

## **Examples of Inquiries to the States**

Below are examples of some BLS inquiries to the states:

1. Collect feedback from the States on CES State and Area seasonal adjustment for new and redefined MSAs, as well as their use of graph files.
2. Request for the States to test connecting to a new computer that will be used for QCEW production and to report back to the BLS when they have made successful connections or had problems.
3. Request for the States to define the types of printers/models that are used to print output from the new QCEW production environment.
4. Request for the States to provide input into the development of the OES National Training agenda.
5. Request for State feedback on the performance of an estimates review tool that is being developed.
