Target Outcomes: Briefly describe outcomes targeted by the intervention (e.g., decreased parental stress, increased family functioning, decreased externalizing behavior by child)

Planned Adaptations: Describe any adaptations/enhancements planned for the intervention (e.g., the EBP was designed for children birth to five, but will be extended to children up to age 10)

Implementing Agency: Indicate which organization will be providing the EBP

Interaction with EBP Developer: Please describe the interaction, if any, you have had with the developers of the EBPs you selected over the past six months. For example, have you consulted with the program developer, received training or technical assistance on the EBP, been certified to provide the EBP, been monitored by the developer, received approval for any adaptations you are making to the model, etc.? If you were providing the EBP prior to RPG, please describe any interactions with the developer that you may have had as you began implementing the EBP.
