

INSTRUCTIONS FOR FCC 347

APPLICATION FOR A LOW POWER TV, TV TRANSLATOR OR TV BOOSTER STATION LICENSE

GENERAL INSTRUCTIONS

A. This FCC Form is to be used in all cases when applying for a low power television (LPTV), TV translator or TV booster broadcast station license. The form consists of the following sections:

- I. General Information
- II. Legal Qualifications
- III. Engineering Data and Preparer's Certification (for preparer of engineering sections of the application)

B. This application form makes references to FCC rules. Applicants should have on hand and be familiar with current broadcast rules in Title 47 of the Code of Federal Regulations (C.F.R.):

- (1) Part 0 "Commission Organization"
- (2) Part 1 "Practice and Procedure"
- (3) Part 73 "Radio Broadcast Services"
- (4) Part 74 "Experimental, Auxiliary, and Special Broadcast and Other Program Distributional Services"

FCC Rules may be purchased from the Government Printing Office. Current prices may be obtained from the GPO Customer Service Desk at (202) 512-1803. For payment by credit card, call (202) 512-1800, M-F, 8 a.m. to 4 p.m. e.s.t.; facsimile orders may be placed by dialing (202) 518-2233, 24 hours a day. Payment by check may be made to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954.

C. Electronic Filing of Application Forms. The Commission is currently developing electronic versions of various broadcast station application and reporting forms, such as this application form. As each application form and report goes online, the Commission will by Public Notice announce its availability and the procedures to be followed for accessing and filing the application form or report electronically via the Internet. For a six-month period following the issuance of the Public Notice, the subject application form or report can be filed with the Commission either electronically or in a paper format. Electronic filing will become mandatory, on a form-by-form basis, six months after each application form or report becomes available for filing electronically.

D. Applicants that prepare this application in paper form

should file an original and two copies of this application and all exhibits. Applicants should follow the procedures set forth in Part 0 and Part 74 of the Commission's Rules. Amendments to previously filed applications should be prepared, signed and filed in the same manner as the original application, and should contain the following information to identify the associated application:

- (1) Applicant's name.
- (2) Service.
- (3) Call letters.
- (4) Channel number.
- (5) Community of license.
- (6) File number of application being amended (if known).
- (7) Date of filing of application being amended (if file number is not known).

E. A copy of the completed application and all related documents shall be made available for inspection by the public. The station records should be maintained at an accessible location in one of the communities of license of the LPTV, TV translator or TV booster, except that the station records of a translator or booster owned by the licensee of the primary station rebroadcast may be kept at the same place where the primary station's records are kept. See 47 C.F.R. Sections 74.781, 73.1125.

F. Applicants should provide all information requested by this application. No section may be omitted. If any portions of the application are not applicable, the applicant should so state. **Defective or incomplete applications will be returned without consideration.** Inadvertently accepted applications are also subject to dismissal.

G. In accordance with 47 C.F.R. Section 1.65, applicants have a continuing obligation to advise the Commission, through amendments, of any substantial and material changes in the information furnished in this application. This requirement continues until the FCC action on this application is no longer subject to reconsideration by the Commission or review by any court.

H. This application requires applicants to certify compliance with many statutory and regulatory requirements. Detailed instructions provide additional information regarding Commission rules and policies. These materials are designed to track the standards and criteria which the

Commission applies to determine compliance and to increase the reliability of applicant certifications. They are not intended to be a substitute for familiarity with the Communications Act and the Commission's regulations, policies, and precedent. While applicants are required to review all application instructions, they are not required to complete or retain any documentation created or collected to complete the application.

- I. This application is presented primarily in a "Yes/No" certification format. However, it contains appropriate places for submitting explanations and exhibits where necessary or appropriate. Each certification constitutes a material representation. Applicants may only mark the "Yes" certification when they are certain that the response is correct. A "No" response is required if the applicant is requesting a waiver of a pertinent rule and/or policy, or where the applicant is uncertain that the application fully satisfies the pertinent rule and/or policy. Thus, a "No" response to any of the certification items **will not** cause the immediate dismissal of the application provided that an appropriate exhibit is submitted.
- J. **The applicant, and the applicant's authorized engineering representative, if any, must sign the application.** Depending on the nature of the applicant, the application should be signed as follows: if a sole proprietorship, personally; if a partnership, by a general partner; if a corporation, by an officer; for an unincorporated association, by a member who is an officer; if a governmental entity, by such duly elected or appointed official as is competent under the laws of the particular jurisdiction. Counsel may sign the application for his or her client, but only in cases of the applicant's disability or absence from the United States. If the application is filed electronically, the signature will consist of the electronic equivalent of the typed name of the individual. See Report and Order in MM Docket No. 98-43, 13 FCC Rcd 23056, 23064 (1998).

