SUPPLEMENTARY INFORMATION:

Title: Report of DBE Awards and Commitments.

OMB Control Number: 2105-0510.

Type of Request: Extension to a currently approved information collection.

Abstract: 49 CFR Part 26 establishes requirements for the Department of

Transportation (DOT) so as to comply with the mandate by statute including 1101 (b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users Public Law 109-59 and 49 U.S.C. 47113, Public Law 105-178. The key part of the collection is a requirement that state and local governments subject to the DBE program report to the Secretary of Transportation on DBE participation, as well as maintain a directory of DBE firms and report to the Secretary concerning the composition of the directory. If these reporting requirements were not available, firms controlled by minorities would not achieve the appropriate participation in DOT programs, and the Department would not be able to identify its recipients and evaluate the extent to which financial assistance recipients have been awarded a reasonable amount of contracting dollars to DBEs.

In order to minimize the burden on DOT recipients the Department has limited its informational request and reporting frequency to that necessary to meet its program and administrative monitoring requirements. The information request consists of 17 data items on one page and one attachment, to be completed on a semi-annual basis (for FHWA and FTA programs) or an annual basis (for FAA programs).

Respondents: DOT financially-assisted state and local transportation agencies.

Estimated Number of Respondents: 1,057.

Estimated Total Burden on Respondents: 1,311,000.

The information collection is available for inspection in [regulations.gov](http://www.regulations.gov), as noted in the **ADDRESSES** section of this document.

Comments are Invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

⁹ 17 CFR 200.30-3(a)(12).

Issued in Washington, DC, on *January 28, 2010*.

Robert C. Ashby,

Deputy Assistant General Counsel for Regulation and Enforcement.

SUPPLEMENTARY INFORMATION:

Title: Omnibus Household Survey Program.

Background: In 2005, Congress passed, and the President signed, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU; Pub. L. 109-59). SAFETEA-LU contained a number of legislative mandates including providing data, statistics and analyses to transportation decision-makers. The Research and Innovative Technology Administration, Bureau of Transportation Statistics (RITA/BTS) was tasked to accomplish this legislative mandate under 49 U.S.C. 111(c)(5). RITA/BTS plans to use the Omnibus Household Survey (OHS) to:

- Assess the public's evaluation of the nation's transportation system in light of the DOT's strategic goals (safety, reduced congestion, global connectivity, environmental stewardship and security, preparedness and response),
- provide a vehicle for the operating administrations within the DOT as well as other governmental agencies, to survey the public about current transportation issues, and
- provide national estimates of transportation mode usage.

Each version of the OHS will focus on some subset of topics taken from the list below. Topics may vary from survey to survey since covering all topics in one questionnaire would make the respondent burden unacceptable:
