

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Commission Information Collection
Activities (FERC-537, FERC-725F, and
FERC-725I); Comment Request

Docket No. IC14-16-000

ERRATA NOTICE

(February 11, 2015)

On January 28, 2015, the Commission published a “30-day Public Notice” in the above-captioned proceeding, *Commission Information Collection Activities (FERC-537, FERC-725F, and FERC-725I); Comment Request*¹, 80 FR 6067 (February, 4, 2015).

This errata notice serves to correct the FERC-725I section and associated table, “Reliability Standard PRC-002-NPCC-01, information collection requirements”. In the table of the FERC-725I section, the “Total Annual Burden Hours” for “R14.5: GO and TO to have evidence of a maintenance and testing program for stand-alone disturbance monitoring equipment including monthly verification of active analog quantities” is currently published as “9,960”; the correct figure is “10, 140”. In addition, the “Total Annual Cost” for “R17: RC provide certain disturbance monitoring equipment data to the Regional Entity upon request” is currently published at “\$7,625”; the correct figure is “\$1,525”.

With the updates stated above, the correct figure for the Total Burden Hours is “10,885” and the correct figure for the Total Annual Cost is “\$651,505”.

Kimberly D. Bose,
Secretary.

¹ ? Docket No. IC14-16-000 was a consolidated 30-day Public Notice including FERC-537, FERC-725F and FERC-725I. This Errata Notice pertains only to FERC-725I, *Mandatory Reliability Standards for the Northeast Power Coordination Council*.
