

OBSSR Behavioral and Social Intervention Grant Principal Investigators Customer Satisfaction Survey

OBSSR E-mail Invitation to Participate in an Online Survey

Letter #3-Behavioral and Social Intervention Grant Principal Investigators Customer Satisfaction Survey (To be sent by OBSSR to introduce the survey)

Subject Line: *Special Request to Participate in NIH Online Survey*

Sent on behalf of Dr. Stephane Philogene

Dear [*Colleague*]:

The Office of Behavioral and Social Sciences Research (OBSSR), Division of Program Coordination, Planning, and Strategic Initiatives, Office of the Director of the National Institutes of Health (NIH) is conducting a customer satisfaction survey of Principal Investigators who have conducted behavioral and social intervention research supported by NIH. Over the past decade, OBSSR has strongly supported and promoted behavioral and social intervention research across the NIH. You are listed as a Principal Investigator for one of the NIH behavioral and social intervention grants actively funded during this period. The survey will examine the nature, structure, characteristics, and accomplishments of this research and assess your satisfaction with this NIH initiative. The goals of this survey are to increase knowledge about this approach and identify opportunities to improve the application of behavioral and social intervention research principles and methods to advance scientific endeavors.

To accomplish these goals, we are inviting you and other NIH behavioral and social intervention Principal Investigators to complete a brief online survey. Our contractor, The Madrillon Group, Inc., will send you a link to the survey in the next few days. Your participation and prompt response will be greatly appreciated.

On behalf of OBSSR, thank you for your consideration of this request to provide valuable input.

Sincerely,

G. Stephane Philogene, Ph.D.

**Deputy Director, Office of Behavioral and Social Sciences Research
Division of Program Coordination, Planning, and Strategic Initiatives
Office of the Director, the National Institutes of Health**
