New Miner Training Program - Metal/Nonmetal Surface Mines

Section 48.25

Each new miner must receive no less than 24 hours of training [§ 48.25(a)]. Upon approval by MSHA, new miners may receive a portion of this training after assignment to work duties; provided that, no less than 8 hours of training is given before they are assigned to work duties. The following courses must be included in the 8 hours of training: Introduction to work environment, hazard recognition, and health and safety aspects of the tasks to which the new miners will be assigned. After completion of this pre-assignment training, new miners must then receive the remainder of the required 24 hours of training, or up to 16 hours, within 60 days. Miners who have not received the full 24 hours of new miner training must be required to work under the close supervision of an experienced miner.

Do you [request](#) that part of new miner training be given after work assignment?

Yes No

If yes, give justification based on such factors as: the mine safety record, rate of employee turnover and mine size.

Duration of training in the 3 courses (Introduction to work environment, Hazard recognition, and Health and safety aspects of the tasks) specified in [§ 48.25\(a\)](#) to be given before assignment to work duties (8 hours minimum):

Duration: hours minutes

Under each subject listed below, you must check all that apply. However, you must select at least one teaching method, course material, and evaluation method or you will receive an error message.

Task Training Plan - List of Task Assignments Section 48.27 (a) Miners

Miners assigned to new work tasks as mobile equipment operators, drilling machine operators, haulage and conveyor systems operators, ground control machine operators, and in blasting operations [[§ 48.27\(a\)](#)].

These miners must not be allowed to perform new tasks without direction and immediate supervision until they have demonstrated safe work procedures to the operator or the operator's agent.

You must submit a complete list of task/job/occupation assignments [[§ 48.23\(c\)\(8\)\(i\)](#)]

Step 1

Select the task/job/occupation that you want to include in your list and click the **Add to list** button. Press and hold the **Ctrl** key when selecting multiple items. If the item you want to add is not on the list, go to Step 2 below.

- Auger helper
- Auger operator
- Belt man/conveyor crew/vulcanizer
- Belt/conveyor man/crew
- Bobcat operator
- Bulldozer/tractor operator
- Clam shell operator

Step 2

If the item you want to add is not on the list above, type it in the space provided at right and click the **Add new item to list** button.

Step 3

Select the items that you want to remove and click the **Remove from list** button. Press and hold the **Ctrl** key when selecting multiple items on the list.

No items -- start with step 1 or step 2

You have not selected any tasks. Please add at least one task assignment to the list.

Task Training Program - Metal/Nonmetal Surface Mines

Section 48.27

The training plan must contain a program for training miners before they are assigned to new work tasks. For the purposes of new task training, "task" means a work assignment that includes duties of a job that occur on a regular basis and which requires physical abilities and job knowledge [[§ 48.22\(f\)](#)]. All training and supervised practice and operation required by this section must be given by a qualified trainer, or a supervisor experienced in the assigned tasks, or other person experienced in the assigned task [[§ 48.27\(d\)](#)].

The training program includes the following categories of miners:

- [§ 48.27\(a\) Miners](#) - Miners assigned to new work tasks as mobile equipment operators, drilling machine operators, haulage and conveyor systems operators, ground control machine operators, and in blasting operations.
[Check here](#) if you have no miner with these tasks at your operation (then you do not have to complete this section.)
- [§ 48.27\(c\) Miners](#) - Miners assigned to a new task not covered above must be instructed in the safety and health aspects and safe work procedures of the task prior to performing the task.
[Check here](#) if you have no miner with these tasks at your operation (then you do not have to complete this section.)

Please click the **Continue** button to proceed with this training program.

Annual Refresher Training Program - Metal/Nonmetal Surface Mines

Section 48.28

Each miner must receive a minimum of 8 hours of annual refresher training. However, the time spent for each course may vary to meet specific needs, such as changes in mining conditions, accident history or other safety and health problems.

Predicted time of each session of refresher training (for example, the month of the year or the frequency during the year that you schedule this training) [[§ 48.23\(c\)\(7\)](#)]:

Predicted length of each session of refresher training [[§ 48.23\(c\)\(7\)](#)]:

Under each subject listed below, you must check all that apply. However, you must select at least one teaching method, course material, and evaluation method or you will receive an error message. For each item you must also specify a duration of training; single time durations should only go into the "from" hours and minutes boxes.
