Introduction

Hello, my name is ______ and I'm contacting you/calling on behalf of Abt Associates, a private research organization, and the Centers for Disease Control and Prevention.

We are not selling any product. We are contacting [INSERT TARGET POPULATION] in your area to join in an interview. The purpose of the interview is to get your honest opinions and feedback on a health education initiative. No preparation is needed for this interview.

If you are eligible and choose to participate in the interview, you will receive \$25 as a token of our appreciation for participating in this interview.

To see if you are eligible to participate in the interview, we need to ask you some personal questions. It is your choice to answer these questions.

I am required to share the following information with you: There are no costs to you for being in this initiative and your participation is completely voluntary. These questions will take about 10 minutes to complete. The initiative is funded by the Centers for Disease Control and Prevention. You may refuse to answer any questions and may choose to quit at any time. The risks to you for participating in this initiative are minimal. You may experience some discomfort when answering some of the more personal questions.

We can assure you that procedures to protect the privacy of your data will be strictly followed, with your answers kept in a secure database only accessible to the researchers working on this study. If you are not eligible and/or choose not to be part of the interview, all responses you give me today will be destroyed and you will not be contacted again.

These screening questions will only take a few minutes. May I ask you the questions now?
