

Attachment D- Launch Email

Dear (insert name),

A few weeks ago, you received an email from CDC/NCBDDDD/DHDD/CDS informing you about an assessment of CDC's database of Medicaid program policies related to pediatric ADHD medication prescriptions.

To take the assessment, please download, complete, and submit the attached Adobe PDF form by [DATE].

Your participation in this assessment is very important to ensuring that we have accurately characterized your state Medicaid program's prior authorization and PDL policies.

With your input, we hope to:

- Confirm, update, and supplement the current content on LawAtlas (www.lawatlas.org)
- In conjunction with Medicaid claims data (MAX data), evaluate the impact of these policies on ADHD medication and behavior therapy treatment rates in young children.
- Create a publicly available, interactive database that characterizes the ADHD medication prior authorization policies and behavioral health services delivery models for all U.S. states and D.C.

Thank you again for your support and cooperation!

Sincerely,

Susanna Visser, MS, DrPH
Lead Epidemiologist, Child Development Studies Team
