸⁸ In some sections of WEQ 008 it appears that the standards are applicable to all of the Interconnections and other it appears that the standards are only applicable to the Eastern Interconnection. The title indicates the standards are applicable to the Eastern Interconnection.

⁸⁹ FERC Order No. 890, issued February 16, 2007 can be accessed from the following link - http://www.naesb.org/doc_view4.asp?doc=ferc021607.doc

⁹⁰ Several group 3 items may be removed from this plan if the 4th quarter completion dates are met.

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

	Item Description	Completion²⁰	Assignment²¹
	17) Use of OASIS to Make Electronic Requests to Designate and Terminate Network Resource Status: Completed	4 th Q, 2011	OASIS
	18) Ability to Query Requests to Designate and Terminate Network Resources and Allow for Queries of All Information Provided with Designation Requests Status: Completed	4 th Q, 2011	OASIS
	19) Masking of Designated Network Resource Operating Restrictions and Generating Cost Information Status: Completed	4 th Q, 2011	OASIS
	20) Procedural Requirements for Submitting Designations over new OASIS Functionality Status: Completed	4 th Q, 2011	OASIS
	21) Specify How Designated Network Service Informational Postings are Posted on OASIS Status: Completed	4 th Q, 2011	OASIS
	22) Develop standards for the treatment of OASIS Requests when the Customer Fails to Provide the Necessary Attestation Status: Completed	4 th Q, 2011	OASIS
	23) Procedural Requirements for Submitting Both Temporary and Indefinite Terminations of Network Resources Status: Completed	4 th Q, 2011	OASIS
	24) Procedures for Submitting and Processing Requests for Concomitant Evaluations of Transmission Requests and Temporary Terminations Status: Completed	4 th Q, 2011	OASIS
ii)	Group 4: Pre-Emption; Request No. R05019		
	12. Pre-Emption Status: Started	1 st Q, 2013	OASIS
	13. Request No. R05019 Status: Started	1 st Q, 2013	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

	Item Description	Completion²⁰	Assignment²¹
iii)	Group 6: Miscellaneous (Paragraph 1627 ⁹¹ of FERC Order No. 890)		
	7) Paragraphs 1627 of Order 890 – Posting of additional information on OASIS regarding firm transmission curtailments Status: Not Started	TBD (follows the completion of AP 1(a))	OASIS
	8) Redispatch Cost Posting to allow for posting of third party offers of planning redispatch services. Status: Not Started	TBD (follows the completion of AP 1(a))	OASIS
b)	Develop the needed business practices to support existing Request No. R05004 : The processing of transmission service requests, which use TTC/ATC/AFC, in coordination with NERC changes to MOD 001 where the allocation of flowgate capability based on historical Network Native Load impacts the evaluation of transmission service requests, requiring the posting of those allocation values in conjunction with queries of service offerings on OASIS Status: Completed	4 th Q, 2011	OASIS
3	Develop business practices standards to improve the current operation of the wholesale electric market and develop and maintain business practice and communication standards for OASIS and Electronic Scheduling		
a)	Develop and/or maintain business practice standards as needed for OASIS and electronic scheduling. Specific items to address include:		
i)	Network Services: Determine and develop needed business practice standards or other support is needed to support use of OASIS for Network Service transactions (R04006E). (Related to AP 2(a)(iii) and AP 2(a)(i)) Status: Completed	4 th Q, 2011	OASIS
ii)	Registry (TSIN): Determine and develop needed business practice standards to support the registry functions currently supported by NERC (R04037 , R06027) Status: Underway	4 th Q, 2012	JESS

⁹¹ Paragraph 1627 of FERC Order No. 890, issued February 16, 2007: We agree with suggestions for the posting of additional curtailment information on OASIS and, therefore, require transmission providers, working through NAESB, to develop a detailed template for the posting of additional information on OASIS regarding firm transmission curtailments. Transmission providers need not implement this new OASIS functionality and any related business practices until NAESB develops appropriate standards. These postings must include all circumstances and events contributing to the need for a firm service curtailment, specific services and customers curtailed (including the transmission provider's own retail loads), and the duration of the curtailment. This information is in addition to the Commission's existing requirements: (1) when any transmission is curtailed or interrupted, the transmission provider must post notice of the curtailment or interruption on OASIS, and the transmission provider must state on OASIS the reason why the transaction could not be continued or completed; (2) information to support any such curtailment or interruption, including the operating status of facilities involved in the constraint or interruption, must be maintained for three years and made available upon request to the curtailed or interrupted customer, the Commission's Staff, and any other person who requests it; and, (3) any offer to adjust the operation of the transmission provider's system to restore a curtailed or interrupted transaction must be posted and made available to all curtailed and interrupted transmission customers at the same time.

