

Prior Authorization Policies for Pediatric ADHD Medication Prescriptions

Form Approved OMB No. 0920-0879
Expiration Date 03/31/2018

Instructions

Welcome! This information collection is meant for state Medicaid Medical Directors, or their designee, with knowledge of state Medicaid policies related to pediatric attention-deficit/hyperactivity disorder (ADHD) treatment. The Policy Surveillance Program at Temple University Beasley School of Law (PSP) and the Centers for Disease Control and Prevention (CDC) have already begun collecting information about your state's Medicaid policies from publicly available sources. The purpose of this questionnaire is to verify that we collected the most up-to-date and accurate information from your state.

Your feedback is important to us. Your participation will help us identify where and why there are gaps in Medicaid reimbursement related to ADHD treatment, which will allow us to conduct more precise analyses on the impacts of these policies.

Completing the questionnaire is voluntary and takes approximately 20 minutes. Please note that any personally identifiable information about respondents related to their official duties (name, position, agency, phone, and email) will be removed when the results of this questionnaire are aggregated for analysis. Responses will be kept secure and will not be shared with other respondents or other entities. There are no known risks or direct benefits to you from participating or choosing not to participate, but your answers will help CDC improve its understanding of Medicaid policies that influence pediatric ADHD treatment and might help other states develop or improve their policies.

If you have any questions or concerns about this questionnaire, please email CDC at ADHDpolicy@cdc.gov.

To begin, please proceed to page 2.

When you have completed the questionnaire, please click the SUBMIT button on page 1 or email the survey as an attachment to ADHDpolicy@cdc.gov.

CDC estimates the average public reporting burden for this collection of information as 20 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0879).

SECTION A

The Temple PSP and CDC have compiled information on ADHD prior authorization policies across all states and the District of Columbia. For the purposes of responding to all questions below, a prior-authorization policy is defined as any policy that requires prior authorization, additional review, or other additional prescriber involvement for obtaining approval and payment for ADHD medications prescribed to children younger than age 18 years.

The policy information we have compiled should reflect what was accurate for your jurisdiction as of November 1, 2015.

1. Please review [Appendix A](#) to verify the prior authorization policy information we collected for your state. Is the information listed in Appendix A the most up-to-date policy in your state?

- Yes
- No, we have updated our policy since November 1, 2015
- No, we did not have a policy on November 1, 2015, but we now have a policy
- No, the policy you have provided is incorrect
- Other

If your state Medicaid program does NOT currently have any prior-authorization policy limiting ADHD medication prescriptions to children younger than age 18 years, PLEASE SKIP AHEAD TO SECTION B.

If you answered "No" to question 1, please email a copy of the most recent version of your state's policy to ADHDpolicy@cdc.gov, and include the policy's effective date.

2. Please review [Appendix B](#) to verify the table listing characteristics of your state's policy. Are all of the responses correct as of November 1, 2015?

- Yes
- No, at least one response is not correct as of November 1, 2015
- Unsure whether all responses are correct as of November 1, 2015

If you answered "Yes" to question 2, please skip question 3 and continue to question 4.

3. Please indicate below which questions you believe we did not correctly answer in [Appendix B](#). Then, please add an explanation in the box to the right.

Questions from Appendix B

Does your state Medicaid program have a policy that requires prior authorization for ADHD medications prescribed to children younger than age 18 years?

The answer to this question in Appendix B is not correct.

Please explain.

Which ages require prior authorization?

The answer to this question in Appendix B is not correct.

Please explain.

Does the policy automatically deny authorization for certain ages?

The answer to this question in Appendix B is not correct.

Please explain.

Does the policy specify ADHD medications that require prior authorization?

The answer to this question in Appendix B is not correct.

Please explain.

Are stimulants included?

The answer to this question in Appendix B is not correct.

Please explain.

Questions from Appendix B (continued)

Reminder: If you answered "Yes" to question 2, please skip question 3 and continue to question 4.

Are non-stimulants included?

The answer to this question in Appendix B is not correct.

Please explain.

Does the policy list criteria for approval?

The answer to this question in Appendix B is not correct.

Please explain.

What criteria are listed to receive approval?

The information in Appendix B is not correct.

Please explain.

4. How is the prior authorization approval process triggered in your state?

- At the medication's point-of-sale
- When the prescriber submits a prior authorization form to a reviewing body
- Other (please explain)

5. Is the prior authorization request peer-reviewed by medical experts?

- Yes
- No
- Don't know
- Other (please explain)

6. When was the very first prior authorization policy implemented in your state for children younger than age 18 years? (Please indicate "unsure" if you do not know the date.)

7. Has your program ever evaluated this prior authorization policy's effect on prescription rates for ADHD medications?

- Yes
- No
- Don't know

If yes, please explain below.

SECTION B

Please answer the following additional questions regarding behavioral health carve-outs for services provided to children (< age 18 years) in your state Medicaid program.

8. Does your state Medicaid program currently carve out behavioral or mental health services provided to children?

- Yes
- No
- Don't know

If you answered "No" to question 8, please skip ahead to question 11.

9. If your Medicaid program currently carves out any behavioral or mental health services for children, which services are carved out?

- Outpatient behavioral/mental health services
- Inpatient behavioral/mental health services
- Prescription drugs
- Substance abuse services

Other (please explain)

10. How are they carved out?

- Carved out to a fee-for-service delivery system
- Carved out to a behavioral health organization

Other, please explain

11. Please complete the following matrix to indicate whether your state has ever carved out children's behavioral health services in the past 5 years.

	Not Carved Out	Carved Out	Unsure
2015	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2014	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2013	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2012	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2011	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2010	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

12. Please use this space to provide additional comments about the dates of your state's carved out behavioral health services in the past five years, if necessary.

Please contact [CDC](http://www.cdc.gov) with questions or to discuss your state's Medicaid program in greater detail.

Contact Information

13. Please provide the following information about the person who completed this survey:

First name:

Last name:

Job title:

Description of your position:

State:

Department:

E-mai:

Phone:

14. Has this survey been delegated to you by the Medicaid Director or Medicaid Medical Director in your state?

- Yes
- No
- Don't know

15. Please use this section to provide any additional comments or information about your state Medicaid program's policies related to ADHD medication prescription to children under age 18 years and/or behavioral health services carve outs. You may also email [CDC](#) to share any additional information.

When you have completed this survey, please click the SUBMIT button on [page 1](#) or email the survey as an attachment to ADHDpolicy@cdc.gov.

Prior Authorization Guidelines ADHD Medications in Children Under 6 Years Old

FDA Approved Indication:

Treatment of Attention Deficit Hyperactivity Disorder (ADHD)

Guidelines for Approval:

1. The requesting clinician has documented that the child has a diagnosis of ADHD
2. Psychosocial issues and non-medical interventions are being addressed by the clinical team.
3. Documentation of psychosocial evaluation occurring before request for ADHD medications.
4. Documentation of non-medication alternatives that have been attempted before request for ADHD medications.

Additional Requirements:

Children under 6 years old will be monitored in accordance with the ADHS/DBHS Clinical Practice Protocol on Psychiatric Best Practice Guidelines for Children: Birth to Five Years of Age.

Coverage is Not Authorized for:

1. Indications other than ADHD.
2. Doses greater than FDA recommended maximum daily dosage.

References:

1. ADHS/DBHS: Provider Manual Section 3.15: Psychotropic Medication: Prescribing and Monitoring
2. Manufacturer Product Information
