Email Reminder – Telephone Interview - SCTC Scientists

22. E-Mail Reminder to Participate in Telephone Interview SCTC Scientists

Dear <NAME>:

On behalf of the National Cancer Institute (NCI) at the National Institutes of Health (NIH), we invite you to participate in a telephone interview for a process evaluation of the State and Community Tobacco Control Research Initiative (SCTC). We expect the interview to take approximately 40 minutes.

NCI established the SCTC Research Initiative as part of its effort to reduce tobacco use and its associated health burdens. It is intended to support innovative research that will yield immediate, actionable findings for state and community tobacco control programs and practitioners.

NCI is working with Westat, a nationally recognized independent research organization, to examine how the SCTC initiative is perceived and experienced by stakeholders directly involved in the project as well as those collaborating as Affiliated Partners. As a <ROLE>, your feedback is critical to understanding the program, its challenges and successes.

Please propose 2 or 3 dates and times between now and <DATE> when you are available. A member of our research team will follow-up with you (via e-mail or telephone) to schedule a mutually agreeable time for the interview.

Participation in the interview is voluntary, but your involvement will help ensure that SCTC and similar future efforts are successful. Information shared in the interview will be kept private to the extent provided by law. Data will be reported thematically in the aggregate and will exclude personal identifiers.

Thank you in advance for your cooperation in this important study.
Best,

Keith MacAllum, Ph.D.