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

	Item Description	Completion²⁰	Assignment²¹
iii)	Registry (TSIN): Transition the TSIN Registry from NERC to NAESB as the enhanced Electric Industry Registry (EIR). Status: Underway.	4 th Q, 2012	NAESB/NERC Administration, JESS
iv)	Make remaining incremental enhancements to OASIS as an outgrowth of the NAESB March 29, 2005 conference on the future of OASIS (R05026). Scoping statement completed by SRS. There were a number of assignments from the Standards Request. The outstanding items are included below:		
	1) Eliminate Masking of TSR tag source and sink when requested status is denied, withdrawn refused, displaced, invalid, declined, annulled or retracted Status: Not Started	2013	OASIS
	2) Initiate standard that eliminates the disparity of posting “sensitive” information. This standard should also include procedures of user certification that allows access to this class of information. Status: Underway (upon further development of this item by NAESB, a completion date will be determined)	2013	OASIS
	3) Enhance the TSR result postings to allow showing of (i) limiting transmission elements and (ii) available generation dispatch options that would allow acceptance of reservation request. Status: Not Started (upon initiation of this item by NAESB, a completion date will be determined)	2013	OASIS
v)	Review and correct WEQ-004 Coordinate Interchange Business Practice Standard as needed based on activities in NERC Project 2008-12, Coordinate Interchange Standards Revisions and supporting EOP-002-2 R4 and R6. ⁹² Status: Underway. Completion date dependent upon coordination activities with NERC, and Project 2008-12 is delayed by NERC due to other higher priority development. It is expected that NERC will begin its effort in 2 nd Q 2013.	2014	JESS
b)	Review e-Tag specifications and make modifications as needed for:		
	i) Supporting Network Integration Transmission Service standards	TBD	JESS
	ii) Consistency and clarifications	TBD	JESS
	iii) Regional Implementations supporting WECC efforts (probably of most impact to the appendices in the e-Tag specifications)	TBD	JESS
4.	Develop and/or maintain standard communication protocols and cyber-security business practices as needed.		
a)	Develop PKI standards for OASIS. Status: Underway	4 th Q, 2012	PKI

⁹² See AP Item 1.a.iv, Completion dates may be revisited contingent upon NERC-NAESB coordination of implementation related to parallel flow visualization.

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

Item Description	Completion ²⁰	Assignment ²¹
b) Develop Industry Implementation Plan for meeting PKI Standard requirements for e-tagging. Status: Underway. Full e-Tag implementation (server & client side) is linked to the transition of the Registry from NERC to NAESB and NAESB implementation.	TBD – dependent on item above (a) and EIR	PKI
c) Develop modifications for WEQ-012 as needed to reflect current market conditions		
i) Authorized Certification Authority Standard and Credentialing Practice (R11014) Status: Underway	3 rd Q, 2012	PKI
ii) Technology Review and Upgrade for NAESB Public Key Infrastructure Standard WEQ-012 (R11015). Status: Underway	3 rd Q, 2012	PKI
iii) Review and develop standards as needed to support adequate session encryption (SSL/TLS issues: US-Cert Vulnerability Note VU#864643) Status: Not Started	3 rd Q, 2012	PKI
d) Review WEQ standards for impact of XML vulnerability exploits and make modifications as needed to standards and functional specifications	TBD	PKI/JESS
5 Maintain existing body of Version 3.x standards		
a) Consistent with ¶51 of FERC Order No. 890-A, add AFC and TFC values to the “System_Attribute” data element of the NAESB Standard WEQ-003: OASIS S&CP Data Dictionaries. (R08011) Status: Underway	4 th Q, 2012	OASIS
b) Correct WEQ 013-2.6.7.2. – Resale off OASIS (R08027) Status: Not Started	TBD	OASIS
c) Add language to WEQ-001-4 Online Negotiation and Confirmation process to clarify Table 4-3 (R09003) Status: Started	1 st Q, 2013	OASIS
d) Create a new OASIS mechanism that allows for the merger of like reservations without the use of the resale mechanism (R09015) Status: Not Started	TBD	OASIS
e) Develop standards to support crediting redirect requests with the capacity of the parent reservation (BPA Comments) Status: Completed	TBD	OASIS
f) Modify WEQ Business Practice Standard 013-2.6.8.1 FULL_TRANSFER-Transfers of All Capacity and WEQ Business Practice Standard 013-2.6.8.2 – PART_TRANSFER-Transfer of Partial Capacity. (R11022) Status: Completed and posted for comments on February 17, 2012.	1 st Q, 2012	OASIS

