

## **Script for Recruitment**

### **High School Age Youth**

Hi my name is \_\_\_\_\_. I work for Child Trends, a nonprofit research center that studies children and families. Child Trends is leading a study on healthy marriage and relationship education (HMRE) programs for the Administration for Children and Families in the U.S. Department of Health and Human Services. We are currently looking for teens to participate in a short, one-time interview. The interview will help us learn more about some questions that may be used by relationship education programs. If you participate, you will receive a \$50 gift card. Would you be interested in learning more about this?

**IF YES:** Great!

#### **HAND FLIERS**

The goal of this study is to learn more about questions that may be used in healthy marriage and relationship education (HMRE) programming and evaluation. We want to make sure that the questions make sense for teens. As part of this effort, we will be doing cognitive interviews with 14-17 year old teens.

Cognitive interviews are conversations in which you are asked what you think of different questions. For example, we might ask if the wording of a question makes sense or not. The goal of cognitive interviews is to improve the quality of the questions. The goal is not to get answers to the questions.

**IF R IS STILL INTERESTED:** I can screen you right now if you would like, that way all we need to do is get your parent's consent and then we can schedule your interview as soon as possible.

#### **CONDUCT SCREENER IN A PRIVATE, QUIET LOCATION**

**Or**

#### **COLLECT CONTACT INFORMATION ON INDIVIDUAL SIGN UP SHEET**

Thank you for your interest, we will be in touch with you and your parents shortly about scheduling this interview. In the meantime, you can take these letters introducing the study home for your parents and for yourself to read over.

**IF NO:** Thank you for your time.
