County Health Policy Implementation Assessment

Form Approved
OMB No. 0920-0879
Expiration Date 03/31/2018

INTRO. Before we get started, please review the following information about this study.

- The County Health Policy Implementation Assessment (CHPIA) Survey is funded by the National Center for Chronic Disease Prevention and Health Promotion at the Centers for Disease Control and Prevention (CDC). RTI International is the data collection contractor conducting the assessment for CDC. RTI is an independent, nonprofit research institute headquartered in Research Triangle Park, NC.
- We are working with local county health departments in Washington and North Carolina. You were identified as someone who can answer questions about your health department.
- Your participation in this assessment is voluntary.
- Answering questions about a single county health department takes about 20 minutes. If you are reporting on more than county, we estimate that each additional county will take about 8 minutes to complete.
- If you have any questions about this assessment, please contact Chris Stringer at RTI International. His phone number is 919-541-7218 and his email is stringer@rti.org.

CDC estimates the average public reporting burden for this collection of information as 20 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0879).

County Health Policy Implementation Assessment

COUNT. The questions below are about the health department where you work. Our records indicate that you work for the A County Health Department. Please think about the A County Health Department when answering questions in this assessment.

Please answer each question to the best of your ability. We expect that one local health department employee, such as a department head or chronic disease director, should be able to answer questions on behalf of the department. If you find that you are not the best employee to provide a response, please email stringer@rti.org and include the contact information of a suitable replacement.
