10-MINUTE ASSESSMENT TO RECRUIT FOR ONLINE FOCUS GROUPS

Public Reporting burden of this collection of information is estimated at 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (0920-0572).

We would like to invite you to participate in an online group discussion, also called a focus group, Thursday, July 17. The group session will last for approximately 60 minutes and will be conducted in English.

The session is being sponsored by the Centers for Disease Control and Prevention and is focused on a communications campaign about safe teen driving. The campaign highlights the message that motor vehicle crashes are the leading cause of death among teens, but there are proven steps that parents can take to help keep teens safer on the road.

To express our appreciation for assisting us with your insights, we will offer a \$75 gift for participation. But, first I'd like to ask you a few questions for background information to see if you qualify for this project.

Would you be available to participate in an online focus group on the day/time listed below?
