WISEWOMAN™

Well-integrated Screening and Evaluation  
for Women Across the Nation

## Welcome to the WISEWOMAN Network Survey!

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid Office of Management and Budget control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Centers for Disease Control and Prevention/Agency for Toxic Substances and Disease Registry Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX).

WISEWOMAN™

Well-integrated Screening and Evaluation  
for Women Across the Nation

**Thank you for taking the time to complete this survey!** You were selected to complete this survey because [ORG NAME] was identified as an important stakeholder in cardiovascular health in its community. As part of the evaluation of the WISEWOMAN program, we want to learn about your organization's experience working with other organizations in the community that support cardiovascular health. The information you provide will help us understand the most effective ways that communities work together to improve the cardiovascular health of their residents.

This survey should take approximately 30 minutes to complete. The questions in this survey will ask about:

- Background information about [ORG NAME]
- Your organization's experience collaborating with [WISEWOMAN PROG] and other organizations in the community
- Your perceptions of the community in which [ORG NAME] operates.

The evaluation is funded by the Centers for Disease Control and Prevention (CDC). The information you provide will be used for research purposes only. Your answers to these questions will be kept private. The evaluation will not identify individuals or organizations in its reports to CDC.

### To complete the survey:

- Select the response that best describes your answer.
- After you have answered the questions on a page, click the **next** button to continue. To go back to a previous page, click the **back** button.
- If you have to stop, you can log out of the survey by closing your browser. You can return to the survey later by clicking on the link in your email.
- **When you return, all of your previous answers will be saved.** You also will be able to change your answers, if necessary.

Please complete the survey by [DATE]. If you have any questions about the survey, please contact Katie Morrison via email at [KMorrison@mathematica-mpr.com](mailto:KMorrison@mathematica-mpr.com) or at (202) 264-3450.

# INTRODUCTION

The Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) evaluation is funded by the Centers for Disease Control and Prevention's (CDC) National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Division for Heart Disease and Stroke Prevention (DHDSP). The evaluation is documenting and evaluating the effectiveness of approaches taken by WISEWOMAN grantees to improve cardiovascular health for low-income women. Mathematica Policy Research and SRA International are conducting this evaluation on behalf of CDC. You were selected to complete this survey because [ORG NAME] was identified as an important stakeholder in cardiovascular health in its community. Your participation in this survey is important and will help us understand more about how different health and community organizations work together to support cardiovascular health. The length of this survey varies for different people, but on average it should take no more than 30 minutes.

Participation in the survey is completely voluntary and you may choose to skip any question. Your responses will be kept private. They will be combined with the responses of others and written up in a report to CDC. The information from this study may be used in journals, books, or presentations. However, nothing will be said about you as an individual and no individual names will be reported. Your answers will not have any impact on the funding or any other support that your organization may receive. While there are no direct benefits to participants, your participation will help the CDC learn how to better provide cardiovascular health and community services to women. There is minimal risk related to taking part in this study. In the unlikely event of a data breach, your participation in the demonstration could become known.

If you have any questions about the survey, please do not hesitate to contact Katie Morrison at 202-264-3450 or [KMorrison@mathematica-mpr.com](mailto:KMorrison@mathematica-mpr.com). If you have questions about the research, contact So O'Neil at Mathematica Policy Research. You can reach So by calling 617-301-8975 or emailing [SOneil@mathematica-mpr.com](mailto:SOneil@mathematica-mpr.com). If you have questions about your rights as a research participant, you should contact the Kate Marchand at the IRB Office by calling 617-243-3924 or [kate.marchand@neirb.com](mailto:kate.marchand@neirb.com).

Thank you for participating in this survey. By completing the survey and submitting your responses, you are confirming that you understand the information you provide will be kept private, used only for research purposes, and that your answers will be combined with the responses of others in reports.
