Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether these ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise these ICRs or decide not to seek approval of revisions of the Collections. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG-2014-0992], and must be received by March 3, 2014. We will post all comments received, without change, to <http://www.regulations.gov>. They will include any personal information you provide. We have an agreement with DOT to use their DMF. Please see the ``Privacy Act'' paragraph below.

OMB Control Number: 1625-0013.

Summary: This information collection is required to ensure that certain vessels are not overloaded--as evidenced by the submerging of their assigned load line. In general, vessels over 150 gross tons or 24 meters (79 feet) in length engaged in commerce on international or coastwise voyages by sea are required to obtain a Load Line Certificate.

Need: Title 46 U.S.C. 5101 to 5116 provides the Coast Guard with the authority to enforce provisions of the International Load Line Convention, 1966. Title 46 CFR chapter I, Subchapter E--Load Lines, contain the relevant regulations.

Forms: Not applicable.

Respondents: Owners and operators of vessels.

Frequency: On occasion.

3. Title: Report of Oil or Hazardous Substance Discharge and Report of Suspicious Maritime Activity.

OMB Control Number: 1625-0096.

Summary: Any discharge of oil or a hazardous substance must be reported to the National Response Center (NRC) so that the pre-designated on-scene coordinator can be informed and appropriate spill mitigation action carried out. The NRC also receives suspicious activity reports from the public and disseminates this information to appropriate entities.

Need: Titles 33 CFR 153.203, 40 CFR 263.30 and 264.56, and 49 CFR 171.15 mandate that the NRC be the central place for the public to report all pollution spills.
