The Sepsis Educational Effort Message and Materials Testing Survey

Public reporting burden of this collection of information varies from 15 to 25 minutes with an estimated average of 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia, 30333; ATTN: PRA (0920-0572).

### [Screener]

The results of this survey will help us learn about the public's response to the Centers for Disease Control and Prevention's (CDC's) recent campaign to raise awareness about sepsis. You will be asked to complete all or some of the survey depending on whether you have seen or heard certain messages from the CDC about sepsis within the past 5 months. The survey should take no longer than 25 minutes to complete. It is your choice to answer the questions, and you can stop at any time. As a token of appreciation for completing and submitting the entire survey, you will receive an email with "points" that you can use to redeem for prizes.

1. May we ask you some questions to see if you are a good match to take this survey?

- 🔵 Yes
- 🔵 No

### 2. How old are you?

- 🔵 Don't know
- Prefer not to answer
- Age:
- 3. Do you work in a health-related profession?
- ) Yes
- 🔵 No
- Prefer not to answer
- 4. Are you a healthcare provider?
- 🔵 Yes
- 🔵 No
- Prefer not to answer

[Disqualification Page]

Thank you for answering these questions and being willing to help us today. Those are all of the questions we have for you. If you would like to know more about the CDC's *Get Ahead of Sepsis* campaign, please visit their <u>website</u> for more information.

[Eligibility Page]

Thank you for answering these questions. We have determined that you are a good match for this survey. If you have any concerns about your participation and/or any questions about this survey, please contact the research director, Dr. Kristen Cincotta at (404) 320-4433 or <u>Kristen.Cincotta@icf.com</u>.

[Media Use and Habits]

First, we want to ask you about your media use and habits.

### [Exposure to Campaign Name]

Now we would like to ask you about a CDC campaign to raise awareness about sepsis that you may or may not have seen or heard about in the past 5 months.

6. CDC recently launched a campaign to raise awareness about sepsis. In the past 5 months, which of the following slogans or messages have you seen or heard? Please select only one.

Be sepsis aware.

Health is precious. Don't get sepsis.

Get ahead of sepsis

Be smart. Beat sepsis.

Know the threat. Prevent sepsis.

### [Perceived Effectiveness - Ad Receptivity]

13. You said that you saw messages about sepsis in [1. Print Media, 2. Online Media, 3. Television/Radio, and/or 4. Other Media] in the past 3 months. Thinking about what you saw or heard, please indicate your level of agreement with the following statements from 1-5, where 1 = strongly disagree, 2 = disagree, 3 = neutral, 4 = agree, and 5 = strongly agree.

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
The [INDICATE MEDIA] are memorable.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were interesting.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were believable.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were <i>worth</i> remembering.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] grabbed my attention.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were powerful.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were informative.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were meaningful.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
The [INDICATE MEDIA] were convincing.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$

[Exposed Respondent Questions - Consumers Only]

You said that you saw or heard messages about sepsis in one or more types of media within the past 5 months. We would like to know more about your thinking related to sepsis.

Below we present several items. Some of these items are true and some are false. Please indicate whether you believe each item is true or false.

14. Thinking about the time AFTER you saw or heard CDC's*Get Ahead of Sepsis* messages and/or materials about sepsis, please indicate whether you believe each statement is true or false.

	True	False	Don't know
Sepsis is the body's extreme response to an infection.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Only people with chronic diseases are at risk for sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Sepsis is a medical emergency requiring immediate treatment.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Any infection can lead to sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Symptoms of sepsis include confusion or disorientation, shortness of breath, high heart rate, fever, and extreme pain or discomfort.	$\bigcirc$	$\bigcirc$	$\bigcirc$
You should wait at least 24 hours before seeking medical care for suspected sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$
You should seek medical care if you have an infection that is not getting better or is getting worse.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Prevention of infections can reduce risk of sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Sepsis can cause tissue damage, organ failure, and death.	$\bigcirc$	$\bigcirc$	$\bigcirc$

15. Thinking about the time AFTER you saw or heard about the*Get Ahead of Sepsis* messaging and campaign materials, please indicate your level of agreement with the following statements:

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
I believe that even simple infections can lead to sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I believe that individuals older than 65 years, infants younger than 1 year, and individuals with chronic conditions or weakened immune systems are at higher risk for developing sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I think tissue damage and organ failure are severe problems that can result from sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I think that sepsis is a severe problem that can lead to death.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I believe that I can prevent infections that could lead to sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I believe that I can recognize the signs and symptoms of sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I believe that if I have an infection that is not getting better, or is getting worse, or if I suspect sepsis, I should seek immediate medical care.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I plan to use Get Ahead of Sepsis materials and tools.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I plan to talk to my doctor or nurse about infections that can lead to sepsis.	$\bigcirc$	0	$\bigcirc$	$\bigcirc$	$\bigcirc$
I plan to get medical care immediately if I suspect sepsis (e.g., if I have an infection that is getting worse).	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$
I plan to seek more information from the <u>CDC website</u> about infections and sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$	$\bigcirc$

[Exposed Respondent Questions - Consumers Only]

Now we'd like for you to take a moment and think back to the weeks and month<u>sbefore</u> you saw or heard CDC's *Get Ahead of Sepsis* messages and/or materials about sepsis. We would like for you to answer the same questions about your knowledge and awareness from BEFORE you saw the messages and materials.

Below we again present several items. Some of these items are true and some are false. Please indicate whether you believe each item is true or false.

16. Thinking about the time BEFORE you saw or heard CDC'sGet Ahead of Sepsis messages and/or materials about sepsis, please indicate whether you believe each statement is true or false.

	True	False	Don't know
Sepsis is the body's extreme response to an infection.	$\bigcirc$	$\bigcirc$	$\bigcirc$
Only people with chronic diseases are at risk for sepsis.	$\bigcirc$	$\bigcirc$	$\bigcirc$

### [Closing - Consumer Only]

Thank you for completing this survey! Your answers to this survey will be kept private. As our thanks for your time taking this survey, you will receive "points" to redeem for prizes.

#### **REMEMBER:**

- Sepsis is a medical emergency.
- Seek care immediately if you suspect sepsis or have an infection that is not getting better or is getting worse.
- Everyone is at risk of developing sepsis and any infection can lead to sepsis.
- Preventing infections can help protect you from developing sepsis.

For more information about sepsis and the CDC's Get Ahead of Sepsis campaign, visit their <u>website</u>.
