Date Range

+/-

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply (Must select at least one)

☑ Denominator includes Medicaid population

☑ Denominator includes CHIP population (e.g. pregnant women.)

☑ Denominator includes Medicare and Medicaid Dually-Eligible population

☑ Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure? *

◉ Yes
○ No

Which delivery systems are represented in the Denominator?

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

☑ Fee-for-Service

Percentage of total state FFS population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

☑ Primary Care Case Management (PCCM)

Percentage of total state PCCM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

☑ Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Number of Health Plans *

Percentage of total state MCO/PIHP population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

☑ Integrated Care Models (ICM)

Percentage of total state ICM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

☑ Other

Describe *

Percentage of total other population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

If applicable, list the number of Health Plans represented *

Other Performance Measure

+/-

Rate 1: Most effective or moderately effective contraception

Please describe the other methodology used *

</div>

Combined Rate(s) from Multiple Reporting Units

<div align="right">+/-</div>

Rate 1: Most effective or moderately effective contraception

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? *

◉ Yes
◯ No

If yes, indicate whether the state-level rate is weighted

Must select one *

◉ The rates are weighted based on the size of the measure-eligible population for each reporting unit
◯ The rates are weighted based on another weighting factor
◯ The rates are not weighted

Rate 2: Long-acting reversible contraception

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? *

◉ Yes
◯ No

If yes, indicate whether the state-level rate is weighted

Must select one *

◉ The rates are weighted based on the size of the measure-eligible population for each reporting unit
◯ The rates are weighted based on another weighting factor
◯ The rates are not weighted

Additional Notes

<div align="right">+/-</div>

Rate 1: Most effective or moderately effective contraception

Additional Notes/Comments on Measure (Optional)

Character count: 0/2000

Rate 2: Long-acting reversible contraception

Additional Notes/Comments on Measure (Optional)

Character count: 0/2000

Optional Measure Stratification

+/-

If this measure is also reported by additional classifications/sub-categories, e.g. racial, ethnic, gender, language, disability status, or geography, complete the following as applicable.

Would you like to validate the core measure data at this time?

○ Yes   ● No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.
