

NIST, Boulder, CTL, Building 3 Workspace Survey
- Recruitment email message

Dear CTL Staff,

As you know, Building 3 renovations are currently in progress to house many of our CTL personnel. We are aiming to have this new space provide an open, collaborative, and productive environment in which to work. To that end, I would like to request your participation in a survey regarding your workspace preferences and needs.

I am pursuing a Master's degree at the University of Colorado, Denver. For my capstone project, I have been asked by CTL to research and evaluate cubicle/open workspace design and provide recommendations on how to best plan the new space for CTL. I am conducting this survey as part of my capstone project. The survey should only take about 10 minutes to complete, and is completely voluntary and anonymous.

Thank you!
