INTRO_IC Thank you for completing the National Health Interview Survey last year. As you might recall, at that time we mentioned that we might re-contact you. The Census Bureau is conducting this follow-up survey to help the CDC learn how the health care system is currently working for you.

CONSENT Before we continue, I'd like you to know that taking part in this research is voluntary. You may choose not to answer any question you don't wish to answer, or end the interview at any time with no impact on the benefits you may receive. On average, the survey will take about 15 minutes to complete. We are required by Federal law to develop and follow strict procedures to protect the confidentiality of your information and use your answers only for statistical research. I can describe these laws if you wish. [In appreciation for your time, we will send you [\$10/\$20] after you complete the interview.] In order to review my work, this call will be recorded and my supervisor may listen as I ask the questions. I'd like to continue now unless you have any questions.

Everyone else who uses this data can do so only after all information that could identify you and your family is removed. By law, every employee of the National Center for Health Statistics, the US Census Bureau, and their agents and contractors who work on this survey has taken an oath and is subject to a jail term of up to 5 years, a fine of up to \$250,000, or both, if he or she willingly discloses ANY identifiable information about you or your household members.