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

Item Description	Completion ²⁰	Assignment ²¹
6. Develop Smart Grid Wholesale and Retail Electric Standards - The wholesale and retail demand response work groups and the Smart Grid task force should actively and timely communicate and coordinate work products to ensure consistency between the three work groups. Each work group should take into account the work products developed by the other.		
a) Develop standards to support PAP 10 – Standards Energy Usage Information, Phase 2, Harmonization with CIM and SEP 2.0 Status: Underway, dependent on discussions with CIM and SEP 2.0	3 rd Q, 2012	Joint WEQ/REQ PAP 10 SGS Subcommittee
7. Develop or modify standards to Support FERC Order No. 676-E, (Docket No. RM 05-5-013)		
a) Develop standards to support the Transmission Provider right to reassess the availability of conditional firm (See ¶ 72 ⁹³) Status: Started	4 th Q, 2012	OASIS

⁹³ 72. However, we reiterate here the Commission’s finding in Order No. 890 that a transmission provider is permitted to extend its right to reassess the availability of conditional firm service. Since the Version 002.1 Standards do not specifically address this issue, we would ask the industry, working through NAESB, to continue to look at additional business practice standards facilitating a transmission provider’s extension of its right to perform a reassessment

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESale ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

PROVISIONAL ITEMS

- 1 **Develop business practices standards as needed to complement NERC reliability standards**
 - a) Develop and or modify business practices related to support of NERC effort on the NERC Resources and Transmission Adequacy (NERC [Project 2009-05 Resource Adequacy Assessments](#)). NERC expects work on this project to start in third quarter 2014.
 - b) Determine any needed NAESB action in support of the Interchange Distribution Calculator (IDC) and develop any necessary standards.
 - c) Develop complementary standards that align with NERC [Project 2008-01 Voltage and Reactive Planning and Control](#). A SAR was finalized in April 2011. NERC project is expected to begin in first quarter 2013.
 - d) Develop, modify or delete business practices to support Time Error, Automatic Generation Control (AGC), and Inadvertent Accounting (BAL-004, BAL-005, and BAL-006) resulting from the NERC field test under NERC project (NERC [Project 2010-14.2 Phase 2 of Balancing Authority Reliability-based Controls: Time Error, AGC, and Inadvertent](#)). NERC expects this project to start in second quarter 2013. The NERC project may impact WEQ-006 Manual Time Error Correction and WEQ-007 Inadvertent Interchange Payback.
 - e) Develop complementary standards that align with NERC Project 2010-4 Demand Data. The NERC project may impact WEQ-015 Business Practices for Measurement and Verification of Wholesale Electricity Demand Response.
 - f) Coordinate with NERC on the functional model glossary revisions NERC [Project 2010-08 Functional Glossary Model Revisions](#). NERC expects this project to start in fourth quarter 2014. The NERC project may impact WEQ-000 Abbreviations, Acronyms, and Definition of Terms.
 - g) Coordinate with NERC on NERC Project 2012-05 ATC Revisions - Order 729. NERC expects this project to start in third quarter 2014. The NERC project may impact the WEQ-001 Open Access Same-Time Information Systems (OASIS) Standards, WEQ-002 OASIS Standards and Communication Protocol (S&CP), WEQ-003 Open Access Same-Time Information Systems (OASIS) Data Dictionary, and WEQ-013 OASIS Implementation Guide.
 - h) Coordinate with NERC on NERC Project 2012-08 Glossary Updates. NERC has not established a start date for this project. The NERC project may impact WEQ-000 Abbreviations, Acronyms, and Definition of Terms
 - i) Coordinate with NERC on NERC Project 2012-09 IRO Review. NERC has not established a start date for this project. The NERC project may impact WEQ-008 Transmission Loading Relief – Eastern Interconnection Standards.
 - j) Coordinate with NERC on NERC Project 2012-15 Flow Limited Paths. NERC has not established a start date for this project. The NERC project may impact the WEQ-001 Open Access Same-Time Information Systems (OASIS) Standards, WEQ-002 OASIS Standards and Communication Protocol (S&CP), WEQ-003 Open Access Same-Time Information Systems (OASIS) Data Dictionary, and WEQ-013 OASIS Implementation Guide.
- 2 **Gas/Electric Coordination**
 - a) Review and develop standards as needed and requested based on the National Petroleum Council (NPC) findings as communicated by the NAESB Board of Directors, government agencies or reliability organizations, as applicable. (9-15-11 NPC Report: [Transmittal Letter, Preface, and Executive Summary](#), Ch 1: [Resource and Supply](#), Ch 2: [Operations and Environment](#), Ch 3: [Demand](#), Ch 4: [Carbon and Other End-Use Emissions](#), Ch 5: [Macroeconomics](#), Ap A: [Request Letters, Description of the NPC, and NPC membership roster](#), Ap B: [Study Group Rosters](#), Ap C: [Additional Materials Available Electronically](#))
 - b) Conduct assessment to determine if Electric Industry Requirements documented in WEQ-011 Gas / Electric Coordination should be considered reliability requirements and transition to NERC.
- 3 **Optional work to extend existing standards**

