OMB No: 0920-0822
Exp. Date: XX/XX/XXXX

Public Reporting burden of this collection of information is estimated at 28 minutes in average per response (3 minutes for reselection and 25 minutes for selected participants), including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-0822).

- STATE (coded lists)
- COUNTY FIPS (5-digit)

Note regarding the CATI codes for Don't Know and Refused: Abt SRBI's CATI system cannot use negative values for response codes. Also, if a question requires more than six substantive responses, Abt SRBI's standard practice is to then use 97 and 99 for Don't Know and Refuse, increasing to 997 and 999 and beyond as dictated by specific questions needs. However, for the final data presented to CDC, Don't Know and Refuse will be recoded to -1 and -2 as was done in the past.

Note regarding Skip Instructions: Abt SRBI's use of skip instructions serves a dual purpose: first, to explain to CATI programmers how the instrument should function, and second, for interviewers and other readers to be able to move through the paper version of the questionnaire document and understand how movement through an interview progresses. While sometimes this may lead to seemingly redundant instructions, Abt SRBI believes that they provide clarity and ease of use and understanding for the different parties that will need to work with the document. For example, GO TO Q#, means for both the CATI programmer to have the program skip to that question, as well as for a reader to move ahead in the paper instrument.

[WHEN SELECTED RESPONDENT COMES TO THE PHONE]

Hello, I am calling on behalf of the Centers for Disease Control and Prevention, the CDC. The CDC is conducting a study on health and injuries. My name is _____. I am an interviewer with Abt SRBI and I am part of the research team. Let me assure you that this is *not* a sales call.

CF_INTRO2A

You have been randomly chosen to participate in an important study. This call may be monitored or recorded for quality assurance purposes. The Centers for Disease Control and Prevention (CDC) is doing a telephone study of up to 12,500 people. Men and women age 18 and older will be asked questions about their health and injuries they may have experienced. The data we are collecting are very important, and will be used to inform prevention efforts.

The survey will take approximately 25 minutes, on average. Since some of the questions are personal, we suggest that you be in a private setting during the survey.

- 1. Continue

CF_INTRO2B

There are minimal benefits or risks to being in this voluntary study. In order to keep your information private, the answers you give us will be combined with the answers from other people who are in the survey. No information that could personally identify you will be given to the CDC or anyone else. You can skip any question or stop the survey at any time.

If you complete the survey, as a token of our appreciation we will send you a check for [replicate assigned: \$10; \$40 – CATI variable ‘CFAmt’] or make a donation to the United Way on your behalf, whichever you prefer. We will ask your preference at the end of the survey.

- 1. Continue

CF_INTRO2C

If you choose to receive the {\$10; \$40}, I will go to a separate computer file after we finish the survey and collect your name and address so that we can mail the check to you. Your

name and address will not be connected to the information you provide in the survey, and will be erased from our files at the end of this study.

If you have questions or concerns about participating in the study, you may call the Survey Manager, Andrew Evans, at 1-888-772-4269. If you have any questions about your rights as a research participant, please contact our Institutional Review Board toll-free at 1-877-520-6835.

Remember, you don't have to answer any question that you don't want to. We suggest that you be in a private setting during the survey. If, at any time, you do not feel physically or emotionally safe, you can just say "Goodbye". I will understand and I will not call you back. You can call me back if you'd like at 888-812-9285, ext. 30024.

Do you have any questions?

Section SV: Sexual Violence

SV_INTRO

I'm going to ask you some detailed questions about times when you may have experienced unwanted sexual situations with anyone, including strangers or someone you knew such as a romantic or sexual partner; a friend, teacher, co-worker, or supervisor; or a family member. These questions are detailed and the language is explicit, which some people may find upsetting. It is important that I ask the questions this way so that you are clear about what I mean. Your answers will help us to learn how often these things happen. You can skip questions you don't want to answer and you can stop at any time.

I'm going to ask you about unwanted sexual situations. I will also ask you about situations in which you were unable to provide consent to sex because of alcohol or drugs, AND about your experiences with unwanted sex that happened when someone used physical force or verbal pressure.

Shall we continue?

Sometimes unwanted sex happens when a person is unable to consent to it or stop it from happening because they were too drunk, high, drugged, or passed out from alcohol, drugs, or medications. Please remember that even if someone uses alcohol or drugs, what happens to them is not their fault.

We appreciate your willingness to be a part of this study and want you to know that we recognize the important contribution you have made. Sometimes when people have participated in a study like this, they realize that they are interested in following up on some of the issues that they have been asked about in the study with someone who is professionally trained to deal with these kinds of issues. We are going to provide you the toll-free numbers of resources that you can use now or in the future if you want to speak further with someone.
