OMB Control Number: 1601-0014 OMB Expiration Date: 04/30/2018

## Department of Homeland Security NEON Proximity Unit User Questionnaire

## **Paperwork Reduction Act**

The public reporting burden to complete this information collection is estimated at 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and the completing and reviewing the collected information. The collection of information is voluntary. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number and expiration date. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to DHS S&T Responder Technologies, 1120 Vermont Ave NW, Washington DC 20005 MS-0201., ATTN: PRA [OMB Control No. 1601-0014].

a. If not, what additional instructions would be beneficial?

3.	In what ways are you using/testing the NEON Proximity Units?
4.	How frequently are you using the unit (i.e., once weekly, daily, etc.)?
5.	Are you able to obtain the maximum operational range of 90 meters when using the NEON Proximity Unit?
	a. If not, what is the maximum operational range attained?
6.	When pressure fluctuations occur during fire operations, does the NEON Proximity Unit report accurate elevation results?
