What types of medical care do you receive from VA? (Please select all that apply)

What other type of care do you receive from VA?

How much time does it take for you to travel to the VA location where you receive care?

Do you get care from any health care providers in the community who are not part of VA (community non-VA providers)?

What types of medical care do you receive from community non-VA providers? (Please select all that apply)

--

What other type of care do you receive from community non-VA providers?

Does VA pay for the care you receive from community non-VA providers?

Thinking about the past 2 years, when receiving care for a medical problem:

In the past 2 years, was there EVER a time when previous test results or your medical records from one organization were not available at the time of your scheduled medical care appointment at another organization?

In the past 2 years, was there EVER a time when your health care provider(s) ordered a medical test that you felt was unnecessary because the test was ordered/completed by your other health care provider?

In the past 2 years, was there EVER a time when you received information from your VA provider or community non-VA provider that conflicted?

To coordinate your care, it is important for health information to be shared between all your healthcare providers. In some locations, VA has connected with non-VA health care organizations to share medical record information electronically for medical treatment.

If you had a choice, which of the following options would you most prefer when it comes to permission needed to have your VA health information shared electronically with community non-VA providers for medical care?

Please indicate your agreement with the following statements:

I am comfortable with my medical records being shared electronically between VA and community non-VA providers for treatment.

I would like to use a mobile application ('app') or device to share my VA health information with community non-VA providers.

I prefer that my VA providers and community non-VA providers are responsible for sharing my health information with each other (i.e., other than providing consent, I do not need to be involved in sharing my health information).

There may be parts of my VA medical record that I would not want to share with community non-VA providers (and vice versa).

What types of information would you not want shared between providers if it was in your medical record? (Please select all that apply)

What other types of information would you not want shared between providers?

I want to share my VA health information such as my medication list, or notes from medical visits, with family members or other informal care givers.

I want to review my VA health information when meeting with my community non-VA providers.

I prefer to be the only one responsible for sharing information between my VA and community non-VA providers.

I am confident that if my health information is available electronically to others for medical care, it will be secure and protected from being viewed by individuals that should not have access to my health information.

Are you aware of the “Connect Your Docs” or Virtual Lifetime Electronic Record (VLER) Health Information Exchange program where, with your consent, VA can share your VA medical record information with community non-VA partners?

How did you learn about “Connect your Docs”/ Virtual Lifetime Electronic Record (VLER) Health Information Exchange program? (Please select all that apply)

How else did you learn about "Connect your Docs"/ Virtual Lifetime Electronic Record (VLER) Health Information Exchange program?

Are you aware that you can provide your consent/authorization online for the "Connect your Docs"/Virtual Lifetime Electronic Record (VLER) Health Information Exchange program through eBenefits?

Have you ever provided your consent to participate in the "Connect your Docs"/Virtual Lifetime Electronic Record (VLER) Health Exchange program?

Please share why you have not provided your consent. (Please select all that apply)

Why else have you not provided your consent?

My HealtheVet offers VA patients the option to download a VA Health Summary using a feature called Blue Button. The VA Health Summary contains a summary of information from your VA medical record, such as medications, allergies, and recent lab test results. It can then be shared with others involved with your health care. Are you aware of the VA Health Summary?

Have you used My HealtheVet to access your VA Health Summary?

How did you use your VA Health Summary? (Please select all that apply)

How else did you use your VA Health Summary?

How would you like VA to provide more information about your options for health information exchange such as the "Connect the Docs" program or the VA Health Summary in My HealtheVet? (Please select all that apply)
