

ATTACHMENT G: NOTIFICATION EMAIL

Good morning/afternoon,

You have been asked to take part in an assessment as a government official involved in planning for the public health response to a radiological or nuclear incident. The purpose of this assessment is to gather information about the current level of radiation emergency preparedness among state, territorial, tribal and local governments. In addition, CDC would like to receive feedback about some of their CDC Radiation Studies Branch (RSB) products (i.e. educational materials, planning aids, training products, and guides). Your input will help the CDC Radiation Studies Branch (RSB) to provide the most needed and useful content in radiation emergency planning materials.

Our collaborating company, Oak Ridge Associated Universities (ORAU), has made the web assessment available on a secured website and will compile the results for the RSB study.

Your participation is voluntary. It will take no more than 20 minutes to complete the web assessment.

Please click on the following link to begin the assessment:

<https://www.surveymonkey.com/s/BHXQK6>

Please complete the assessment by {INSERT DATE}.

If you have any questions about the assessment, please contact Jennifer Hendricks, ORAU, at 865-241-1326 or Jennifer.Hendricks@orau.org.

If you do not wish to receive additional reminders about this assessment please click here [Insert Link].

Thank you for your time,
Carol McCurley

M Carol McCurley | Lead Health Education Specialist | Radiation Studies Branch | Division of Environmental Hazards and Health Effects | National Center for Environmental Health | CDC | 4770 Buford Highway, MS: F58 Atlanta, GA 30341 | 770.488.3738 | Fax No. 770.488.1539 | CMcCurley@cdc.gov
