

The U.S. Department of Health and Human Services' Office of Minority Health (HHS OMH) is sponsoring an inaugural evaluation to systematically examine and document the awareness, knowledge acquisition, adoption, and implementation of *The National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care* (the *National CLAS Standards*) among health and health care organizations (H/HCOs) in the United States. The results of this unprecedented study will inform the development of a practical tool to guide H/HCOs such as your organization in their efforts to provide quality care to the culturally and linguistically diverse populations they serve.
