Hi Joanne and Karen,

Upon further review, this is not a CDC information system and FISMA, nor SA&A, nor the Privacy Act are applicable. Please let me know if you have any questions or need any additional information

Very Respectfully,

Danny

I believe they are using a excel spreadsheet correct? OCISO believes that this is not a system. See below.

Hello,

In response to your question:

Is SA&A applicable?

No. A SA&A is not applicable.

Respectfully,

Subject: FW: Discuss collection of PII for OMB-Generics

OCISO,

We have a program that will be testing the messages in the attached booklets. There is no contract associated, nor will an information system be created but they will be using an excel spreadsheet. They will be collecting names, telephone numbers, addresses, and emails from people who respond to their focus group recruitment announcements to be able to send them reminders of the day, time, and place of the focus group they have volunteered for. Is SA&A applicable? Please see the email traffic below.

Very Respectfully,

Danny
