1 INTRODUCTION

The purpose of this document is to list all the data elements collected online from the Epidemic Intelligence Service (EIS) program alumni. The data element differences between EIS and other CDC fellowship programs are documented in Appendix B. The data elements are grouped by the high level entities in the system.

The Fellowship Management System (FMS) alumni directory system is a self-service connection to allow alumni to update their personal information including current address, contact information and education. FMS is a robust flexible framework and has been successfully tailored for the various CDC fellowships including EIS.

1.1 DOCUMENT STRUCTURE

This document is broken down by the major sections/screens of the alumni directory system. The alumni login & registration pages are documented as the separate section. A section has its own chapter that is further divided by subsections where applicable. Each section/subsection contains:

- Table that lists the data elements (columns name), columns label, high level entity, list of values, and the figure numbers.
- Screen-shots to illustrate the instructions and label of the data elements.

The consolidated lists of values are documented in Appendix C.

The emails generated by system are documented in Appendix A, and the data element differences between the EIS and other programs are documented in Appendix B.

Electronic Consent

Thank you for participating in the *EIS Directory*. As an EIS alumnus, you will be able to view and update your own profile in the online system. Information about you will be used by CDC to generate internal aggregate reports about alumni career paths and to produce standard downloadable reports including the *EIS Directory* and a listing of current EIS officers. Access to these reports is limited to EIS officers, alumni, and staff. Filling in any field in the online directory is optional. If you provide consent, all of the information you provide will be included in the standard downloadable reports that are only accessible to EIS officers, alumni, and EIS staff. These reports will not be accessible to the public. If you choose not to participate, only your name and EIS year will be included in the standard downloadable reports. You may choose to give your consent now and then change your choice at any time.

By clicking yes to the consent of release of my profile to EIS officers, alumni, and staff through this electronic EIS directory, I hereby certify that I am the individual in this profile and that I understand that the knowing and willful request for or acquisition of a record pertaining to an individual under false pretenses is a criminal offense under the Privacy Act subject to a \$5,000 fine.

I have read the above presented disclosure(s) and

Yes, other EIS alumni and officers may view my information in the standard downloadable reports available on this site.

No, I do not wish to allow other alumni to view my information in the standard downloadable reports. I will only allow my name and fellowship year to be viewed because that information is already in the public domain.
