INTRODUCTION

What is an Initial Privacy Assessment?

An Initial Privacy Assessment (IPA) is designed to assess whether a Privacy Impact Assessment (PIA), a Privacy Act system of records notice (SORN), and/or other related privacy documents are required. The responses to the IPA will provide a foundation for determining if either a PIA or SORN or both will be required, and will also help to identify any policy concerns.

The IPA incorporates the matters previously addressed in the Department's Personally Identifiable Information (PII) Survey, and thus replaces the survey.

When should an IPA be completed?

An IPA should be completed for all information collection activities, whether the system is electronic or contains only records in paper form, and should be completed before commencement of any testing or pilot project of an information system or prior to implementing new information collections requests. Additionally, an IPA should be completed any time there is a change to the information system or collection to determine whether there are any privacy issues as a result of such a change.

Who should complete the IPA?

The IPA should be written and reviewed by a combination of the component's (e.g., Privacy Act Officer, System Owner, Project Leaders, Paperwork Reduction Act Compliance Officers), and the program-specific office responsible for the system, project or information collections.

How is the IPA related to the Capital Planning, Certification and Accreditation, and the Paperwork Reduction Act process?

Upon completion and approval of the IPA by the Privacy Officer the official document may be uploaded into the C&A tool, and provided as part of the IT Capital Planning, and Paperwork Reduction Act package as validation of the completed evaluation. The completed IPA demonstrates that the program components have consciously considered privacy and related requirements as part of the overall information activities. For an IT system that does not require a C&A, such as a minor application that runs on a system that does require a C&A, an IPA still should be completed to determine if other related privacy documentation are required for that system or project.

Where should the completed IPA be sent?

A copy of the completed IPA should be sent to the Office of Privacy Project Leads for review. The Privacy Officer will review the IPA and determine what additional privacy documentation is required, and then will advise the Program component accordingly.

INFORMATION ABOUT THE SYSTEM OR PROJECT

Date Submitted for Review:

Project Name/Acronym: Recordkeeping Requirements under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA)

System Owner/Contact information: NA

Project Leader/Contact Information: Bryan O’Neill 202.402.7136

Which of the following describes the type of records in the system:

- Paper-Only
- Combination of Paper and Electronic
- System
- Other:** Please describe below the type of project or system, including paper based Privacy Act System of Records, Rules, or Technologies’. Also, indicate whether this is a revision/update for an existing system or project.

HUD funded projects involving the acquisition of real property or the displacement of persons as a direct result of acquisition, rehabilitation or demolition are subject to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA). HUD has developed optional relocation claim forms which may be used, but are not required to submit claims for relocation payments in connection with HUD funded programs or projects.. Claims for relocation assistance are not submitted to HUD. Any claims for relocation assistance are submitted to the HUD grantee or funding recipient carrying out the HUD funded program or project. HUD does not mandate the use of these forms nor does HUD collect or maintain these or any other claim forms which are submitted to HUD grantees or funding recipients. HUD may occasionally review the documentation as part of monitoring efforts to ensure compliance with URA requirements..

Note: For this form purpose, there is no distinction made between technologies/systems managed by contractors. All technologies/systems should be initially reviewed for potential privacy impact.

Section I: The Entire IPA (Sections I and II) Should be Completed for New Systems or Projects. If this is an Existing System or Project Skip to Section II. Unless requested by the Office of Privacy, this section should not be completed for an existing System or Project.

Question 1: Provide a general description of the system of Project. The following questions are intended to define the scope of the information in the system, information collection, or project, specifically the nature of the information and the sources from which it is obtained.

- a. From whom is the information collected (i.e., government employees, contractors, or consultants, state, local government entities, or general public)?

<<ADD ANSWER HERE>>

- b. What is the functionality of the system, information collection, or project and the purpose that the records and/or system serve?

<<ADD ANSWER HERE>>

- c. How is information transmitted to and from the system, information collection, or project?

<<ADD ANSWER HERE>>

- d. What are the interconnections with other systems or projects?

