

§701.34 Designation of low income status; Acceptance of secondary capital accounts by low-income designated credit unions.

(2) Low-income members are those members whose family income is 80% or less than the median family income for the metropolitan area where they live or national metropolitan area, whichever is greater, or those members who earn 80% or less than the total median earnings for individuals for the metropolitan area where they live or national metropolitan area, whichever is greater. NCUA will use the statewide or national, non-metropolitan area median family income instead of the metropolitan area or national metropolitan area median family income for members living outside a metropolitan area. Member earnings will be estimated based on data reported by the U.S. Census Bureau for the geographic area where the member lives. The term "low-income members" also includes those members enrolled as students in a college, university, high school, or vocational school.

Credit unions can submit their member addresses based on this regulation to receive designation outside of an examination.
