### **Model Questions**

As discussed during the kick-off call, the model questions are part of the ForeSee methodology. For consistency wit the model, these questions are standardized and have been tested and validated. Standardization of model questio allows benchmarking across companies/industries, and these questions are used in calculating scores and impacts.

Focus on the future behaviors; I've started with some that I believe are a good fit but we can certainly make adjustments. These are desired customer outcomes that are impacted by customer satisfaction.

## **Custom Questions**

When reviewing the custom questions tab, keep in mind these questions are used for segmentation analysis of the model data. It is suggested that you add, delete or change custom questions over time, as your needs or business objectives change.

## **Making Changes**

Simply make the change that you desire and highlight that change with a different color text. Red works well becaus stands out.

If the change is "complicated" a brief explanation about what you would like to accomplish will help us understand you request and figure out the best way to implement. -Or- Just give us a call; talking through changes over the phone makes it quick and easy.
