

Building 3 CTL Workspace Survey - Spring 2018

▼ Default Question Block

Block Options ▾

■ Q1

OMB Control #0693-0031

Expiration Date: 05/31/2018

(NIST Generic Request for Customer Service Related Data Collections)

Thank you for participating in this survey, which should only take approximately 10 minutes to complete. Your feedback is greatly appreciated by the Communications Technology Laboratory (CTL) at NIST. The purpose of this study is to evaluate employee satisfaction with Building 3. You were selected to participate because you are an occupant of the building. Once the responses have been compiled, a report will be provided to CTL highlighting the results and suggesting any changes that may still need to be made to the space. This survey is anonymous and confidential. Participation is completely voluntary and may be stopped at any time.

■ Q2

Please choose the closest description of your role.

- Scientific/technical
- Administrative

Q15 What (if any) additions or improvements would you like to see in Building 3?

Q17 Do you have any additional information, reactions, suggestions, or thoughts you would like to share?

Q18

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the National Institute of Standards and Technology, Attn: Chris Carson, christine.carson@nist.gov.
