Community Health Maps Survey

OMB Control Number:0925-0648

Expiration Date: 3/31/2018

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN:PRA (0925-0648). Do not return the completed form to this address.

The Community Health Maps Project (<http://communityhealthmaps.nlm.nih.gov/>) helps community organizations identify and apply low-cost and easy-to-use online mapping tools (GIS). The site is a collaborative effort between the National Library of Medicine, the Center for Public Service Communications, and Bird's Eye View.

Your community may use these tools to:

- Collect and visualize your community's:
 - Health statistics
 - Demographic information
 - Local resources
 - Budgets
 - And more
- Compare statistics and resources at different locations across the community
- Explore and understand health-related and other trends

In two or three sentences, please describe the mission of your organization.

Approximately how many staff does your organization employ in total?

Number of staff members:

Smart phone and tablets can be very effective in easy-to-use low-cost GIS mapping. Do you use a smart phone or tablet (either for personal or business purposes)?

YES
 NO

Is your organization currently able to make and use GIS maps?

YES
 NO

Next

“If yes”

Community Health Maps Survey

What software are you using?

ArcGIS

QGIS

Manifold

Google Earth

Other (please specify)

Approximately how many staff in your organization have some experience making and using GIS maps?

Number of staff members:

Would you describe your GIS/mapping work as mainly:

Cartography/Making simple maps

Data Collection with GPS

Data collection with smart phone or tablet

Analysis

A mixture

Other (please specify)

In two or three sentences, please describe how you have used GIS:

Has your GIS/mapping work involved using any publicly available datasets (e.g., Census data, publicly available state GIS data)?

Yes
 No

If yes, which?

What other potential GIS/mapping projects could benefit your organization?
