

# Maternal and Infant Health Initiative Developmental Measure: Use of Contraceptive Methods by Postpartum Women

Medicaid Adult Core Quality Measure - OR - 2015

## Federal Fiscal Year

2015 ▼

Are you reporting on this measure? \*

[View Implementation Guide](#)

- Yes
- No

## Status of Data Reported

+/-

What is the status of the data being reported? \*

- Provisional
- Final
- Same data as reported in a previous year's annual report

Specify the year of annual report in which data previously reported \*

2014 ▼

## Measurement Specification

+/-

Rate 1: Most effective or moderately effective contraception

- Office of Population Affairs/Centers for Disease Control and Prevention
- Other

Rate 2: Long-acting reversible contraception

- Office of Population Affairs/Centers for Disease Control and Prevention
- Other

## Data Source

+/-

Rate 1: Most effective or moderately effective contraception

- Administrative Data

- Other

From where is the Administrative Data coming?

Must select one or more

- Medicaid Management Information System (MMIS)
- Other

\*Specify

Specify \*

### Date Range

+/-

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

#### Start Date

April ▼

Month

2009 ▼

2013 ▼

Year

### Definition of Population Included in the Measure

+/-

#### Definition of Denominator

Select all that apply (Must select at least one)

- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women.)
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Specify \*

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure? \*

- Yes
- No

#### Which delivery systems are represented in the Denominator?

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

Fee-for-Service

Percentage of total state FFS population represented \*

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Primary Care Case Management (PCCM)

**Percentage of total state PCCM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

**Number of Health Plans \***

**Percentage of total state MCO/PIHP population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Integrated Care Models (ICM)

**Percentage of total state ICM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Other

**Describe \***

**Percentage of total other population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**If applicable, list the number of Health Plans represented \***

## Performance Measure

+/-

The proportion of women aged 15-44 years who are at risk of unintended pregnancy and who adopt or continue use of:

- 1) The most effective or moderately effective FDA-approved methods of contraception.
- 2) An FDA-approved, long-acting reversible method contraception

Ages 15-20

**Combined Rate(s) from Multiple Reporting Units**

+/-

**Rate 1: Most effective or moderately effective contraception**

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? \*

- Yes
- No

If yes, indicate whether the state-level rate is weighted

Must select one \*

- The rates are weighted based on the size of the measure-eligible population for each reporting unit
- The rates are weighted based on another weighting factor
- The rates are not weighted

**Rate 2: Long-acting reversible contraception**

If yes, indicate whether the state-level rate is weighted

Must select one \*

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? \*

- Yes
- No

- The rates are weighted based on the size of the measure-eligible population for each reporting unit
- The rates are weighted based on another weighting factor
- The rates are not weighted

**Additional Notes**

+/-

**Rate 1: Most effective or moderately effective contraception**

Additional Notes/Comments on Measure (Optional)

Character count: 0/2000

**Rate 2: Long-acting reversible contraception**

Additional Notes/Comments on Measure (Optional)

Character count: 0/2000

**Optional Measure Stratification**

+/-

If this measure is also reported by additional classifications/sub-categories, e.g. racial, ethnic, gender, language, disability status, or geography, complete the following as applicable.
