[CLICK FOR DESCRIPTION OF BENEFIT](#)

Does your plan offer a Medicare Prescription drug (Part D) benefit?

Select the type of drug benefit:

- Defined Standard Benefit
- Actuarially Equivalent Standard
- Basic Alternative
- Enhanced Alternative

Describe the components of your network (select all that apply):

- Standard Retail Cost-Sharing
- Standard/Preferred Retail Cost-Sharing
- Out-of-Network Pharmacy
- Standard Mail Order Cost-Sharing
- Standard/Preferred Mail Order Cost-Sharing
- Long Term Care Pharmacy

A plan should specify both standard and preferred mail order cost-sharing if it will require different cost sharing amounts at different mail order locations, even if both standard and preferred mail order pharmacies are not currently included in its network.

Unless sponsor's compliance is waived by the regulation, sponsor must comply with 42 CFR § 423.154 beginning January 1, 2013 regarding the appropriate dispensing of prescription drugs in long-term care (LTC) facilities. This section requires, among other things:

- 1) that certain drugs be dispensed to Part D enrollees in LTC facilities in no greater than 14-day increments;
- 2) that the use of uniform dispensing techniques as defined by each of the LTC facilities be permitted;
- 3) that information be collected and reported in a form and manner specified by CMS on the dispensing methodology used for each applicable dispensing event and on the nature and quantity of unused brand and generic drugs dispensed to Part D enrollees in LTC facilities;
- 4) that the total cost-sharing for a Part D drug to which the LTC dispensing requirements apply must be no greater than the total that would be imposed if the requirements did not apply; and
- 5) that the terms and conditions offered by the sponsor to a network pharmacy must include provisions that address the disposal of drugs that have been dispensed to Part D enrollees in LTC facilities but not used and returned to the pharmacy, including whether credit and reuse is authorized.

Sponsor attests that it will comply with 42 CFR 423.154.

Does plan utilize floor pricing?

Yes
 No

Floor pricing is used when a sponsor negotiates a minimum price, such as for very low cost generics, that a pharmacy(ies) will be paid for filling a prescription.

Does plan utilize ceiling pricing?

Yes
 No

Ceiling pricing is used when a sponsor negotiates a maximum price that a given pharmacy will be paid for a specific NDC. Ceiling pricing is often used for high cost generics.

Do you offer a free first fill (i.e. \$0 copayment) for any drugs?

Yes
 No

Example: If your plan offers a \$0 copay for the first fill of a Lipitor prescription, you should answer 'yes' to 'Do you offer a free first fill for any drugs' and indicate the RxCUI for Lipitor in the flat file which must be uploaded through the Formulary Submission Module by Friday, June 6, 2014 at 12:00pm Eastern Time.

Are there quantity limits on certain prescription drugs?

Yes
 No

Is prior authorization required for certain prescription drugs?

Yes
 No

Do any drugs in your formulary require a step therapy plan?

Yes
 No

Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?

Yes
 No

If you select "Yes" to "Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 6, 2014 at 12:00pm Eastern Time.

OTC Medication Attestation statement

Per Chapter 4 of the Medicare Managed Care Manual, an MAO cannot offer the same OTC drug under both its Part C supplemental benefit and its Part D benefit. I attest any OTC drugs that are covered under Part C are separate and distinct from OTC drugs covered under Part D.

Do you offer OTCs as a part of a formal Step Therapy Protocol submitted for review and approval by CMS?

Yes
 No

With respect to OTCs, a Step Therapy protocol is one that requires the use of the OTC product prior to receiving a prescription formulary drug. This is in contrast to a general utilization management strategy that offers OTCs as alternatives to prescription formulary drugs but without a requirement to try the OTC first. All OTC drugs used in either a Part D Step Therapy Protocol or a general utilization management strategy must appear in an OTC supplemental file. However, only those OTCs used in a Step Therapy Protocol must be documented in the Step Therapy Criteria text files submitted with the formulary files.

CY 2016 PBP Data Entry System Screens

Medicare Rx General 3

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The window has a menu bar with "File" and "Help". Below the menu bar is a navigation bar with four buttons: "Previous" (left arrow), "Next" (right arrow), "Exit (Validate)" (green checkmark), and "Exit (No Validate)" (red X). To the right of these buttons is a "Go To:" dropdown menu currently set to "Medicare Rx General 3".

The main content area contains two input fields on the left and explanatory text on the right:

Indicate number of Tiers in your Part D benefit:

What is your Formulary Exception Tier?

