Month XX, 2014

OMB Approval No. 1905-0169

Dear Manufacturing CEO/CFO/Plant Manager,

At this time, your company has not yet completed the 2014 Manufacturing Energy Consumption Survey (MECS). We now ask that you access the link below, complete the survey, and **return your report by MM DD, YYYY**. If you have completed and submitted your questionnaire, please disregard this letter and accept our gratitude for participating in this important survey.

At EIA and the Census Bureau, we take our responsibility to provide the country with critical energy data very seriously. Therefore, we are compelled to remind you that your participation is **mandatory** by Federal law Federal Energy Administration Act of 1974, Pub. Law No. 93-275, and under Title 3, Subtitle B, of the Omnibus Budget Reconciliation Act of 1986, Pub. Law No. 99-509, as amended by Title 1, Subtitle G, of the Energy Policy Act of 1992, Pub. Law No. 102-486.

The MECS is the Federal Government's only systematic survey that gauges energy impacts on various parts of the industrial sector: it measures energy consumption and related manufacturing characteristics and behaviors; provides the manufacturing industry, policymakers and the public with unbiased and accurate data; and evaluates manufacturing demands in the face of rising energy prices and national security concerns.

Your participation is essential to ensuring quality survey data. The MECS is a random, scientifically-drawn sample of manufacturers in the United States. Your plant represents other establishments of similar size and kind of business. Your response is required to ensure reliable and unbiased estimates of manufacturing energy consumption. Please note this survey is best completed by a Plant or Operations Manager.

If your company needs assistance completing the survey, please contact Mr. Leif Crider or another MECS analyst at 1-800-866-6327, Monday through Friday between 8:30 a.m. to 5:00 p.m. Eastern Standard Time. To complete the survey on-line using the username and password above, go to <http://www.census.gov/econhelp/mecs> and click on "Centurion."

General information about how MECS is used, the legal citations, and how we protect the confidentiality of data are available at <http://bhs.econ.census.gov/BHS/MECS/index.html>. Under Section 9 of Title 13, U.S. Code, your report to the Census Bureau is confidential. It may be seen only by sworn Census Bureau employees and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

Thank you for your prompt attention to this request. With your help, EIA and the Census Bureau can continue to provide the country with the most accurate and unbiased energy data and analysis.

Sincerely,

Nick Orsini
Chief, Economic Reimbursable Division
U.S. Census Bureau

Thomas Leckey