NORTH AMERICAN ENERGY STANDARDS BOARD
2012 ANNUAL PLAN for the WHOLESALE ELECTRIC QUADRANT
Approved by the Board of Directors on June 21, 2012

PROVISIONAL ITEMS

- a) Prepare recommendations for future path for TLR⁹⁴ (Phase 2) in concert with NERC, which may include alternative congestion management procedures⁹⁵. Work on this activity is dependent on completing 2010 WEQ Annual Plan 1.a (Parallel Flow Visualization/Mitigation for Reliability Coordinators in the Eastern Interconnection - Phase 1).
 - b) Develop needed business practice standards for organization/company codes for NAESB standards – and address current issues on the use of DUNs numbers. Common code usage is linked to the transition of the Registry from NERC to NAESB.
 - c) Develop business practices for allocating capacity among requests received during a submittal window Order 890-A ([Docket Nos. RM05-17-001, 002 and RM05-25-001, 002](#) - Paragraph 805)⁹⁶.
- 4 **Pending Regulatory or Legislative Action**
- a) Determine NAESB action needed to support FERC Action Plan for Smart Grid Technology.
 - b) Determine NAESB action needed to support FERC Action Plan for Smart Grid Technology.
 - c) Develop business practice standards for cap and trade programs for greenhouse gas.
 - d) Develop standards as needed based on FERC Order No. 1000. ([NAESB Analysis of FERC Order No. 1000](#))
 - e) Develop standards as needed in support of Variable Energy Resources (VERs) final order (RM10-11-000). ([NAESB Comments 3-2-11](#), [FERC NOPR RM10-11-000](#))

⁹⁴ Phase 2 of the Parallel Flow Visualization looks at developing options for and reporting of the most cost effective alternatives to achieve curtail obligations assigned during Phase 1.”

⁹⁵ For additional information, please see comments submitted by PJM and Midwest ISO for this Annual Plan Item: http://www.naesb.org/pdf3/weq_aplan102907w1.pdf.

⁹⁶ 805. The Commission recognizes that developing methods to allocate capacity among requests received during a submittal window may require detailed procedures, particularly when transmission requests received simultaneously exceed available capacity. As the Commission explained in Order No. 890, however, we believe that each transmission provider is in the best position to develop allocation procedures that are suitable for its system. This does not preclude transmission providers from working through NAESB to develop standardized practices, as suggested by Southern. For example, as we pointed out in Order No. 890, allocation methods such as that used by PJM to allocate monthly firm point-to-point transmission service could provide useful guidance in developing general allocation procedures.

WHOLESALE ELECTRIC QUADRANT EXECUTIVE COMMITTEE AND SUBCOMMITTEE STRUCTURE

NAESB WEQ EC and Active Subcommittee Leadership:

Executive Committee (EC): Kathy York (Chair) and James Castle (Vice Chair)

Standards Review Subcommittee (SRS): Narinder Saini, Ed Skiba

Interpretations Subcommittee: Ed Skiba

Business Practices Subcommittee (BPS) & Time and Inadvertent Management Task Force (TIMTF): Ed Skiba , Narinder Saini

Open Access Same Time Information System (OASIS) Subcommittee: Paul Sorenson, J.T. Wood, Alan Pritchard

Joint Electric Scheduling Subcommittee (JESS): Bob Harshbarger (NAESB), Clint Aymond (NERC)

Demand Side Management-Energy Efficiency (DSM-EE) REQ/WEQ Subcommittee: Ruth Kiselewich (Retail), Roy True and Paul Wattles (WEQ)

Public Key Infrastructure (PKI) Subcommittee: Jim Buccigross

Inactive Subcommittees:

e-Tariff Joint WEQ/WGQ Subcommittee (e-Tariff): Jane Daly (WEQ), Keith Sappenfield (WGQ)

(**) The Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other standards development groups such as OASIS (Organization for the Advancement of Structured Information Standards, not Open Access Same Time Information Systems related to NAESB standards and FERC actions), CalConnect, FIX and UCAIug, among others. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Joe Zhou, Wayne Longcore and Robert Burke.