INSTRUCTIONS FOR SECTION I: GENERAL INFORMATION

- A. **Item 1: Applicant Name.** The legal name of the applicant must be stated exactly in Item 1. If the applicant is a corporation, the applicant should list the exact corporate name; if a partnership, the name under which the partnership does business; if an unincorporated association, the name of an executive officer, his/her office, and the name of the association; and, if an individual applicant, the person's full legal name.

Applicants should use only those state abbreviations approved by the U.S. Postal Service.

FCC Registration Number (FRN). To comply with the Debt Collection Improvement Act of 1996, the applicant must enter its FRN number, a ten-digit unique entity identifier for anyone doing business with the Commission.

The FRN can be obtained through the FCC webpage at <http://www.fcc.gov> or by manually submitting FCC Form 160. FCC Form 160 is available for downloading from <http://www.fcc.gov/formpage.html> or by calling 1-800-418-3676. Questions concerning the FCC Registration Number can be directed to the Commission's Registration System help desk at <http://www.CORES@fcc.gov> or by calling 1-877-480-3201.

Facility ID Number. Radio and TV Facility ID Numbers can be obtained at the FCC's Internet Website at www.fcc.gov/mb. Once at this website, scroll down and select CDBS Public Access. You can also obtain your facility ID number by calling: Radio - 202-418-2700, TV - 202-418-1600. Further, the Facility ID Number is now included on all Radio and TV authorizations and postcards.

- B. **Item 2: Contact Representative.** If the applicant is represented by a third party (for example, legal counsel), that person's name, firm or company, and telephone/electronic mail address may be specified in Item 2.
- C. **Item 3: Fees.** The Commission is statutorily required to collect charges for certain regulatory services to the public. Generally, applicants seeking a license to cover a LPTV, TV translator, or TV booster facility authorized by and constructed pursuant to an outstanding construction permit are required to pay and submit a fee with the filing of FCC Form 347. However, governmental entities, which include any possession, state, city, county, town, village, municipal corporation or similar political organization or subpart thereof controlled by publicly elected and/or duly appointed public officials exercising sovereign direction and control over their respective communities or programs, are exempt from the payment of this fee. Also exempted from this fee are licensees and permittees of noncommercial educational FM and full-service television broadcast stations seeking to construct new LPTV, TV translator or TV booster stations, or to make major changes in the authorized facilities of such stations, provided those stations will be operated or operate on a noncommercial educational basis. Applicants that earlier obtained either a fee refund because of a NTIA facilities grant for the station or a fee waiver because of demonstrated compliance with the eligibility and service requirements of 47 C.F.R. Section 73.621, are similarly exempt from payment of this fee. See 47 C.F.R. Section 1.1114.

When filing a fee-exempt application, an applicant must complete Item 3 and provide an explanation as appropriate. Applications **NOT** subject to a fee may be hand-delivered

or mailed to the FCC at its Washington, D.C. offices. See 47 C.F.R. Section 0.401(a). Fee-exempt applications should not be sent to the Mellon Bank Lockbox; so doing will result in a delay in processing the application.

The Commission's fee collection program utilizes a U.S. Treasury lockbox bank for maximum efficiency of collection and processing. Prior to the institution of electronic filing procedures, all FCC Form 347 applications requiring the remittance of a fee, or for which a waiver or deferral from the fee requirement is requested, must be submitted to the appropriate post office box address. See 47 C.F.R. Section 0.401(b). A listing of the required fee and the address to which FCC Form 347 should be mailed or otherwise delivered are also set forth in the "Mass Media Services Fee Filing Guide." This document can be obtained either by writing to the Commission's Form Distribution Center, 9300 E. Hampton Drive, Capitol Heights, Maryland 20743, or by calling 1-800-418-FORM and leaving a request on the answering machine provided for this purpose. See also 47 C.F.R. Section 1.1104. The Fee Filing Guide also contains a list of the Fee Type Codes needed to complete this application.

Payment of any required fee must be made by check, bank draft, money order, or credit card. If payment is made by check, bank draft, or money order, the remittance must be denominated in U.S. dollars, drawn upon a U.S. institution, and made payable to the Federal Communications Commission. No postdated, altered, or third-party checks will be accepted. **DO NOT SEND CASH.** Additionally, checks dated six months or older will not be accepted.

Payment of application fees may be made by Electronic Payment **prior to** the institution of electronic filing, provided that prior approval has been obtained from the Commission. Applicants interested in this option must first contact the Credit and Debt Management Center at (202) 418-1995 to make the necessary arrangements.

Applicants hand-delivering FCC Forms 347 may receive dated receipt copies by presenting copies of the applications to the acceptance clerk at the time of delivery. For mailed-in applications, a "return copy" of the application should be furnished and clearly marked as a "return copy." The applicant should attach this copy to a stamped, self-addressed envelope. Only one piece of paper per application will be stamped for receipt purposes.

For further information regarding the applicability of a fee, the amount of the fee, or the payment of the fee, applicants should consult the "Mass Media Services Fee Filing

Guide."

INSTRUCTIONS FOR SECTION II: LEGAL INFORMATION

- A. **Item 1: Certification.** Each applicant is responsible for the information that the application instructions convey. As a key element in the Commission's streamlined licensing process, a certification that these materials have been reviewed and that each question response is based on the applicant's review is required.
- B. **Item 2: Permit Conditions.** This question requires the applicant to certify that all terms, conditions, and obligations set forth in the underlying construction permit have been fully met. Each applicant should review its underlying construction permit carefully prior to making its certification to confirm that the facility was constructed exactly in accordance with the permit. If any such term, condition, or obligation has not been fulfilled, the applicant should respond "No" to Section II, Item 2 and provide an appropriate explanatory exhibit. See 47 C.F.R. Section 74.1251.
- C. **Item 3: Changed Circumstances.** This question requires the applicant to certify that all information provided in the underlying construction permit application remains correct. If any circumstance has arisen which would cause any statement or representation contained in the construction permit application to be incorrect, the applicant should respond "No" to Section II, Item 3 and provide an appropriate explanatory exhibit.
- D. **Item 4: Programming.** A LPTV or TV translator station operator proposing to rebroadcast the signal of a primary station which it does not own must obtain written permission of that station **prior** to retransmission of that signal. See 47 C.F.R. Section 74.784. Section II, Item 4 requires the applicant to certify that such written authority has been received. TV translator applicants proposing to rebroadcast the signal of stations that they own, as well as applicants for TV booster stations, should mark the box labelled "Yes."

NOTE: LPTV and TV translator stations are required to broadcast station identification announcements. This can be done in one of two ways. First, the LPTV or TV translator station not originating local programming as defined by 47 C.F.R. Section 74.701(h) can arrange with the primary station whose signal is to be rebroadcast to identify the LPTV or TV translator by call sign and location. If this method of station identification is utilized, there must be two such identifications between 7 a.m. and 9 a.m. and another two identifications between 3 p.m. and 5 p.m. each broadcast day at approximately one hour intervals during

each time period. Alternatively, the LPTV or TV translator may transmit its call sign in International Morse Code at least once each hour. See 47 C.F.R. Sections 74.783 and 73.1201.

Also, where the station's identification is to be made by a primary station, the LPTV or TV translator station must provide to the primary station and arrange for the maintenance of current information as to the LPTV or TV translator station's call letters and location, and the name, address and telephone number of the person to be contacted in an emergency to suspend LPTV or TV translator operation.

F. Items 5 and 6: Character Issues/Adverse Findings. Item 5 requires the applicant to certify that neither it nor any party to the application has had any interest in or connection with an application that was or is the subject of unresolved character issues. An applicant must disclose in response to Item 6 whether the applicant or any party to the application has been the subject of a final adverse finding with respect to certain relevant non-broadcast matters. The Commission's character policies and litigation reporting requirements for broadcast applicants focus on misconduct which violates the Communications Act or a Commission rule or policy and on certain specified non-FCC misconduct. In responding to Items 5 and 6, applicants should review the Commission's character qualifications policies, which are fully set forth in Character Qualifications, 102 FCC 2d 1179 (1985), reconsideration denied, 1 FCC Rcd 421 (1986), as modified, 5 FCC Rcd 3252 (1990) and 7 FCC Rcd 6564 (1992).

NOTE: As used in this question, the term "party to the application" includes any individual or entity whose ownership or positional interest in the applicant is attributable. An attributable interest is an ownership interest in or relation to an applicant or licensee which will confer on its holder that degree of influence or control over the applicant or licensee sufficient to implicate the Commission's multiple ownership rules. See Report and Order in MM Docket No. 83-46, 97 FCC 2d 997 (1984), reconsideration granted in part, 58 RR 2d 604 (1985), further modified on reconsideration, 61 RR 2d 739 (1986).

Where the response to Item 5 is "No," the applicant must submit an exhibit that includes an identification of the party having had the interest, the call letters and location of the station or file number of the application or docket, and a description of the nature of the interest or connection, including relevant dates. The applicant should also fully explain why the unresolved character issue is not an impediment to a grant of this application.

