Needs Assessment for Developing a National Network of Local Environmental Health Professionals

EHCA Notification Email

Good morning/afternoon,

NACCHO and the CDC support your ongoing commitment to ensure the health and safety of your community through best practices in environmental health leadership, education, and management. In an effort to better serve our members, NACCHO is asking for your feedback on the extent to which you are currently connecting with other environmental health officials and how to improve collaboration. We are exploring ways to better connect environmental health officials across the nation and we would appreciate your feedback to understand what would be most beneficial to you. To support us in that effort, we ask that you please fill out a brief assessment using the following link:

http://naccho.co1.qualtrics.com/SE/?SID=SV_3UlwTpD1HMUs5v.

Your participation is voluntary. It will take no more than 15 minutes to complete the web assessment. Please complete the assessment by [date]. Your responses will be anonymous. The data will be used in aggregate format and will not contain any personal identifying information. NACCHO and CDC will develop a final report which will be shared with CDC senior leadership to make final decisions about forming the network.

If you have any questions regarding this assessment, please contact Lindsay Beattie at lbeattie@naccho.org or (202)595-1122.

Thank you for your time,
Lindsay Beattie