(***) The PAP 10 Smart Grid Standards Subcommittee is a joint group of the retail electric and wholesale electric quadrants with other standards development groups such as OASIS, UCAIug, OpenADE, ZigBee, ASHRAE, EIS Alliance, NARUC and includes other groups. Direction may be given from NIST, DoE or FERC and the group reports jointly to the NAESB Board Smart Grid Strategic Steering Committee and the WEQ and REQ ECs. The group is chaired by Phil Precht, Cathy Wesley, Sharon Dinges, David Kaufman, Brad Ramsay, Tobin Richardson and Ed Koch.

End Notes WEQ 2012 Annual Plan:

²⁰ Dates in the completion column are by end of the quarter for completion by the assigned committee, sub-committee or task force. The dates do not necessarily mean that the standards are fully staffed to be implementable by the industry, and/or ratified by membership. If one item is completed earlier than planned, another item can begin earlier and possibly complete earlier than planned. There are no begin dates on the plan.

²¹ The assignments are abbreviated. The abbreviations and sub-committee structure can be found at the end of the annual plan document.

Procedures for Minor Corrections as excerpted from the NAESB Operating Procedures

D. Minor Clarifications and Corrections to Standards

Minor clarifications and corrections to existing standards include: (a) clarifications or corrections made by a regulatory agency to standards that are of a jurisdictional nature, or by the American National Standards Institute or its successor; (b) clarifications or corrections to the format, appearance, or descriptions of standards in standards documentation; (c) clarifications or corrections to add code values to tables; and (d) clarifications and corrections that do not materially change a standard. Any request for a minor clarification or correction to an existing standard should be submitted in writing to the executive director. This request shall include a description of the minor clarification or correction and the reason the clarification or correction should be implemented.

1. Processing of Requests

The executive director shall promptly notify the EC and any appropriate subcommittee(s) of the receipt of the request. The members of the applicable quadrant's EC shall promptly determine whether the request meets the definition of a minor clarification or correction. Through the decision of the vice chair of the applicable quadrant, this determination may be delegated to one of the quadrant's subcommittees, with the concurrence of the subcommittee chair, in which case the subcommittee shall make a prompt decision.

If the request is determined to meet the definition of minor clarification or correction, the applicable quadrant's EC, with input from any subcommittee(s) to which the request has been forwarded, shall act on the request within one month of its receipt. A meeting to discuss the request is not required; the decision may be made by notational vote. A simple majority of the votes received shall determine the outcome. The members of the applicable quadrant's EC shall be given at least three working days to consider and vote on the request.

2. Public Notice

The results of the vote on the request for a minor clarification or correction shall be posted on the NAESB website and the members of the applicable quadrant shall be notified of the request by e-mail. If the request has been approved by the applicable quadrant's EC, the notification shall include a brief description of the request, the contact name and number of the requester so that further information can be obtained, and the proposed effective date of the clarification or correction. Any interested party shall have an opportunity to comment on the request, and the comments shall be posted on the NAESB website. The comment period is two weeks.

3. Final Disposition of Approved Requests

If no comments are received on an approved request, the standard shall be clarified or corrected as specified in the approved request on the effective date proposed. If comments are received, they shall be forwarded to the members of the applicable quadrant's EC for consideration. Each comment requires a public written response from the applicable quadrant's EC. The applicable quadrant's EC shall determine whether changes are necessary as a result of the comments. Members of the applicable quadrant's EC shall be given three working days to consider the comments and determine the outcome, which shall be decided by a simple majority of the votes received. A meeting to discuss the request is not required; the decision may be made by notational vote. The standard shall be clarified or corrected in accordance with the outcome of the vote, effective with the completion of voting, and notice thereof shall be posted on the NAESB website. In the case of minor corrections which are discovered during the editorial review process of publication of a new version and are categorized as clarifications under (b) or (c) above¹, the proposed effective date may be (i) two weeks from the date of public notice, following simple majority approval by the applicable Quadrant(s) EC(s) of the shortened effective date, or (ii) one month from the date of the public notice. For all others, the proposed effective date of the minor clarification or correction shall normally be one month from the date of the public notice upon simple majority approval of the applicable Quadrant(s) EC(s).

¹ Minor clarifications and corrections to existing standards include: (a) clarifications or corrections made by a regulatory agency to standards that are of a jurisdictional nature, or by the American National Standards Institute or its successor; (b) clarifications or corrections to the format, appearance, or descriptions of standards in standards documentation; (c) clarifications or corrections to add code values to tables; and (d) clarifications and corrections that do not materially change a standard.