Each plan must indicate one specific cost-sharing tier from its PBP at which it will adjudicate all non-formulary drugs approved through the formulary exceptions process.

Although CMS generally allows Part D sponsors to apply only one level of cost sharing from an existing formulary tier to all approved formulary exceptions, sponsors may also elect to apply a second less expensive level of cost sharing for all approved formulary exceptions for generic drugs, so long as this second level is also associated with an existing formulary tier and is uniformly applied to all approved formulary exceptions for generic drugs.

When designating the exceptions tier in a PBP submission, sponsors can enter only one level of cost sharing. Thus, a sponsor that has established a second (less expensive) level of cost sharing should indicate the more expensive cost-sharing tier of the two tiers as its Exceptions Tier.

Actuarially Equivalent Characteristics

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar with "File" and "Help", and a toolbar with "Previous", "Next", "Exit (Validate)", and "Exit (No Validate)" buttons. A "Go To:" dropdown menu is set to "Actuarially Equivalent Characteristics". The main content area is titled "Actuarially Equivalent Benefit Screens" and contains the following text:

Medicare-defined Part D Deductible Amount

Indicate the Out-of-Network cost sharing structure for this plan:

- Standard Retail Copay/Coinsurance (No Differential)*
- Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable
- Standard Retail Copay/Coinsurance with Limited Days supply

*If a plan chooses this option and does not utilize either a differential in cost sharing or a differential in days supply for out of network coverage, CMS' expectation is that the plan is monitoring for appropriate out of network use with either a post authorization process or alternate review tool.

Alternative – Deductible

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Go To: Alternative - Deductible

Previous Next Exit (Validate) Exit (No Validate)

Basic/Enhanced Alternative Benefit Screens

During the deductible phase, is the cost-sharing for drugs to which the deductible does not apply, the same as the Pre-ICL cost-sharing for all locations?

Do you charge the Medicare-defined Part D Deductible amount?

Yes
 No, enter amount
 No Deductible

Enter Deductible Amount:

Does the Deductible apply to all tiers?

Yes
 No

Indicate each tier for which the deductible will NOT apply (select all that apply, please note that the deductible will not apply to any of the drugs on each tier selected):

Tier 1
 Tier 2
 Tier 3
 Tier 4
 Tier 5
 Tier 6

Indicate the type of cost sharing structure for these drugs until the deductible is reached:

Coinsurance
 Copayment
 Greater of Coinsurance and Copayment
 Lesser of Coinsurance and Copayment

Enter Coinsurance percentage: Enter Copayment amount:

Indicate the Out-of-Network cost sharing structure for this plan:

Standard Retail Copay/Coinsurance (No Differential)*
 Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable
 Standard Retail Copay/Coinsurance with Limited Days Supply

*If a plan chooses this option and does not utilize either a differential in cost sharing or a differential in days supply for out of network coverage, CMS' expectation is that the plan is monitoring for appropriate out of network use with either a post authorization process or alternate review tool.

CY 2016 PBP Data Entry System Screens

Alternative – Enhanced Alternative Characteristics

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Go To: Alternative - Enhanced Alternative Characteristics

Previous Next Exit (Validate) Exit (No Validate)

Do you offer reduced Part D cost sharing as part of your supplemental Part D Benefit?

Yes
 No

Do you offer additional cost-sharing reductions in the coverage gap?

Yes
 No

Indicate the area(s) throughout the Part D benefit where the reduced Part D cost sharing is reflected (select all that apply):

Reduced deductible
 Reduced pre-ICL cost shares
 Raised ICL
 Reduced post-threshold cost shares

Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)? (Enhanced Alternative ONLY).

Yes
 No

If you select "Yes" to "Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 6, 2014 at 12:00pm

Is there a Maximum Plan Benefit Coverage amount for excluded drugs?

Yes
 No

Indicate Maximum Plan Benefit Coverage amount for excluded drugs:

Additional reductions in gap cost-sharing offered by enhanced alternative (EA) plans through a supplemental benefit represents cost-sharing that is significantly better than the defined standard cost-sharing benefit for generic and brand drugs that must be offered by all plans. In addition, the gap cost-sharing reductions offered by EA plans provides for additional savings on brand drugs that are applied before the coverage gap discount. The additional gap cost-sharing reductions entered in the PBP will be inclusive of the standard benefit (35% reduction in beneficiary cost-sharing for generic drugs and 5% reduction in cost-sharing for brand drugs in 2016), but will be in addition to the coverage gap discount for brand

For example, if a sponsor enters beneficiary cost-sharing of 30% for tier 1 generic drugs in the coverage gap, the defined standard generic drug gap benefit would be satisfied and included in the 70% reduction in cost-sharing provided through the supplemental Part D benefit. In contrast, if a sponsor enters beneficiary cost-sharing of 40% for tier 2 brands, the defined standard brand drug gap benefit would be satisfied and included in the 60% reduction in cost-sharing provided through this supplemental benefit. However the reduction in cost-sharing (plan liability) would be applied first to the plan-negotiated price of the drug, followed by the coverage gap discount of 50% of the remaining drug cost.

