## **Health Message Testing System Expedited Review Form**

1. Title of Study: (Please append scr	reener and questionnaire)		
Communities Putting Prevention to Work (CPPW) National Media Initiative — Message Testing			
2. Study Population: (Discuss study	population and explain how they will be selected/recruited.)		
The study population will be the general public. Participants will be recruited through random-digit-dialing of both landline and cell-phone-only households. Participants will be recruited from zip codes that have a high prevalence of people with characteristics of interest, including zip codes with a diverse mix or race/ethnicity. Participants will be selected from the general public because the messages may be used in both current CPPW communities as well additional communities in the future.			
Respondent characteristics:	NI L		
Number of subject: 300	Number of males: 150		
Age range: ≥24	Number of females: 150		
Race/ethic composition:			
	otas. Participants will be a mix of race/ethnicity.		
<del>-</del>	al group status: (e.g., risk group, health care providers)		
Type of group(s):	General public		
Geographic Location(s):	United States, including Hawaii and Alaska		
3. Incentives: (State what incentive v	will be offered and justify proposed incentives to be used in study.)		
Participants will not receive an incentive	ve for their participation.		
4. Study method: (Please check one below)  Central location intercept interview: Focus group: Individual in-depth interview (cognitive interview): Telephone Interview: X (CATI used: yes or no): Yes  Other (describe):			
<b>5. Purpose of the overall communica</b> (Please provide 2-3 sentences below	tion effort into which this health message(s) will fit:		
The Centers for Disease Control and Prevention (CDC) is conducting message testing to supplement the multiple communication efforts currently underway for the Communities Putting Prevention to Work (CPPW) initiative. CDC staff are in need of current information to address the following overarching question: What messages or language do we use to talk about obesity-related issues with multiple audiences across the United States?			
<b>6. Category of time sensitivity: (</b> Please Health emergency: T Press coverage correction: T	se check one below) Time-limited audiences access: Time-limited congressional/administrative mandate: The fective existing materials due to historical events/social trends:		

7. Describe nature of time sensitivity: (Please provide 2-3 sentences below.)
The CDC CPPW initiative sought to achieve broad-reaching, high-impact, and sustainable change to reduce
chronic disease morbidity and mortality associated with obesity and tobacco use by working with grantee
communities to develop and place local media buys using creative materials from an approved pool of
content. However, some approved content has not yet been tested. It is imperative that CDC implement
message testing efforts in the immediate future to ensure that CDC resources are used to promote messages
that support environmental change.
8. Number of burden hours requested: 60 hours

8.	Number	of	burden	hours	requested:	60	hours
R	Number	Λf	hurden	hours	requested.	60	hours
u.	Mulliber	UΙ	Dui ucii	nours	requesteu.	υu	Hours

## **BURDEN HOURS**

Category of Respondent	No. of	Participation	Burden
	Respondents	Time	
General Public	300	12 minutes	60 hours
Totals	300	12 minutes	60 hours

9. Are you using questions from the approved question bank?	Yes
If <b>ves</b> please list the item number(s) for questions used from the qu	estion bank senarated by a comma

(e.g., 1a, 3c, 130d)

_	(c.g., 1a, 5c, 150a)
	1a, 4a, 6d, 13a, 51f, 69e

***Items below to be completed by Office of Ass	sociate Director for Communication (OADC)***
<ol> <li>Number of burden hours remaining in current ye</li> <li>OADC confirmation of time-sensitivity:</li> </ol>	ar's allocation:
