4. CONTRACT AND ORDER DETAILS

Resource Managers and Requiring Activity Managers are not responsible to enter or edit data in the CMRA. RA Managers will only be able to view, enter, and edit data for contracts under their UIC.

The following instructions are available to Resource Managers and Requiring Activity Managers as a reference to explain the Contractor and COR/COTR responsibilities. To view the data that has already been entered, see the **Reports** section in this User Guide.

When the contract is shown, select the Order Number to edit or view the contents of it. CORs/COTRs are responsible to enter NDAA Elements data as required by the National Defense Authorization Act for Fiscal Year 2008, Section 807.

The screenshot displays the 'Contract Details' page. At the top, there is a breadcrumb trail: 'Contract Search > Contract: XXXXXX-XX-X-XXXX'. Below this, a yellow box contains the following information:

Contract Number:	XXXXXX-XX-X-XXXX
Contract Fiscal Year:	2008

An 'Add New Order' button is located to the right of this information. Below the table, a note states: 'Note: COR/COTRs and Contracting Officers are responsible for entering NDAA data. Contractors are not responsible for this data.' This is followed by a table of 'NDAA Elements' with the following rows:

Form of Contract Action	
Contract Type	
Performance-Based Services Acquisition	No
Non-DOD Purchasing Agency	
Competed Action	
If Competed, Number of Offerors	0

The following definitions and procedures are available to Resource Managers and Requiring Activity Managers as a reference to explain the responsibilities of other user roles:

Required Field	Explanation of Required Field
Fiscal Year	The fiscal year is the accounting period of the federal government. It begins on October 1 and ends on September 30 of the next calendar year. Each fiscal year is identified by the calendar year in which it ends and commonly is referred to as "FY."
Order Number	The Order Number refers to the Task Order and/or Delivery Number of the Contract. For contracts without an Order Number, use "0000" as default.
Requiring Activity Unit Identification Code	The Unit Identification Code (UIC) of the Requiring Activity (RA) that would be performing the mission if not for the contractor. This is not necessarily the Contracting Office, Contracting Administrative Office, or Funding Source.
Command	Command of the Requiring Activity that would be performing the mission if not for the contractor.
Total Invoiced Amount	The total dollar amount invoice during the fiscal year, at the Delivery Order and/or Task Order level.

To search for a Requiring Activity UIC, first select the green **Add New Order** button shown in Figure 8. Next, select the **Search for UIC** button on the Order Details screen (Figure 7). Fill in as much of the data fields on the UIC Search function page as possible to narrow down the search, and then click **Search for UIC** (Figure 9).

Once you have entered your information in the data fields and clicked Search for UIC, the application will bring up several possible UICs for you to choose from. Locate your specific UIC by browsing through the results. Once you have located the correct Unit Identification Code for your order data, click the blue hyperlink in the UIC column that corresponds with your Code to confirm your selection (Figure 10). The UIC data cell will automatically be populated with the UIC you selected (Figure 11).

The screenshot shows the 'Search UIC' interface within the GMR Contractor Manpower Reporting application. At the top, there is a magnifying glass icon and the title 'GMR CONTRACTOR MANPOWER REPORTING'. Below the title, the heading 'Search UIC' is displayed, followed by the instruction: 'Search using one or more fields below, then select a UIC to complete this step.' The form contains several input fields: 'Command' (a dropdown menu with 'Select One...' as the placeholder), 'Country' (a dropdown menu with 'Select One...'), 'Description' (a text input field), 'State' (a dropdown menu with 'Select One...'), 'UIC' (a text input field), 'City' (a text input field), and 'Zip Code' (a text input field).
