

Attachment G: Questionnaire Invitation

SUBJECT: Your opinion matters: Help CDC improve its website designed to support public health professionals like you!

Dear Colleague,

As a public health professional and vital CDC partner, will you take a few minutes to share your opinion about how our website could better meet your needs?

CDC's [State, Tribal, Local, and Territorial Public Health Professionals Gateway](#) – also known as the “STLT Gateway” – is a hub for public health data, information, and news for state, tribal, local, and territorial public health professionals. As we prepare to redesign this website, we want to learn about which topics interest you most, what information and materials you would find most useful, and your experiences with the site.

We also want to hear from you if you haven't visited the STLT Gateway. Understanding your information needs will help us improve our website by making it more useful and relevant to you.

Below is a link to a brief questionnaire about the site. It should take only about 5 minutes to complete.

[STLT Gateway Assessment](#) *(This will link to the online questionnaire when available)*

Completing this questionnaire is voluntary. Your responses to all questions will be kept secure, and CDC will share only aggregated data.

Our goal is to craft an exceptional website that provides you with timely, easy-to-find information, so I hope you will join us in this process. Your participation would be an invaluable contribution to CDC.

If you have any questions about this questionnaire, please contact us at ostltsfeedback@cdc.gov.

Thank you.

Sincerely,

José T. Montero, MD, MHCDS
Director, Office for State, Tribal, Local and Territorial Support
Deputy Director, Centers for Disease Control and Prevention