The 2016 defined standard gap coverage benefit of 35% for generic drugs and 5% for brand drugs and the coverage gap discount for brand drugs applies to all benefit types and must be reflected in each plan's bid, but should NOT be entered in the PBP. The gap coverage section of the PBP is only intended for those EA plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit.

CY 2016 PBP Data Entry System Screens

Alternative – Pre-ICL

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The window has a menu bar with "File" and "Help". Below the menu bar is a navigation bar with four buttons: "Previous" (left arrow), "Next" (right arrow), "Exit (Validate)" (green checkmark), and "Exit (No Validate)" (red X). To the right of these buttons is a "Go To:" dropdown menu currently set to "Alternative - Pre-ICL".

The main content area contains the following text and form elements:

How do you apply your cost sharing before the Initial Coverage Limit (ICL) is reached?

- No cost sharing
- Medicare-defined Part D Coinsurance Amount
- Cost Share Tiers

Does this apply to the excluded drug only tier?

- Yes
- No

CY 2016 PBP Data Entry System Screens

Alternative – OOP Threshold

The screenshot shows a web-based data entry application window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar with "File" and "Help", and a navigation bar with "Previous", "Next", "Exit (Validate)", and "Exit (No Validate)" buttons. A "Go To:" dropdown menu is set to "Alternative - OOP Threshold".

The main content area displays the following text and form elements:

Medicare-defined Part D Annual Out-of-Pocket Cost Threshold

How do you apply your cost sharing beyond the Medicare-defined Part D Annual Out-of-Pocket Cost Threshold?

- No cost sharing
- Medicare-defined Post Threshold Cost Shares
- Cost Share Tiers

Does this apply to the excluded drug only tier?

- Yes
- No

Exit (Validate)
Exit (No Validate)

Enter number of days for:

1-Month	2-Month	3-Month	Other Day
---------	---------	---------	-----------

Are all of the drugs on your formulary available with an extended day supply?

 Yes
 No

Select all Location/supply amounts that apply:

Standard Retail Cost-Sharing - one month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Standard Retail Cost-Sharing - two month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Standard Retail Cost-Sharing - three month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Out-of-Network Pharmacy - one month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Out-of-Network Pharmacy - other day supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Standard Mail Order Cost-Sharing - one month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Standard Mail Order Cost-Sharing - two month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Standard Mail Order Cost-Sharing - three month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Long Term Care Pharmacy - one month supply	<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	

When you select a 2-month and/or a 3-month supply at a retail or mail order pharmacy, you must indicate whether or not all drugs on the entire FORMULARY are available with an extended day supply.

The 2016 defined standard gap coverage benefit of 35% for generic drugs and 5% for brand drugs and the coverage gap discount for brand drugs applies to all benefit types and must be reflected in each plan's bid, but should NOT be entered in the PBP. The gap coverage section of the PBP is only intended for those EA plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit.

Medicare Rx – Attestations

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Previous Next Exit (Validate) Exit (No Validate) Go To: Medicare Rx - Attestations

Sponsors who utilize a coinsurance cost-share structure are required to enter the Average Expected Cost Sharing amount. The average expected cost share amount represents the average expected cost-sharing amount in dollars that a beneficiary would be expected to pay at a network retail pharmacy for a one month supply of drugs.

Average Expected Cost sharing Attestation:

I attest that the value(s) entered have been reviewed by the plan's certifying actuary and are accurate

Sponsors who choose to offer a dual eligible SNP with zero dollar cost-sharing under Part D must buy down the entire 25% actuarial equivalent cost-sharing amount using MA rebate dollars in the bid. Per Chapter 13 of the Medicare Prescription Drug Benefit Manual, sponsors do not have an option of only applying MA rebate dollars to the statutory patient pay amounts and receiving federal cost-sharing subsidies for the remainder.

Zero Dollar Cost Sharing Attestation:

I attest that it is the plan sponsor's intention to buy down the entire cost-sharing amount for the zero dollar cost-share tier(s) and this has been confirmed with the plan's certifying actuary.
