

ATTACHMENT 6--CHANGES TO THE NLSY97 QUESTIONNAIRE FROM ROUNDS 16 TO 17

The Round 17 questionnaire will resemble the Round 16 questionnaire with few modifications. Below, we list the sections of the Rounds 16 and 17 questionnaires, with any changes planned between the two rounds. Edits are marked in red.

Summary of changes

Household Information

- YHHI-1200 update to round 17
- HHI-PARENT-INTRO and PARENT-1 to PARENT -6 series will only be asked for R16 NIRs
- [Skip religion questions for respondent YHHI-55709 and 55709B](#)
- While confirming the date of birth, change order of fields for entering birthday to Month Date Year pattern.
- Include an experiment to investigate the efficacy of preloads in bounding the respondents' recall of migration dates.

Schooling

No changes

Employment

- Add wage bargaining questions
- Screen one cohort (1981) for business ownership.

Training

No changes

Marriage

No changes

Fertility

- We will ask questions on pre-existing nonresident children
- Questions about non-resident biological parents will only be asked for children age 0 to 5. We only want to ask these questions once of any parent of a child age 0 to 5.
- Remove lost parent questions as the information has been obtained.
- Keep fertility expectation questions that were slated for R17.

Child care

- Add child care long section from R15.
- Maintain child care abbreviated section for individuals not eligible for child care long.

Income

- Update year for YINC-550: replace 2011 with 2013.

- Update 2012 with 2014 in all questions.
- The last income question should default to assets 30 checks.
- The wording and response options for YINC-550 will be modified.

Assets:

- We will remove the assets 25 questions YAST-NEW1 to YAST25-5423.
- Everyone still gets YAST-1 to 13, YAST-CH and CHHV about current housing if they are eligible.
- Insert one new question about medical debt.
- Modify the check for YAST30-ELIG1 and 2. Add YAST35 starting at YAST35_AGE35ELIG1. This section will be just like 30, but globally replace question numbers with 35

Program participation

- Modify wording on question YPRGA-1000

SAQ:

- GRIT questions will only be asked for R16 NIRs in R17
- Reintroduced parent supportiveness question.
- Reintroduced a “whom do you turn to” question.
- Removed volunteering questions.
- Added mental health scale questions.
- The religious attendance question is being kept but the religiosity scale questions are not being asked in this round.
- Added two questions on alcohol use and the series on drug use which were last fielded in R15.

Health and Health 29

- Removed health conditions (YHEA-1006B to YHEA-1399_LOOP_END) and chronic events (YHEA-2305 to YHEA-3030)
- Added in health behaviors questions YHEA-500A to YHEA-820 from Round 15
- Added back YHEA-1893 from Round 15
- Health 29 is being fielded only to R16 NIRs.

Interviewer remarks

- Question on respondent fees has been reworded
- Insert question on type of phone used
- Insert questions on distractions during interview

5. Proposed experiment for R17 NLSY97

As part of the Round 17 main interview we are planning an experiment to help us understand data quality issues associated with fielding the NLSY97 questions without preloads. It is important for us to build a body of knowledge about the feasibility of web questionnaire administration for our questionnaire and sample. Preloads are a security risk when someone other than the respondent accesses the instrument in a web questionnaire. Therefore future plans for web administration may require fielding questions without the preloads. The results of this experiment will give us some insight into the impact of removing these preloads on data quality. In the proposed experiment we will investigate the efficacy of the preloads in bounding the respondents' recall of migration dates. We plan to investigate whether removing the preloaded address affects the respondents' reports of moving since the last interview or the timing of the moves. The sample will be split with a randomly selected 50% (control group) getting the original NLSY97 questions on migration from the Household Information section with their address at last interview preloaded. The other 50% (experimental group) will be asked modified versions of the questions on migration where the preloaded information on their prior address has been removed. The questions for both groups are shown below.

2. Screening for business ownership

In Round 17, we will pretest the identification owned business with the 1981 birth cohort only. We will do this with the intention of fully fielding the identification of businesses and extended business ownership module in Round 18 to all birth cohorts. The questions below aim only at the identification portion of the overall module planned for Round 18.

The objective of the screener in R17 is to identify businesses mimicking the NLSY79 approach but also to collect enough data to understand how if at all extant information from the NLSY 97 can help us improve data quality of reported businesses and their match with NLSY97 employment data when appropriate. We also hope to generate good estimates of what we will experience in R18 regarding the number of owned businesses and respondents owning at least one business so that we can make good timing estimates.

This section should come after Employment and before Training.

[SHOWCARD]

We would like to know whether you have ever owned a business. By business, we mean any activity operated with **regularity** for the purpose of generating **income or profit**. We are interested in all incorporated companies and partnerships in which you had any ownership share, as well as unincorporated businesses that you may have operated as a sole proprietor, independent contractor, consultant, or free-lancer. This even includes informal businesses such as cleaning services, gardening services, and the selling of goods out of your home, as long as they generated income and were operated on a regular basis. The only businesses we are not interested in are those operated on a highly sporadic basis, those carried out purely as a hobby, and those in which you were merely a shareholder or investor with no role in the operation of the company.

Since you were 18 years old, have you ever owned a business that would be of interest to us according to this description?

(REFER TO SHOWCARD FF) Before I ask you about the calendar year 2014, just one question about the previous year, 2013. What was your family income from all sources in calendar year 2013? By family, I am including you, a spouse or partner if you had one, and anyone either of you were related to who lived in your household that year.

Please tell me your total family income in 2013. You can just say the category name.

- 1 A. \$0 - \$5,000
- 2 B. \$5,001 - \$10,000
- 3 C. \$10,001 - \$25,000
- 4 D. \$25,001 - \$50,000
- 5 E. \$50,001 - \$100,000
- 6 F. \$100,001 - \$250,000
- 7 G. More than \$250,000

1. Question has been reworded:

[YIR-FEE1](#) []

Section: Interviewer Remarks

The next few questions will allow us to analyze the impact of differing respondent fees on cooperation. This information will be used to inform practices for future rounds.

The base fee (\$40) is already entered in the grid. We will ask you to enter separately any additional fees paid (e.g., NIR or final push), or other tokens of appreciation (e.g., pizza, flowers, child toys, pet treats, etc.) in the grid below. Once you have completed your entry, you will move to the next screen where the total will be presented and you will have an opportunity to review to ensure that the information is complete and accurate.

In order to enter the information, please click on "Modify Row" next to the appropriate line of the roster. If a particular fee type was not used, please leave the initial "0" for the amount.

If you enter any amounts in the in-kind payment categories, you will be asked to confirm these amounts and supply some additional information on following screens.

Please do not attempt to modify the amount next to "Total". This amount will be recalculated and presented on the following screen.
