Rate the Agency Survey

Supporting Statement for OMB approval

Part A: Justification

A.1 Explanation of the Circumstances that Make Data Collection Necessary

OFPP Memorandum, Acquisition 360 – Improving the Acquisition Process through Timely feedback from external and Internal stakeholder ¹, implements a series of surveys providing agencies with a “360” view of the pre-award and debriefing process. Acquisition 360 is actually a series of 3 surveys per award intended to gather perspectives from not only vendors (both successful and unsuccessful) but also the procurement office and its customer. The surveys do not ask for names nor ask respondents to evaluate personnel, but rather asks if offices were responsive and provided adequate resources and time. Responses are intended to help agencies identify and share best practices as well as areas for improvement.

In order to gather transaction based information, the memo requires the 24 CFO act agencies to implement the three provided surveys for the less of 50 or 5% of new awards for complex information technology (IT) development, systems, or services by the end of Fiscal Year 2015. Prioritizing new, high dollar IT awards will allow for further insight into the acquisition process for complex procurements, and will further support the Administration’s Smarter IT Delivery efforts to ensure that we attract the best businesses as partners and continue to improve our IT acquisition practices. To help agencies jumpstart their implementation, agencies must identify at least two of their largest contracts or orders for a complex IT development, systems or services awarded within the past 6 months and conduct the external survey and two internal surveys retroactively for each of these awards.

Industry Feedback

At the conclusion of the final debrief, agencies are instructed to use the survey questions shown in Attachment A (“Rate the Agency Survey”) to seek vendor feedback. Agencies may add questions to the survey to meet their specific needs, but shall retain the core set of questions.

Internal Customer Satisfaction Feedback

To ensure that valuable feedback from the entire acquisition team is captured, agencies shall use the questions shown in Attachment B (“Evaluation of the Contracting Operation”) for program offices to evaluate their Contracting Offices, and Attachment C (“Evaluation of the Program Offices’ Participation in the Procurement”) for Contracting offices to evaluate their customers.

<http://www.whitehouse.gov/sites/default/files/omb/procurement/memo/acquisition-360-improving-acquisition-process-timely-feedback-external-internal-stakeholders.pdf>

In addition to getting feedback on how well the acquisition team worked, OFPP is interested in better understanding why contracting officers choose certain agency solutions over others or why they chose certain contract vehicles.

Agencies must provide OFPP with an aggregate level summary of data from these initial retroactive surveys by July 2015 or within one month of the surveys issuance if non-generic PRA clearance is needed.

A.2 Use of the Data

The results of agencies external and internal surveys shall be submitted to the agencies' Chief Acquisition Officer, Senior Procurement Executive, and other appropriate agency leaders in order to strengthen their acquisition practices. Additionally, agencies will be asked to submit aggregate response data, so that OMB can improve any potential future surveys. HUD will use the responses to identify any best practices and identify any subject areas in need of improvement. We will not evaluate individuals or make programmatic changes.

Feedback collected will be used to complement agencies' regular post award program management activities and performance assessments such as those required by Federal Acquisition Regular (FAR) 42.15 to evaluate contractor performance, to identify planning and engagement practices that lead to better program results.

A.3 The Extent of the Use of Technological Collection or Other Forms of Information Technology

Automated information technology will be use to collect and process data. Emails will be sent to all potential respondents with a Survey Monkey Link.

A.4 Efforts to Identify Duplication

There is no duplication with other existing data collection instruments, nor is the data to be collected through surveys available elsewhere.

A.5 Collection of Information Impacts on Small Business or Other Small Entities

While small businesses may be respondents to the survey, they are encouraged, but not required to respond to this survey. In any case, the impact on any respondent will be minimal due to the short length of time required to respond to the survey instrument.

A.6 Describe the Consequences if the Collection is not Conducted

Successful acquisitions depend on a clear understanding of the market's capabilities and dynamics, and this requires early and meaningful engagement with industry and the application of strong management practices with the agency. Vendors invest considerable time and money in responding to Government requests for proposals (RFPs), and ambiguous requirements,

unnecessarily complex solicitations, and other process challenges greatly increase the burdens on offerors and the cost to the government. Failure to collect this data will impede HUD's ability to improve performance in internal acquisition practices and vendor engagement activities.

A.7 Explain Any Special Circumstances that Would Cause Information Collection to be Conducted in a Special Manner

There are no known or anticipated special circumstances that would require data collection in a manner inconsistent with OMB guidelines and the Privacy Act.

A.8 Publication and Consultation

A.8.1 Required Publication in the Federal Register

Federal Register notice is not required for customer satisfaction surveys. This survey will use the Office of Management and Budget (OMB) approved generic clearance, "HUD Customer Surveys" (OMB No. 2535-0116) to survey internal and external customers.

A.8.2 Consultation with Persons Outside of the Agency

There are no known or anticipated consultations with persons outside of HUD.

A.9 Payments or Gifts to Respondents

There will be no offer of payment or gifts to respondents who choose to take part in the customer satisfaction survey.

A.10 Assurance of Confidentiality

Names will not be recorded on the questionnaires, nor will personal identifying data be stored in the database. Confidentiality of responses will be maintained throughout the data collection. Any demographic information supplied by respondents will be used for analytical purposes only.

A.11 Sensitive Information

No questions of a sensitive nature will be asked of respondents.

A.12 Estimate of Recordkeeping and Reporting Hour Burden on Respondents

	Number of Respondents	Frequency of Use	Hours/Response	Burden Hours
Survey Responses	70	1	10 minutes	12

The number of respondents is an estimate based loosely on the number of contract actions that will be surveyed.

TOTAL NUMBER OF RESPONDENTS: 70

TOTAL BURDEN HOURS: 12

A.12.1 Estimate of Hour Burden of Information Collection on Respondents

It is estimated that participants will require no more than an average of ten minutes to complete each survey. Actual time required will vary based on participant reading speed and level.

A.12.2 Estimate of Costs to Respondents for Burden of Information Collection

There is no cost to the respondents to complete the survey.

A.13 Costs to Respondents for Record Keeping

There are no costs to the respondents for record keeping.

A.14 Annualized Costs to the Federal Government

Costs to the Government include Survey Monkey license. There are no additional costs to the Government.

A.15 Reason for any Program Change or Adjustments reported in A.13 or A.14

This is new data collection.

A.16 Analysis Plan and Time Schedule for Project

A.16.1 Analysis Plan

Analysis will focus on customer satisfaction through use of transactional data. . Special attention will be paid to suggestions for improvement. Analysis will focus on user satisfaction by type of user.

The objective of the analysis is to improve the efficiency and effectiveness of the acquisition process so that we can partner with the best and most innovative companies and reduce the cost of the acquisition process for all stakeholders

A.17 Seeking Approval Not to Display OMB Expiration Date

No approval is sought

A.18 Consistency with 5 CFR 1320.6

The data collection will be conducted according to the guidelines specified in 5 CFR 1320.6. No special circumstances that would require inconsistency with these guidelines are known or anticipated.

**Attachment A – “Rate the Agency” Survey
Pre-Award & Debriefing Satisfaction Survey**

Your firm submitted an offer for Solicitation No. _____ from procurement office _____. Please provide us with your feedback on the acquisition process. Your answers will help us assess our performance and identify our strengths and weaknesses. The survey should take no more than 10 minutes to complete.

The survey will be issued after any and all debriefings have been conducted and therefore cannot impact the award decision in any way. The results from the survey will not be published or made publicly available.

Please rate your level of satisfaction on a scale of 1 to 5, with 5 being “Very Satisfied” and 1 being “Very Dissatisfied”.
