XDR TB Contact Investigation: A Cost Assessment

Dear colleague

Thank you for collecting data needed for calculating the cost of the contact investigation that resulted from the arrival of the XDR TB patient in April 2015. If you have the data ready to communicate, may I call to interview you about results? If you have the data on hand, but not yet in the spreadsheet, I would like to enter your results during our call. If you filled in the spreadsheet in advance, please send it to me via fax; I can add them to the master spreadsheet beforehand, and discuss the results with you during our call. Are you available sometime in the near future?

Best regards

Sam
