Risk Reduction Approach on Burial Practices

Focus Group Guide

	Version date: September 19, 2014
1. How i	s farming this year? (Probe: The effect of Ebola regarding farm work)
2. What	are the source of Ebola, signs and symptoms?
(equiv	e tell me your thoughts about the home care risk reduction kit? What is the value valent to maze)? Would it be acceptable in the village? Who would use the kit? Probe for eceptability around using the kit to care for ill family member and burial practices (e.g., do you think about adding bleach in the water that is used to wash dead body?).
	of local burial practices on white board, as identified during key informant interviews and servations]
	we would like to see what your thoughts are on these practices listed on the wall. I will ou 3 stickers (red). Place them next to the ones that are Acceptable to you and your re.
	give you 2 stickers (black). Now, place them next to the ones that are absolutely not table to you and your culture.
participants] /	g session: Whiteboard and pen; moderator will jot down ideas that emerged from the Are there any other approaches to the burial practices that can be modified that is still you? For example, is a blessing from paramount chief acceptable instead of washing dead

Public reporting burden of this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74 Atlanta, Georgia 30333; ATTN: PRA (0920-1011)
