

Attachment D—Email Reminder

Email reminder

This is a friendly reminder requesting 3 days and times (no more than 60 minutes in length) that you would be available to participate in a phone interview to collect information about your waterborne disease prevention program's infrastructure and capacity. Findings from these interviews will be used by WDPB to gain a better understanding of relevant infrastructure issues among state waterborne disease prevention programs and to help plan for technical assistance to support continued progress in waterborne disease prevention and control.

We know you are very busy, but please consider sharing your valued insights. Please send your availability of days and times to me at {EMAIL ADDRESS} or {PHONE NUMBER}.

We appreciate your participation.

Sincerely,