In responding to Item 6, the applicant should consider any relevant adverse finding that occurred within the past ten years. Where that adverse finding was fully disclosed to the

Commission in an application filed on behalf of this station or in another broadcast station application and the Commission, by specific ruling or by subsequent grant of the application, found the adverse finding not to be disqualifying, it need not be reported again and the applicant may respond "Yes" to this item. However, an adverse finding that has not been reported to the Commission and considered in connection with a prior application would require a "No" response.

Where the response to Item 6 is "No," the applicant must provide in an exhibit a full disclosure of the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and the disposition of the litigation. Where the requisite information has been earlier disclosed in connection with another pending application, or as required by 47 U.S.C. Section 1.65(c), the applicant need only provide an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing. The applicant should also fully explain why the adverse finding is not an impediment to a grant of this application.

G. Item 7: Anti-Drug Abuse Act Certification. This question requires the applicant to certify that neither it nor any party to the application is subject to denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

Section 5301 of the Anti-Drug Abuse Act of 1988 provides federal and state court judges the discretion to deny federal benefits to individuals convicted of offenses consisting of the distribution or possession of controlled substances. Federal benefits within the scope of the statute include FCC authorizations. A "Yes" response to Item 7 constitutes a certification that neither the applicant nor any party to this application has been convicted of such an offense or, if it has, it is not ineligible to receive the authorization sought by this application because of Section 5301.

NOTE: With respect to this question, the term "party to the application" includes if the applicant is an individual, that individual; if the applicant is a corporation or unincorporated association, all officers, directors, or persons holding 5 percent or more of the outstanding stock or shares (voting and/or non-voting) of the applicant; all members if a membership association; and if the applicant is a partnership, all general partners and all limited partners, including both insulated and non-insulated limited partners, holding a 5 percent or more interest in the partnership.

INSTRUCTIONS FOR SECTION III: ENGINEERING DATA AND PREPARER'S CERTIFICATION

- A. **Tech Box:** The applicant must specify the information requested in Items 1 through 5 of the Tech Box. The data should accurately reflect the specifications set forth in the underlying construction permit.

The latitude and longitude coordinates for all points in the United States are based upon the 1927 North American Datum (NAD 27). The National Geodetic Survey is in the process of replacing NAD 27 with the more accurate 1983 North American Datum (NAD 83) and updating current topographic maps with NAD 83 datum. In addition, coordinates determined by use of the satellite-based Global Positioning System already reflect the NAD 83 datum. To prevent intermixing of data using two different datums, however, the Commission announced that until further notice, applicants are to furnish coordinates based on the NAD 27 datum on all submissions and the Commission will continue to specify NAD 27 coordinates in its data bases and authorizations. In addition, applicants who have already filed applications with coordinates that reflect NAD 83 datum must provide NAD 27 coordinates to the appropriate Commission licensing bureau. See Public Notice, entitled "FCC Interim Procedures for the Specification of Geographic Coordinates," 3 FCC Rcd 1478 (1988).

- B. **Item 6: Constructed Facility.** The applicant must certify that the facility was constructed as authorized in the underlying construction permit. If there are any differences between the facilities constructed compared with those authorized in the construction permit, the applicant may need to seek approval for the change on FCC Form 346. See Section 74.751.

- C. **Item 7: Special Operating Conditions.** The special operating conditions are located on the final pages of the construction permit. Attach exhibits, if required, to document compliance with the special operating conditions. **NOTE: SPECIAL OPERATING CONDITIONS MAY PROHIBIT AUTOMATIC PROGRAM TEST AUTHORITY.**

Automatic Program Test Authority: The permittee of an LPTV, TV Translator or Booster station may begin program tests upon filing FCC Form 347 with the FCC. See 47 C.F.R. Section 74.14. **This provision does not apply if the underlying construction permit contains a special operating condition prohibiting automatic program test authority.**

- D. **Preparer's Certification.** When someone other than the applicant has prepared the engineering section of FCC Form 347, Section III requires that person to certify, to the best of his/her knowledge and belief, the veracity of the technical data supplied. The Section III preparer's certification in FCC Form 347 need not be completed if the engineering

portion of the application has been prepared by the applicant. In that event, the applicant's certification in Section II of FCC Form 347 will encompass both the legal and engineering sections of the application.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

If you do not provide the information requested on this form, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Your response is required to obtain the requested authorization.

We have estimated that each response to this collection of information will take 1 hour and 30 minutes. Our estimate includes the time to read the instructions, look through existing records, gather and maintain the required data, and actually complete and review the form or response. If you have any comments on this burden estimate, or on how we can improve the collection and reduce the burden it causes you, please e-mail them to pra@fcc.gov or send them to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0017), Washington, DC 20554. Please **DO NOT SEND COMPLETED APPLICATIONS TO THIS ADDRESS.** Remember - you are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number of if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0017.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, P.L. 104-13, OCTOBER 1, 1995, 44 U.S.C. 3507.
