Purpose

- ICF International (ICF) is conducting discussion groups for the Centers for Disease Control and Prevention (CDC) to gather your thoughts and opinions about messages developed to inform the public about electronic cigarette use among youth. We have invited you to participate in a discussion with other participants to share your knowledge and feelings about this topic.
- If you agree to participate in the discussion, here are some things you should know:

Procedures

- Any questions you have about the discussion group will be answered before we begin our discussion.
- Contact information is provided below for any questions that arise after the discussion.
- The discussion will be audio-taped so that when we write our report we can make sure we understand everything that was said.
- There will be observers from the CDC and ICF in another room and/or watching the group via a secure, password protected site on the internet. A recording will not be made of the stream.

Study Duration

- This discussion will last approximately 1.5 hours.

Payment for Participation

- You will receive \$75.00 for participating in the discussion group.

Your participation is voluntary, and you can choose not to answer any of the questions.

Benefits

- There are no direct benefits to you for participating in this study. Your opinions will help CDC develop a public service advertisement about youth use of e-cigarettes.

Confidentiality