<<ADD ANSWER HERE>>

QUESTION 2: What is the Status of system, information collection, or project

- a. If this is a new system, information collection, or project, specify the expected production date.

<<ADD ANSWER HERE>>

- b. If an existing system, information collection, or project, specify the date of production.

<<ADD ANSWER HERE>>

QUESTION 3: Does this system, information collection, or project collect personal identifiers/sensitive information

YES	NO	Does the system, information collection, or project collect personal/sensitive information? (e.g. name, address, personal email address, gender/sex, race/ethnicity, income/financial data, employment history, medical history, Social Security Number, Tax Identification Number, Employee Identification Number, FHA Case Number). Includes PII that may be part of a registration process?

If yes, specific data sets collected or provided, and the legal authorities, arrangement, and/or agreement authorize the collection of information (i.e. must include authorities that cover all information collection activities, including Social Security Numbers)?

<<ADD ANSWER HERE>>

QUESTION 4: Does the information about individuals identify particular individuals (i.e., is the information linked or linkable to specific individuals, often referred to as personally identifiable information?)

<<ADD ANSWER HERE>>

QUESTION 5: What type of Notice(s) are provided to the individual on the scope of information collected, the opportunity to consent to uses of said information, the opportunity to decline to provide information. (A notice may include a posted privacy policy, a Privacy Act notice on form(s), and/or a system of records notice published in the Federal Register.)

- a. Was any form of notice provided to the individual prior to collection of information? If yes, please provide a copy of the notice as an appendix. (A notice may include a posted privacy policy, a Privacy Act notice on form(s), and/or a system of

records notice published in the Federal Register.) If notice was not published, why not?

<<ADD ANSWER HERE>>

b. Do individuals have an opportunity and/or right to decline to provide information?

<<ADD ANSWER HERE>>

c. Do individuals have an opportunity to consent to particular uses of the information, and if so, what is the procedure by which an individual would provide such consent?

<<ADD ANSWER HERE>>

QUESTION 6: Is there a Certification & Accreditation record for your system? (This question does not apply to Information Collection Requests)

<<ADD ANSWER HERE>>

Specify below the systems categorization. If not available identify the FISMA-reported system whose Certification and Accreditation covers this system.

SECTION II - The Entire IPA should be completed for New Systems or Projects. If this is an Existing System or Project Complete Only Complete This Section.

QUESTION 1: When was the system, information collection, or project developed?

HUD's optional relocation claim forms were developed to provide information to displaced persons on eligible relocation expenses they may claim in addition to providing information to HUD Grantees and funding recipients on eligible claimed relocation expenses which should be paid under the URA regulations of 49 CFR part 24. 49 CFR part 24 became applicable to HUD's grantees and funding recipients by government-wide final rule on March 2, 1989

QUESTION 2: If an existing system, information collection, or project, has the system or project undergone any changes since April 17, 2003?

No

QUESTION 3: If an existing system, information collection, or project, has the system or project, explain the changes the system or project will be undergoing as part of this renewal/update process.

No change

QUESTION 4: Do the changes to the system, information collection, or project involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system?

No

QUESTION 5: Please indicate if any of the following changes to the system or project have occurred: (Mark all boxes that apply.)

Unknown. HUD does not mandate the use of these optional relocation claim forms. HUD's grantees and funding recipients may use the forms or they develop their own forms or other methods for persons to claim relocation payments in connection with HUD programs or projects. HUD provides no requirements other than any claim for relocation must be eligible under 49 CFR part 24.

- A conversion from paper-based records to an electronic system.
- A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

- A new use of an IT system, including application of a new technology that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and /or avenue for exposure of data that previously did not exist.)
- A change that results in information in identifiable form being merged, centralized, or matched with other databases.
- A new method of authenticating the use of an access to information in the identifiable form by members of the public.
- A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.
- A new interagency use of shared agency function that results in new uses or exchanges of information in identifiable form.
- A change that results in a new use of disclosure of information in identifiable form.
- A change that results in new items of information in identifiable form being added into the system.

QUESTION 6: Does a PIA for the system or project already exist? If yes, please provide a copy of the notice as an appendix.

Unknown
