What is the purpose of this survey?

The purpose of the 2015 Rental Housing Finance Survey (RHFS) is to provide a measure of financial, mortgage and property characteristics of rental housing properties in the United States.

Who authorizes this survey?

We are conducting this survey under the authority of Title 13, United States Code (U.S.C.), Section 8, and Title 12, U.S.C., Sections 1701z-1, 1701z-2(g), and 1701z-10a.

Why should you participate in this survey?

The RHFS is the primary source of rental housing data for the Department of Housing and Urban Development (HUD), federal, state and local governments and to the public. This survey helps inform the development of rental housing policies, especially those pertaining to financing rental housing for targeted groups such as low-income families and individuals and the elderly. The data you provide will help policy makers evaluate the suitability of public policy initiatives. Academic researchers and private organizations may also utilize the data to facilitate their research and projects. The RHFS provides an overall portrait of rental housing in the United States.
