Affiliated Partners Web Survey

Affiliated Partners Survey

Instructions

The National Cancer Institute (NCI) has contracted with Westat, an independent research firm located in Rockville, Maryland, to conduct a comprehensive evaluation of the State and Community Tobacco Control (SCTC) Research Initiative. The purpose of this survey is to better understand collaborative working relationships among scientists currently funded by the SCTC Research Initiative and their affiliated partners.

You have been identified as an affiliated partner. By affiliated partner we are referring to SCTC collaborators who are not SCTC grantees and are based outside of funded research centers. Affiliated partners can include representatives at state or local tobacco control programs, public health and community based organizations, federal or state agencies, organizations hired to consult on SCTC projects or workgroups, as well as other academic institutions.

Although your participation is completely voluntary, we hope that you will choose to participate because, particularly for this type of evaluation that focuses on collaboration, we need a very high response rate. The survey data will be collected by Westat, and your individual responses to the survey, or any potentially personal identifying information, will be kept private to the extent provided by law. The information collected will be published in aggregate form only and will not identify individuals in any reports or presentations.

The survey includes questions about your involvement with the various SCTC sites and collaboration activities with other partners, such as state or local tobacco control programs or other public health or nongovernmental organizations. Your responses will help the SCTC Research Initiative improve its support of state- and community-level tobacco control research and its work in translating findings into real-world settings. Ultimately, we hope that it will inform the National Cancer Institute (NCI) in its efforts to improve dissemination and implementation research and functioning in the future.

If you have any questions or comments, please contact Mike Steketee at Westat at (240) 453-2603 or michaelsteketee@westat.com.

OMB No: 0925-XXXX
Expiration Date: xx/xx/20xx

Collection of this information is authorized by The Public Health Service Act, Section 411 (42 USC 285a). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be kept private to the extent provided by law. Names and other identifiers will not appear in any report of the study. Information provided will be combined for all study participants and reported as summaries. You are being contacted to complete this instrument so that we can evaluate the State and Community Tobacco Control (SCTC) Research Initiative Collaborative Network Process.

Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-XXXX). Do not return the completed form to this address.

By clicking on "Next" at the bottom of this page, you will be agreeing to participate in this survey and will be advanced to the survey instrument.

Respondent Information

To conduct network analysis, it is necessary to identify yourself. As explained before, these data will be aggregated, and individual responses will be kept anonymous in any reports.

1. Name

2. Primary SCTC site with which you work with most closely (select one):

- Brief Interventions to Create Smoke-Free Home Policies in Low-Income Households
- Monitoring and Assessing the Impact of Tax and Price Policies on U.S. Tobacco Use
- Networks Among Tribal Organizations for Clean Air Policies
- Maximizing State and Local Policies to Restrict Tobacco Marketing at Point of Sale
- Nonsmokers and Tobacco Control Norms: Population Surveys and Intervention Studies
- Countering Young Adult Tobacco Marketing in Bars
- Tobacco Control in a Rapidly Changing Media Environment
- Coordinating Center

3. Please indicate which degrees/certifications you have obtained. Please select all that apply.

Ph.D.

M.D.

Dr.P.H.

Psy.D.

M.P.H.

R.N.

L.C.S.W.

Collaboration

4. We would like to learn more about your work with the individual scientists funded by the SCTC Research Initiative. Please indicate the individuals you are currently working with for the SCTC Initiative. For those you identify as collaborators please indicate, the frequency of your collaboration (daily, weekly, monthly, quarterly, yearly), the importance of each collaboration (very important, important, moderately important, of little importance, unimportant), and whether you worked together in the 5 years prior to the SCTC initiative. If you have not collaborated with any of these individuals, you may leave the response options blank.

Dissemination

In this section we would like you to think about individuals that you have communicated with to share or discuss SCTC research findings or products. These individuals could be anyone, not just scientists, who you have specifically communicated, discussed, or shared SCTC research products and findings. We consider these communications, instances of dissemination of SCTC research. On each of the next five pages, please list up to five such instances of dissemination. For each name listed on the following pages, please indicate main affiliation, whether you worked together in the 5 years prior to your involvement with SCTC research, and the SCTC research product or finding you discussed with them. Please list up to five collaborators; otherwise you may skip ahead.

Dissemination instance #1

5. Name:

6. Affiliation:

7. Did you work with this individual any time during the 5 years prior to SCTC?

Yes

No

8. What SCTC research product or finding did you discuss with them?
