None.

Negative Determinations for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In the following cases, the investigation revealed that the eligibility criteria for worker adjustment assistance have not been met for the reasons specified.

Because the workers of the firm are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

The investigation revealed that criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.B.) (shift in production to a foreign country) have not been met.

Determinations Terminating Investigations of Petitions for Worker Adjustment Assistance

After notice of the petitions was published in the **Federal Register** and on the Department's Web site, as required by Section 221 of the Act (19 U.S.C. 2271), the Department initiated investigations of these petitions.

The following determinations terminating investigations were issued because the petitioner has requested that the petition be withdrawn.

- 85,430, *EveryWare Global, Inc., Monaca, Pennsylvania.*

- 85,437, *Microsemi Corporation, Garden Grove, California.*

The following determinations terminating investigations were issued because the petitioning groups of workers are covered by active certifications. Consequently, further investigation in these cases would serve no purpose since the petitioning group of workers cannot be covered by more than one certification at a time.

- 85,270, *Honeywell International, Inc., Phoenix, Arizona.*

- 85,471, *Motorola Mobility, Fort Worth, Texas.*

I hereby certify that the aforementioned determinations were issued during the period of August 18, 2014 through August 22, 2014. These determinations are available on the Department's Web site www.doleta.gov/tradeact/taa/taa_search_form.cfm under the searchable listing of determinations or by calling the Office of Trade Adjustment Assistance toll free at 888-365-6822.

Signed at Washington, DC this 28th day of August 2014.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements in the Coke Oven Emissions Standard provide protection for workers from the adverse health effects associated with exposure to coke oven emissions. In this regard, the Coke Oven Emissions Standard requires employers to monitor workers' exposure to coke oven emissions, monitor worker health, and provide workers with information about their exposures and

the health effects of exposure to coke oven emissions.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Coke Oven Emissions Standard (29 CFR 1910.1029). OSHA is requesting an adjustment decrease of 2,448 burden hours (from 54,241 hours to 51,793 hours). The adjustment decrease is due to a decrease in the number of batteries that are subject to the Standard. The adjustment of the burden hours are shown in detail by provision in the supporting statement.

Type of Review: Extension of a currently approved collection.

Title: Coke Oven Emissions Standard (29 CFR 1910.1029).

OMB Control Number: 1218-0128.

Affected Public: Business or other for-profits.

Number of Respondents: 19.

Frequency of Responses: On occasion.

Total Responses: 41,348.

Average Time per Response: Varies from five minutes (.08 hour) to obtain a physician's certificate to 12 hours to develop a compliance program.

Estimated Total Burden Hours: 51,793.

Estimated Cost (Operation and Maintenance): \$884,787.
