

Epi-Aid Satisfaction & Impact Assessment

1. Introduction

Form Approved
OMB No. 0920-0879
Expiration Date: 03/31/2018

Thank you for inviting CDC to assist with your recent Epi-Aid investigation. Epi-Aid investigations assist our public health partners in their response to urgent public health problems. They also are one of the most valuable applied epidemiology training opportunities for EIS Officers and other CDC-sponsored trainees. We hope that your agency found that the Epi-Aid was a productive, informative, and collegial experience.

To continuously improve the Epi-Aid process, we ask you to complete a satisfaction assessment. It should take less than 15 minutes to complete the 23 question assessment. You also will have the opportunity to provide open-ended comments. We will report results from this assessment only in aggregate. Your feedback will help us to improve the Epi-Aid process.

You will have to complete this assessment in one session, as you will not be able to return to edit your response once you exit the assessment. You may edit your responses until the last page of the assessment is completed. To return to a previous page, use the "Previous" button at the bottom of the page (NOT the "Back" button on your browser menu). To advance, use the "Next" button at the bottom of the page.

If you want to discuss the Epi-Aid or have any questions or problems completing this assessment, please contact us at epiaid@cdc.gov

By continuing onto the next screen, you are giving us your consent to complete this assessment.

Sincerely,
The EIS Program

Public reporting burden of this collection of information is estimated to take no more than 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid Office of Management and Budget control number. Send comments regarding this burden estimate, or any other aspect of this information collection, including suggestions for reducing this burden to CDC/Agency for Toxic Substance and Disease Registry Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attention: PRA (0920-0879).

4. Epi-Aid Coordination, Communication, and Reporting

To return to a previous page, use the "Previous" button at the bottom of the page (NOT the "Back" button on your browser menu). To advance, use the "Next" button at the bottom of the page.

This section asks about coordination, communication and reporting of the Epi-Aid.

7. Please indicate if the roles and responsibilities of all parties (i.e. CDC, the Epi-Aid Team, and your agency) were clearly defined at each phase of the Epi-Aid investigation.

Were the roles and responsibilities clear to you...?

	Yes	No
Before the team arrived	<input type="radio"/>	<input type="radio"/>
During the field investigation	<input type="radio"/>	<input type="radio"/>
When the team departed	<input type="radio"/>	<input type="radio"/>

8. Please indicate if deliverables were clearly defined at each phase of the Epi-Aid investigation.

Were the deliverables clear to you ...?

	Yes	No
Before the team arrived	<input type="radio"/>	<input type="radio"/>
During the field investigation	<input type="radio"/>	<input type="radio"/>
When the team departed	<input type="radio"/>	<input type="radio"/>

9. Did the Epi-Aid Team conduct an exit meeting before departing the field?

- Yes
- No

10. Were the next steps clearly defined when the team departed?

- Yes
- No

11. When did the Epi-Aid Team communicate preliminary findings to you?

- Prior to the team departing
- Within 1 week after the team departed
- Between 1 week and 1 month after the team departed
- Between 1 month and 3 months after the team departed
- More than 3 months after the team departed
- Not yet received
